## International Schooner Race.

### MORRISSEY CLIMBS DOWN.

GLOUCESTER, Oct. 25th.—Crew of Henry Ford were working bravely this morning, putting out ballast tank aboard yesterday, after Captain Morrissey announced a reversal of his decision last night, and will race the Bluenose again to-day, under conditions that are in favor of the challenger. A light westerly wind is blowing at about ten knots, and rain is falling down. The start is to be made at eleven o'clock, Gloucester time.

### FORD LED AT STARTING LINE.

GLOUCESTER, Oct. 25th.—The fishing schooner Henry Ford led the Gloucester schooner Bluenose across the line at the start of to-day's fisherman's race. The Bluenose, however, had the better position being to weather and blanketing the American boat. The unofficial starting times were Ford 11:00:50; Bluenose 11:01:12.

### LATER.

A message from Gloucester to the Cape Company, stated that both schooners got away at 11 o'clock. At noon (New York time), the Ford was leading Morrissey having put one over on Angus by crossing stern of Bluenose and getting the weather position.

### BLUENOSE LEADS.

GLOUCESTER, Oct. 25th.—12:30 p.m. (via Anglo). Wind blowing at a steady knot rate. Bluenose somewhat ahead.

### BLUENOSE WON WEATHER POSITION.

GLOUCESTER, Oct. 25th.—Coming up to the mark Bluenose after being 10 yards astern began to gain, and night and passed Ford 100 yards from buoy, passing the latter's stern and taking her wind. Bluenose's stay-lift was hoisted before she luffed and the mark, and gained seconds by cutting the wind. The Ford was slow. By split ticks of 25 seconds. At the first buoy the boats turned the mark as follows: Bluenose 11:47:50; Ford 11:51:12.

Newfoundland Poultry Association, Annual Show, November 29th, 30th and December 1st, at C. L. P. Armoury. Get two birds ready.—Oct 25, 41, w.s.

## Wind Turned Over Train on English Road.

Some time ago a train in the West Indies was brought to a full stop and held for more than an hour by the violence of the wind. Violent tempests have been known at times to stop trains if the wind is from the direction in which the train is moving, and to impede their speed if the wind blows it. Occasions when the wind has stopped trains are rare. Such an incident occurred in France in 1893. The force of the wind was more than 150 miles per square metre, a pressure the coaches were unable to withstand. Almost at the same time, a heavily loaded freight train was brought to a standstill, it being so weighted that, on account of the wind, a force of 254 kilos per square metre would have been required to move it. More recently the British Board of Trade gave an account of a similar incident near Ulverston, on the Furness line. The convoy was composed of 10 coaches, and the travelers numbered 44. The tempest was violent. After several stops caused by telegraph poles being thrown on the track, the train was brought to a standstill in an incident the consequence of damage to a brake. While repairs were being undertaken a gust struck the train which turned it completely over.—Washington Star.

## Inter-Collegiate Football

### ST. BON'S DEFEAT COLLEGIANS.

The first round of the Inter-collegiate series of football was concluded yesterday afternoon on St. George's Field when the St. Bon's defeated the Methodist College team by a score of 6-1. In the first half St. Bon's had the best of play all through and scored 3 goals, the Collegians lads making several unsuccessful attempts to reach the net. On changing sides they had better luck and succeeded in scoring one goal. The St. Bon's, however, kept up their spirited play and notched up two more goals before the final whistle sounded. In the previous matches the Collegians boys were defeated by the Felicians. The latter have also a draw game with the St. Bon's to their credit. The teams stand St. Bon's 3, Felicians 2, Collegians 0.

## Firemen Called Out.

### ONLY A SLIGHT BLAZE.

The Central and West End Fire Companies were called out early this morning to answer an alarm from box 27, situated on Pleasant Street. The fire was discovered at the residence of Mr. Butler, and was caused by marks from a chimney igniting the woodwork of the roof. No damage was done the premises, and the "all out" was sounded a few minutes after the alarm was sent in.

Your dreams are the representation of your inner self. See this idea worked out into reality in "Dream Street" to-day at the Majestic.—Oct 25, 11

## Tar Boiler on Fire.

### BLAZE QUENCHED BY POLICE.

The tar melting pot which has been doing duty on Water Street for the past few weeks in connection with the repairs to Water Street, caught fire this morning. The blaze was discovered by Sergeant Green, who was doing early morning duty. With the assistance of a constable the fire was put out before any damage was done.

Dreams and imaginations can transform the sordid London slum into an Oriental Palace. See "Dream Street" to-day at the Majestic Theatre.—Oct 25, 11

## Feast of Saint Raphael.

### MOUNT CASHEL CELEBRATES ANNIVERSARY.

Yesterday, the Feast of St. Raphael, Mount Cashele celebrated its twenty-fourth anniversary. It was on this day that the institution was first opened and down through the years the feast has naturally never been lost sight of. Yesterday's celebration took on added interest by reason of the improvements that have been recently effected in the matter of additional accommodation, and particularly because of the strides that have been made among the boys in the way of their musical education. High Mass was celebrated in the morning by Rev. Fr. Savin who has been attached to the institution for some time. The choir was composed entirely of pupils of the orphanage under the leadership of Prof. Hutton. Upwards of one hundred and fifty boys received Holy Communion, and the sight was due to be long remembered by those who had the privilege of being present. After Mass the boys assembled in the dining hall and a special breakfast was given in honor of the day. At the conclusion, Rev. Bro. Ennis, the Superior, made a short address to the pupils pointing out the significance of the feast in the life of boys' work at Mount Cashele, and gave them a holiday in honor of the occasion. In the course of his address Br. Ennis made the glad announcement to those present that the relatives of the late Michael O'Regan had acquainted him of their intention to carry out what was always the wish of the deceased, namely to provide a substantial bequest to Mount Cashele. It had been decided that in no more fitting way could the memory of this great friend of both brothers and boys be perpetuated than by having this memorial take the form of a cottage residence for the brothers. Plans will, therefore, be prepared at once and it is hoped to embark upon the work of erection immediately. It is confidently looked forward to that the new buildings will be ready for opening on the occasion of the silver jubilee of Mount Cashele which will be on the twenty-fourth of October of next year.

TO-NIGHT — Mount Cashele Promenade Band Concert, Prince's Rink. Doors will open at 7.30 sharp. Concert 8.30. Oct 25, 11

## From Cape Race.

CAPE RACE, To-day. Wind Northwest, fresh weather, raining, preceded by a south gale this morning; the steamers Rotterdam and Sable I. passed west yesterday afternoon; nothing sighted to-day. Bar. 29.50; Ther. 44.

For Gentlemen of good taste  
Cub Cigarettes.—Sept 28, 11

## Contributed to the Gaiety of Nations.

The following excerpt is from the Chicago Tribune:

"While the Bahamas and other British West Indian islands have commercial and climatic justification as a part of the British Empire, the Bermuda Islands have not.  
"The Bermudas are small coral reefs which cannot even support human life without artificially collecting the rainfall into cisterns. Such trade as they have is with the United States.  
"The Bermudas are small coral reefs which cannot even support human life without artificially collecting the rainfall into cisterns. Such trade as they have is with the United States.  
"They form a base on which to defend the American coast line or from which to attack it and blockade it. They should be American for they have no other honest reasons for existence. The United States should buy them with some of the money owed by Great Britain."

We can picture the expressions on the countenances of our readers as they read this delightful bit. Some faces wear a broad smile; others a thunder of cloud. The people with the broad smile are right; for they know humor when they see it. If we had no other way of gauging the calibre of the Chicago Tribune than this, we should certainly form a very poor opinion of its responsibility; for nothing could be weaker or sillier or in worse taste.

While funny from the standpoint of the man who has a saving sense of humor, it cannot be said that the article is not harmful. The trouble is that it panders to a certain base element in American society. There is that in people of less stable character in all nations which is nourished by just such stuff—"stuff" is all it is—as the Chicago Tribune's article. And while it panders to the base element in the States it only inflames the sentiment of a corresponding element among Canadians and Britishers against the United States. The article is pure folly, and we hope none of our readers will take it seriously; they should not, for there is not an atom of sense in it even from what-should-be a true American standpoint.

There are some things that every sensible American knows about international relations, one of which is that Britain is America's friend, and that America needs to be on friendly terms with Britain just about as much as Britain needs to be on friendly terms with America. But Britain certainly so much needs the friendship of America that she would never entertain any notion of attacking or blockading the American coast. It must be perfectly apparent to every American who will take the trouble to think about it, that Bermuda is not maintained "with relation only to the United States." If that were the only use for Bermuda, Britain would abandon the Naval base there. It doesn't seem to occur to the Chicago Tribune that Bermuda is conveniently located with respect to almost any naval operations that Britain might have to conduct in any war that it might be her ill fortune to get mixed up in. That is no doubt fully understood by all but American jingoists and no doubt there is no place where the Chicago Tribune's article will seem more silly than in the Navy Department at Washington.

As to whether or not there is any honest reason why "the Bermudas" should be British, we should like to ask the Chicago Tribune if the fact that Bermuda has been British for three hundred years is not good enough. The people there are British to the core and have no disposition to have their allegiance sold over to the United States. The Chicago Tribune ought to be American enough to know that government should be by the consent of the governed, and if it knows anything about Bermuda it will know that the Bermudians would not willingly have their allegiance transferred to Washington. Even the Chicago Tribune ought to realize the ridiculousness of its position if it reflects on how many any group of American citizens would like to have their allegiance sold to any other government than that under which they were born.

As for that bad-mannered slur about the war debts, little need be said, but we cannot help remarking that too many Americans are "loud mouthed about this matter. Mr. Lloyd George says that Britain will pay every penny she owes the United States, and we believe she will. In spite of every difficulty Britain has the recuperative power. Rather than have any slurs to make against Great Britain respecting the war debts, the Chicago Tribune ought to express admiration for the breadth and generosity of British statesmanship in these recent times.—The Maritime Merchant.

## Statistics About the Picture.

AS PUBLISHED IN THE LITERARY DIGEST.

"The screen version of Vicente Blasco Ibanez's epochal novel took more than six months to complete.  
"Upward of 12,000 persons were engaged in the undertaking.  
"More than 125,000 tons of masonry, steel, lumber, furniture, and shrubbery were used for the colossal spectacle.  
"An entire French village was put up and then destroyed before the camera lens.  
"More than 500,000 feet of raw film were exposed in the taking of the picture, which when shown on the screen will not exceed 12,000 feet.  
"Fourteen cameramen were employed, and Rex Ingram, the director, at times had fourteen directors assisting him.  
"Field kitchens and a complete commissary organization were required to feed the army of 15,500 persons engaged on the production.  
"A collection of art treasures, valued beyond price, was used in dressing the handsome interior settings. The insurance alone on these art works was \$75,000.  
"The cast interpreting the roles contains two dozen principal players, who in other productions would be rated as stars."

## Students Threaten Strike

### AGAINST COMMUNIST PROFESSORS.

Kharkov, Russia.—Students were paid by the Soviet government last year to attend classes at the University of Kharkov, but this season they are paying their own way, and the enrollment is larger than at any time since the beginning of the revolution. The unusually large attendance for the beginning of the fall term is attributed to the fact that many of the old professors have been reinstated to their university positions. Last year many of the regular professors were replaced by Communist professors. As a result the attendance fell off materially, and eventually there was a governmental investigation. It was finally decided to try the scheme of paying the students to attend school, the scale of compensation being 6,000 Soviet rubles a month. The average government employee was receiving at the same time 4,000 rubles a month. The majority of the university students here are not Communist sympathizers. They objected strenuously to being taught by Communist professors, even though paid for it. So when the students threatened to strike over the plan, the students to attend school, the scale of compensation being 6,000 Soviet rubles a month. The average government employee was receiving at the same time 4,000 rubles a month. The majority of the university students here are not Communist sympathizers. They objected strenuously to being taught by Communist professors, even though paid for it. So when the students threatened to strike over the plan, the students to attend school, the scale of compensation being 6,000 Soviet rubles a month. The average government employee was receiving at the same time 4,000 rubles a month. The majority of the university students here are not Communist sympathizers. They objected strenuously to being taught by Communist professors, even though paid for it.
