THE REASON

As stated by Sir William Mackenzie, Port Mann is to be the most important town on the whole system of the C.N.R.

Car Shops to be erected at the cost of five million dollars, half a million to be spent this year. This industry will employ 2,500 to 3,000 skilled mechanics.

The Canadian Car and Foundry company's shops are to be erected at the cost of one million dollars, employing 1,200 men.

The International Milling company announce a plant of 5,000 barrels, costing one million dollars. A steel corporation—part of the Andrew Carnegie system-have leased a site, which will eventu-
