CURBING THE TRUSTS

attempting to defend the outrage.

Senator La Follette has a scheme for handling the trusts across the line which is somewhat radical but would be very effective. He has done more to curb the trusts and to place the grasping railways where they belong than perhaps any person else in the United States. His measure! before the United States senate authorizes the court, upon preliminary or final establishment of the existence of an unreasonable combination, to fix the price at which the monopolized article must be sold, but if the combination has made lower prices to favored customers, the lowest price will be the public price. Patents used for monopolistic purposes may be annulled.

Another clause provides that when any member fice with Albertan machinery. This is of a combination is adjudged guilty of unreason-By "home-made" paper since the fire on able restraint of trade, all other members shall the Sermon on the Mount.

Senator La Follette gives a clear definition of If ready for action about five weeks ago unreasonable restraint of trade, but there are nine classes of combination, which, regardless of their size or condition, according to his legislation may mountain river. The mechanical force be regarded as exercising unreasonable restraint.

They consist of any combination that prevents e were not able to make this announce- the purchase from another source of an article it manufactures; that discriminates in prices by er, two months' delay is not so very offering lower rates to large purchasers; that relost of our readers know, the effices, fuses to sell to some of its would-be customers; oment and the records were either des- that seeks to increase its business by offering betthe or very badly damaged. reasonable price. In Canada we have the trusts but we have no legislation curbing them. A country with a high the most location in the Westminster tariff must have trusts. It cannot help it. Tarif as the best editorial and business of- breeds trusts. However, we have done little yes to suvestigate the evils of the trusts. We have just submitted and permitted the trusts to do the nage nent feels greatly indebted to its worst. However, the time will soon come when action must be taken. Then the La Follette le is ation will be more interesting.

WELL ENOUGH ALONE.

The province of Prince I dward Island, th smallest in area and population in Canada, seem indard of friendship in newspapers in matters disposed to leave well enough alone. At the las his kind. But The News-Telegram has ex- Dominion election it endorsed the policy of the ded the ordinary courtesies which one news- party which insisted upon leaving well enough can expect from another, even in such emer- alone. It was the last province, if we are not no taken, to go Conservative in provincial matt and decide that well enough was good enough that right little, tight little kingdom by the ser Medicine Hat Times speaks seriously of It gave an overwhelming majority in favor of till

It has moved again, this time in righteous dignation. It has decided by a large and decide vote to exclude automobiles from the island. Th people there evidently believe that the automobile is an invention of the devil, and a serious menaca to decent people. So out they go.

It is probable that Prince Edward Island the only automobileless province in the Britis' Empire and perhaps in the known world. No auto mobiles are owned on Indian reserves in Western Canada, but the Indians, who adhere to the policy of leaving well enough alone, have offered no or position to automobile transportation upon th

And while we are talking about it, it is inter esting to notice that in 1891 Prince Edward Island had a population of 109,000; in 1901 the population was 103,259, and in 1911 it had grown to 93,728 Alberta in 1901 had a population of 73,022. In 191 the population had increased to 374,663.

Compare Charlottetown and Calgary. In 180 Charlottetown had a population of 11,373, which increased to 12,080 in 1901 and to 11,198 in 1911. Calgary had a population of 3,876 in 1891, 4,392 y in both houses, there will be no change for in 1901 and 46,300 in 1911.

The policy of leaving well enough alone is a peaceful one.

ABOLISH THE POST. There are some who say that there is no one fit for the post of poet-laureate; and there are those who say that those who are fit are better out of it. Both are right. The only proper and decent course is to abolish the office forever; for antiquity alone is no valid reason for keeping up a venerable anachronism; as well might have once been advocated the retention of despotism, the Inquisition, the pillory, slavery, knee-breeches. three-cornered hats, and the like. Most laureates are mere poetasters who cover the court as well as themselves with ridicule-witness Shadwell, Eusden, Whitehead, and Pye. Mr. Asquith will doubtless seize the present opportunity to relieve the ith the previous outrage, attended the British throne and the art of poetry of an incubus and helped to honor the Nationalist lead- which has seen its day and brought enough ridi-
