

ONE THOUSAND TONS OF GOLD

The World's Greatest Hoard of Gold Money

IN AMERICAN SUB-TREASURY

Is Stored in Little White Bags Which in Turn Are Placed in Steel Boxes.

New York, Aug. 7.—Nearly 1,000 tons of gold lie today in the vaults of the treasury of the United States—the greatest hoard of the yellow metal ever gathered in the history of the world. Four hundred tons of this gold are piled, like bags of salt, within the four walls of the sub-treasury in Wall street, New York. Outside the treasury hoard, there is in circulation through the country a nearly equal amount of gold coin, making more than 2,000 tons of gold in the United States bearing the imprint of the eagle. The value of this coin is more than \$1,200,000,000.

One of the remarkable things about this gold is that, despite the fact that it is forming one-half of the country's circulating money, it is rarely seen in the course of ordinary business. One may live in New York or Chicago or San Francisco without seeing a single gold coin for a year. This is in striking contrast to the conditions abroad, where gold is everybody's coin. The gold sovereign of England is as current as the \$5 silver certificate of this country. There, a man with a small income may not have a piece of paper money (The £5 Bank of England note is the smallest) in his hands for months. What becomes of all our American gold? The mines of Colorado, California, Alaska and other gold-producing regions of the west add \$80,000,000 a year to our hoard of gold, and three-fourths of this output goes to the mints. The yearly coinage of gold actually approaches in value the entire circulation of silver dollars.

The treasury holds in trust, against outstanding gold certificates, \$400,000,000 in gold coin. These gold certificates range from \$20 to \$100,000. They are issued from the treasury in exchange for gold coin or bullion, and are just as good as gold. The Englishman wears his pockets out carrying gold coin around with him; the American prefers to have his money in the form of representative paper that can be folded compactly in his waistcoat pocket. In the sub-treasury at New York recently I picked up a handful of gold certificates of the value of \$3,000,000; the bundle could be stowed away in one's hip pocket, but it represented seven tons of gold. Stored in the vaults of the building at the time was a hoard of gold coin of the value of \$200,000,000. In one vault no larger than the bedroom of a New York flat, was an aggregate of \$75,000,000 in gold. This was stored in little white bags stowed away in scores of steel boxes, covering the four walls of the vault from floor to ceiling. Every box was sealed, and some of the seals were dated several years back. The first thought, at sight of this gold hoard, is that it is idle money, but it should be recalled that all of it is in circulation by proxy in the form of gold certificates.

CARNEGIE JEALOUS

Because Canada and Mother Country Are Drawing Together.

London, Aug. 8.—The Financial News quotes Mr. Carnegie's letter in the London Times, in which Mr. Carnegie said Canada and the United States are Siamese twins, commercially bound together by an unbreakable ligament 3,000 miles long and constantly growing stronger, and threatening those attempting to interfere with these natural conditions. The News says now we learn from Mr. Carnegie's own confession why he is so anxious to save his beloved Britain from the ruinous policy of preferential trade. It is because he is consumed with Yankee jealousy at the sight of the coveted Dominion being drawn closer to the motherland.

THE ALASKA TRIBUNAL

The First Meeting to Be Early in September.

London, Aug. 8.—Sir Edward H. Carson, the Solicitor-General, has accepted the post of chief counsel for Canada before the Alaska tribunal, vacated by the illness of Hon. Edward Blake, M. P. Mr. A. B. Aylesworth, K. C., of Toronto, who succeeded Mr. Justice Armour as one of the Canadian commissioners, has visited the commissioner's offices several times. Messrs. Lodge and Turner, two of the American commissioners, have arrived and are preparing for the first meeting of the tribunal, which will take place at the foreign office on or about Sept. 2. As the final written arguments on both sides will not be delivered until that date, the tribunal will probably adjourn for a month to facilitate the preparation of the oral argument.

WILL BURY BURGLAR

A Young Woman Who Says He Was a Gentleman.

Chicago, Aug. 8.—"His father may have the privilege of burying him if he wishes to; if not I shall see to it myself," declared today Miss May Butler, 314 West Madison street, the girl who rescued the body of Arthur Harmon, the Lake View burglar-suitcase from the hands of the police. "I telegraphed his father in Washington, but if no answer comes I shall go ahead with my original plans and give Arthur Harmon the burial due the man who, while he was alive, was my truest friend. I was astonished to learn that he was a burglar. He was certainly a gentleman burglar if there ever was one. We were to be married in September, or earlier if his finances permitted."

Miss Butler secured a permit from the coroner to take charge of the body. Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, it cannot be cured by local applications, and when it is entirely closed, deafness is the result, and unless the inflammation is destroyed forever, nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous lining of the Eustachian Tube. We will give One Hundred Dollars for any case of deafness caused by Catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY, CO., Toledo, O. THE TURKS ROUT BULGARIAN BAND

The Sultan's Troops Defeat 1,700 Insurrectionists.

VIENNA SAYS WAR IS AT HAND

Between Bulgaria and the Porte Britain Thinks Latter Will Establish Order.

Salonica, Aug. 7.—Four battalions of Turkish troops, supported by artillery, yesterday met and routed a body of 1,700 Bulgarians, near Sorovich.

London, Aug. 7.—Confidential official reports received at the foreign office regarding Macedonia, have caused the British Government to adopt the view that the situation is not very serious for the moment, although sufficiently so to warrant the taking of precautions. The Porte is expected to re-establish order in its own territory and the British officials do not believe the Macedonian contentions will lead to a successful revolution, but it hopes by continuing the existing unrest, to ultimately bring about the interference of the powers which signed the Berlin treaty.

According to a dispatch from Vienna last night, the Macedonian Central Revolutionary Committee had fixed Aug. 31 as the date and has appointed Boris Sarafoff, commander of the revolutionary forces, Boris Sarafoff, whose name has been prominent in recent uprisings in Macedonia against the Turks, has been described as "the most romantic figure in the Balkans." He was popularly believed and stated to be the real instigator of the abduction of Miss Ellen M. Stone, the American missionary, from the village of Salonica in September, 1901, in order to procure through her ransom funds to enable the Macedonian revolutionary committee to organize the insurrection in Macedonia.

Vienna, Aug. 7.—One of the gravest features of the situation, as seen here is the danger that it may lead to war between Turkey and Bulgaria. The feeling is so strong in Bulgaria that it is feared that Prince Ferdinand might be faced with the alternative of declaring war or abdicating.

Mrs. Winslow's Soothing Syrup has been used for over FIFTY YEARS by MILLIONS OF MOTHERS for their CHILDREN WHILE TEETHING, with PERFECT SUCCESS. IT SOOTHES THE CHILD, SOFTENS THE GUMS, ALLEYS ALL PAIN, CURES WIND COLIC, and is the best remedy for DIARRHEA. Sold by Druggists in every part of the world. Be sure and ask for "Mrs. Winslow's." That the people of the United States do not eat rice is shown by the statistics that a population of 80,000,000 consumes less than five pounds per capita per annum of the 400,000,000 pounds of clean rice now produced annually.

ENGINEER SAVES TRAIN

He Uncouples Engine As the Bridge Sank.

Salt Lake, Utah, Aug. 8.—The lives of four score passengers on Rio Grande train No. 15 were saved Thursday by the bravery and quick wit of Engineer James Hughes and fireman William Lillies. As the engine started across the high bridge over the Fountain River, Hughes felt the bridge give. Reversing his engine, he called to his fireman to uncouple the tender. A moment later the engine plunged into the river. Not a passenger car left the track. The engine sank out of sight.

THRASHED BY A WOMAN

Mrs. Mitchell Licked a Man Who Ogled Her.

New York, Aug. 8.—A crowd of small boys told Patroim Lyons in Weehawken N. J., yesterday that a man was being mauled by a woman on Sunnyside avenue. When Lyons reached the place he found a man lying on the ground out on the face in several places and bleeding from the nose. Mrs. Mary Mitchell, of 18 Sunnyside avenue, stood over the man, who said he was James Douglas, a florist out of work, living in a cheap lodging house in Hoboken.

According to Mrs. Mitchell, Douglas had been hanging around her home for several days endeavoring to attract attention. When she saw him ogling her yesterday, she said she came out of her home and thrashed him. The Weehawken police said that Douglas looked as if he had been assaulted with a club, but at the hearing before Recorder Rander, Mrs. Mitchell said she had used nothing but her fists.

"I don't know what I was struck with," he said, "but it didn't feel like a fist."

"I guess you've got enough punishment," said the recorder in discharging him. "You'd better get out of town at once."

NO SHORTAGE AT WINDSOR

But Business of Express Office Is in Bad Shape.

Windsor, Ont., Aug. 8.—Fresh trouble has arisen in the office of the Dominion Express Company, in Windsor, and auditors have again been summoned to straighten matters out. Gordon Henderson of Goderich was sent to Windsor to take charge of the office. Saturday he left suddenly for Toronto, and rumors are afloat. No less than seven officials hastened to Windsor when they heard of this new trouble and their investigation, according to Auditor Ward, shows that outstanding accounts have not been collected and the business of the office has been neglected. Round Agent McKay, of the Dominion Express Company, is looking after the concern's interests, while P. G. Ward has been placed in charge of the office temporarily for the C. P. R. Yesterday Assistant General Passenger Agent A. H. Notman visited the office, and J. J. Rose, traveling passenger agent, is expected.

"The business of the office is in very bad shape," said Mr. Ward this morning, "but I think there will be no shortage, when everything has been straightened out. Just at present I can say nothing definite about that part of the trouble, but the whole thing, will be made public in a few days."

Treasurer of Preacher's Aid Society Takes Confession.

Boston, Aug. 7.—In a letter written last Tuesday from Montreal to the pastor of his church, in East Boston, Willard S. Allen, treasurer of the Preacher's Aid Society of the New England Conference of the Methodist Episcopal Church, confessed that he was a defaulter to the amount of more than \$80,000 of the society's funds. Mr. Allen has been treasurer of the society for twelve years, and clerk of the East Boston district court for 23 years, and for sixteen years was a prominent member of the school committee of Boston. He left home about a week ago without announcing his destination, and the first heard from him was the letter to the East Boston clergyman. Mr. Allen said he had lost the money in speculation. He requests the minister to notify the members of the Allen family and the officers of the society of his confession.

A COMMERCIAL TREATY

United States Reciprocity Supporters Start Campaign Fund.

London, Aug. 8.—The New York correspondence of the Manchester Guardian cables that Mr. Chamberlain's proposals have caused the National Reciprocity League to renew its efforts to effect a commercial treaty with Canada. A special circular of the league says that a special fund of \$100,000 is going to be raised to push the campaign through a committee of five from each state. The circular adds that doubtless if Canada is not seen drawn closer to the United States commercially she will be to Great Britain.

The Guardian, commenting, says: "Canada's dependence on American railways and harbors during five months of the year may act two ways—either as a spur to Sir Wilfrid Laurier's attempt to improve railway communication with remote ice-free ports, or as an inducement to Canadians to come to terms with their neighbors. Between these courses it seems that Chamberlain's policy will force Canada to make a rather precipitate choice."

CATTLEMEN TAKE ACTION

Suit Against G. T. R. on Account of Detention.

Toronto, Aug. 8.—As an outcome of the detention of cattle at Toronto Junction, full particulars of which are given by the Star's correspondent at that point, Thomas Mason, George Paulin, of Clinton; William Finlayson, Henry Harris, of Lucknow; Albert Walker, of Chesley; Edward Watson, of Dobbington; Thomas E. Durnin, of Blyth; Smith McLean, of Kincardine; Urban Schmidt, of Elfray; John Wolf, of Walkerton, and John Martin, of Western Ontario, have issued a writ at Osgoode Hall against the Grand Trunk Railway Company for \$20,000 to compel the company to deliver the cattle detained by the plan of detention of cattle delivered by the plan of the Grand Trunk as common carriers for transportation.

It is said that criminal proceedings by indictment would have been taken against the Grand Trunk for cruelty to animals if it were not for the possible delay consequent upon legal procedure in vacation time.

"One Woe Doth Tread Upon Another's Heel, So Fast They Follow."

The quotation from Shakespeare aptly illustrates the condition of the person whose kidneys are out of order. When these filters of the human body become clogged or are weakened, a long train of troubles appears. And the case rapidly grows worse. The sick kidneys cannot throw out the foreign matter which the system receives and the blood soon becomes poisoned. Then follow Weakness of the Back, Backache or Pain in the Back, Swelling of Feet, Ankles or Wrists, Pain in Joints or Hips, Constipation, Urinary Troubles, Chills, Feverishness. Sometimes all of these—sometimes one or two absent. But these are only the beginnings. They are the mere symptoms of serious maladies, which may become chronic if the cause be not removed at once. Among these dangerous diseases are: Inflammation of Kidneys or Bladder, Calculus, Gravel or Stone, Rheumatism in any of its distressing forms, Diabetes, Bright's Disease of the Kidneys, Neuralgia and Dyspepsia. Finally the whole system is poisoned and remedies avail nothing.
