ADVANCE OF A CENTURY

Municipal Growth and Civic Im provement in This District.

Mr. G. R. Pattullo's Paper Before the London Historical Society.

The London Historical Society helà its first meeting of the season last night, an interesting paper being read by Mr. G. R. Pattullo, of Woodstock, registrar of Oxford county. The paper was on "Municipal Growth and Civic Improvement," and embraced the his tory of municipal growth in this district for a period extending back a full century.

Whilst paying a tribute to the worth

of those legislators of the past, Mr. Pattullo said it behooved municipalties to put their shoulder to the wheel and do something toward municipal improvement for which posterity would thank them. In Ontario, he said, there was much need for improvement. Civic improvements in cities, towns and villages may include better streets, more tree planting, well-kept boulevards, more and better kept parks and playgrounds, improvement of public buildmore general use of vines, ivy or climbers, more artistic grounds about all these buildings, and a more general planting of shrubs and flowers therein. The erection of statues, the erection of fountains, public gymnasiums, lavatories, etc., cemetery improvement, improvement of railway station grounds, planting of trees and flowers about factories, the improvement of vacant lots, a greater attention to public sanitation, and competitions and awarding of prizes to stimulate homeplanting among the school children

and citizens generally. After a vote of thanks, moved by Mr. C. B. Edwards, and seconded by Mr. Harry Macklin, had been tendered Mr. Pattullo, a short discussion followed in regard to the standard of the personnel of our present municipal boards. It was then decided, on motion of Mr. John Dearness, vice-principal of the Normal School, to suggest to the Minister of Education that the portion of Mr. Pattullo's paper relating to the beautifying of school grounds be printed in pamphlet form and distributed amongst the schools and read to the scholars.
