Delicious Preserves

No housekeeper need again apologize for "store" goods, when guests arrive unexpectedly.

It is so easy to make appetizing, wholesome and less expensive preserves with St. Lawrence Granulated Sugar, that every housekeeper is putting up her own stock this summer for next winter.

Their reward will come when they delight their friends and guests with preserves of their own make. And what just pride they can take as these delicious home-made preserves are praised! The children, too, will enjoy the pure, luscious fruit

as it is preserved by St. Lawrence Sugar. St. Lawrence Granulated Sugar is made from pure

cane sugar, and contains more saccharine substance than sugar made from other natural products.

In preserving, a smaller quantity of St. Lawrence Granulated is required. It is therefore more economical for the thrifty housekeeper.

It is sold in bulk in smaller quantities at your put up at the refinery specially for the home. This quantity is convenient for preserving time, and besides, you can be sure of the genuine brand, by buying it in these original packages. Ask your grocer to supply you with St. Lawrence

Granulated in these 20-pound sacks, and get clean sugar and strictly full weight.

If he cannot supply you with these 20-pound bags, send his name and address to the St. Lawrence Sugar Refining Company, Limited, Montreal, and they will tell you where it can be obtained.
