

**NEW VETO FIGHT  
AFTER CORONATION**

London Dispatch Says Question  
Will Be Dropped for the  
Present.

New York, June 25.—A special to the London of Commerce from London says:  
The English markets are now on such more satisfactory basis largely the result of more friendly relations that are evident in local politics. There is excellent basis for stating that the bill, if not formal agreement has been reached by the leaders to defer the constitutional conflict over the veto for practically a year.  
It is not to become a veto issue until after King George's coronation, which will probably not take place until May.

Meanwhile Lloyd George is expected to present a new budget next Thursday. He will be cautious and not precipitate renewal of the contest over his previous budget. His chief problem will be super-taxes and super-breadboughts. It is understood, he will suggest an increase of \$27,500,000 for the navy. This is not likely to be seriously contested, and the proposed increases otherwise will be moderate.

**THE RAID THAT FAILED**

Detectives Expected to Find Gamblers' Device on Race Train.

Toronto, June 25.—A posse of city detectives and plain clothes men boarded the race train for Hamilton yesterday afternoon, their intention being to raid the baggage car, where, according to evidence gathered by a local paper, a number of gamblers have been operating "Klondike" and "black jack" and other devices to rob the unwary.

Their errand was fruitless, however, every man on board apparently being aware of their presence, and the baggage car was deserted. The officials state, however, that they gathered evidence enough to show who the guilty parties were, and action will probably be taken against them.

J. D. Macdonald, district passenger agent of the G. T. R., was surprised to hear of the affair.  
"There is a G. T. R. detective on that train, and he has made no report, so far as I know," he said.

Many of those who have been attending the Hamilton races regularly state that such devices as described have been common on the train for years.

**THE QUEEN MOTHER'S  
LETTER TO NATION**

Raphael Tuck Publishes Fac-simile by Her Command.

Her Majesty Queen Alexandra has commanded Messrs. Raphael Tuck & Sons, Limited, to publish a fac-simile of her Autograph Letter to the Nation, for sale to the public.

This thoughtful act of her Majesty will be deeply appreciated by the whole world, as it will enable everyone to possess the fac-simile of this most touching letter in the Queen Mother's own handwriting.

The letter is published surrounded by a symbolic border expressive of the empire's grief, designed by Sir E. J. Poynter, president of the Royal Academy, and it will be issued to the public in two methods of production at 50 cents and \$1.00 each, respectively, while a limited number of proof editions are issued at \$15 and \$25 respectively.

Orders will be filled in the rotation in which they are received.

The entire proceeds of the sale of this fac-simile autograph letter will be given to an institution selected by her Majesty.

**THE PEACE COMMISSION.**

Washington, June 25.—Confining the expenditure to \$10,000 the senate today adopted the joint resolution originating in the House authorizing the appointment of a commission for the promotion of universal peace.

The commission is to consist of five members and is to be appointed by the President.

The purpose is to consider "the expediency of utilizing existing international agencies for the purpose of limiting the armaments of the nations of the world by international agreement and of constituting the combined navies of the world in an international force for the preservation of universal peace, and to consider and report upon any other means to diminish the expenditures of government for military purposes, and to lessen the probabilities of war."

The bill now goes to the President.

**VENTRICINI MUST DIE.**

Toronto, June 24.—Sheriff Mowat this morning received a message from Ottawa saying there would be no commutation of the sentence in the case of Pasquale Ventricini, the Italian under sentence to be hanged June 20 for the murder of Rafaela Fabbia, a fellow-countryman, on March 6 last.

**HUDSON'S BAY COMPANY  
HEAVILY MULCTED**

Fined Over \$6,000 for the Illegal  
Possession of Furs.

Toronto, June 24.—For having illegally in its possession 78 otter, 165 beaver and 1,960 muskrat skins, the Hudson Bay Company, through R. C. Wilson, factor at Montserrat, in the Thunder Bay district, has been fined \$6,447 58, including costs. The fines were imposed by Police Magistrate W. W. O'Brien at Port Arthur, and the confiscated furs reached the provincial department this morning. The capture of the Indians to whose care the transportation of the furs was intrusted, and the apprehension of the company's factor, were the result of a long and thrilling chase by Constable Symons and a fire ranger, who passed themselves off as prospectors.

**1,040-MILE FLIGHT  
IN TEN STRETCHES**

Best Way to Promote Speed, Says  
Count de Lesseps.

New York, June 24.—Jacques de Lesseps, grandson of the builder of the Suez Canal, who flew across the English Channel in a Blériot monoplane on May 31, arrived yesterday from Cherbourg by the Hamburg-American liner Deutschland, and started immediately for Montreal to attend the aviation meet there. He is accompanied by his sister, the Countess Helen de Lapeyrolle, and his brother Bertrand, both of whom are interested in aviation and have made flights in France.

"I have been told," said the aviator, "of the 300-mile run of the Zeppelin's dirigible Deutschland from Friedrichshafen to Dusseldorf, and it does not impress me as proving that the dirigible is going to be a successful venture commercially. You see I am not strong for dirigibles, but they have their good points. But if the Deutschland should be struck by a heavy storm she would be destroyed. As an aeroplane is light, the aviator can see the storm coming, and can make a swift descent, landing in a sheltered place."

"The aeroplane, in my opinion, is the flying machine of the future. The question of fuel carrying capacity appears to me to be not a serious consideration. Stations for aeroplanes about 100 miles apart, it appears to me, would be about the right thing. The sport of aviation may be best promoted by flights of not more than 100 miles at a stretch. The aviator should be required to make this flight in two and a half hours, or on a schedule somewhat similar, and after taking on fuel and adjusting his engine, to make another flight from the first fuel station to the next one, 100 miles distant, and so until he accomplishes a flight of perhaps a thousand miles."

**FIRST ADVERTISEMENT  
FOR WESTERN FAIR**

Secretary Hunt Announces the Big  
Show Will Be Better Than Ever.

The first advertisement for the Western Fair of 1910 appears in this issue, and has special reference to those requiring space in the different buildings for exhibits. The allotment of space for exhibits at a large exhibition like the Western Fair is a very difficult task, inasmuch as so many exhibitors leave the matter of applying for space until late in the season, and then wonder why the best ever held, the best locations in the building. The management are doing their very best this year, as they have always done, to accommodate all, and at the present time it looks as if there would be a lack of room, although a new building has been erected this year.

The Western Fair has become a great national exhibition, its fame having gone abroad so that inquiries as to dates and other particulars are being received almost daily from various provinces of the Dominion, as well as from the republic to the south. The exhibition of this year will be, whether permitting the best ever held. The management are putting forth every effort to make it a success. The sum of \$1,000 has been added to the prize list in the live stock department, making this exhibition one of the best in the Dominion for live stock breeders to attend with their stock. Prize lists, entry forms, and all information will be promptly given on application to the secretary, A. M. Hunt, general offices, Richmond street, London.

**GRABBED HIS OWN  
THOUGHT CANUCKS**

Detroit Policeman, Not After Auto-  
mobiles, Badly Fooled.

Windsor, June 24.—American automobilists who tour Canada are obliged to get a Canadian license, costing \$9. Detroit police are now evening things up by compelling Canadian automobilists who land in Detroit from the Windsor ferry to fill out an application blank and forward \$9 to Lansing, the state capital, for a license.

This afternoon Patrolman Ames, stationed at the foot of Woodward avenue, spotted two persons in a big automobile, and believing them to be Canadians, escorted them to the first precinct station. Capt. Baker learned that the couple were Mr. and Mrs. Jas. Wakefield of Indianapolis, Ind., who were on their honeymoon, and who had just returned from a tour.

The bride took the affair as a fine joke, and had the policeman pose alongside of the car while she levelled a camera at him and her husband, and took a snapshot to show the folks at home.

Capt. Baker allowed the couple to go on their way when he learned that they were not Canadians.

**BRYAN VS. ROOSEVELT**

London Daily News Comments on  
Differences of the Two Men.

London, June 25.—The fact that Mr. W. J. Bryan is now in London reminds the Daily News of the mutability of political reputations. It says:  
"Mr. Bryan achieved years ago solid fame as an orator on an overwhelming type, in the manner of the old American school. His speeches made him. Today Mr. Bryan is in the surely unanticipated position of having been talked clean off the stage by the leader of the party which a few years ago was deriding Mr. Bryan as a conspicuous sufferer from the tendency of words in the mouth."

"Mr. Roosevelt has talked more, we suppose, since he first became president than Mr. Bryan has done in all the years during which he has been prominent in politics."

The Daily News continues: "Though

**BETTER THAN SPANKING.**

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box 801 Windsor, Ont., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her today if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.
