BUSINESS IN LONDON BRISK FACTORIES WANT MORE MEN

The Fall Season of 1911 Auspiciously in This City. LABOR SUPPLY - RATHER SHORT

Many Handsome New Stores Are Being Built, and Additions to Shops Are Going Up.

It is seldom that the fall season in the business and industrial world opens more favorably in London than it does this year. Everywhere people are busy and many of the factories are working nights in an effort to get out their contracts. The only complaint of the manufacturer is that he cannot get help. One after another stated to The Advertiser that all they need now is men, and all are willing to pay good wages.

Outlook Is Good. In the building trades things are remarkably brisk and the outlook is for a very busy time right up to the end of the year. A great deal of new work is already under way and much more is planned.

New Additions. Messrs. F. J. Darch & Sons, harness makers of Talbot street, have plans prepared for a new five story addition to their present factory. The work will be gone on with at once.

The Ontario Spring Bed Company commence work shortly on a new 3-story factory on York street.

The McClary Manufacturing Company are already at work on a big new 3-story factory for their south end plant.

Mr. John Forristal, of the London and Petrolia Barrel factory, stated that the firm has under consideration a big addition to its plant, and that work will probably commence on it next year.

Spending Millions. It was officially announced by the C. P. R. that in addition to the quarter of a million dollars they are spending on improvements in the East End, nearly a million more will be spent in building all the new bridges on this division with steel structures.

Work is now going on on a new \$750,000 steel bridge across the Thames here at Oxford street, and a contract will be let shortly for another \$750,000 structure across the Thames at Chatham.

The greater part of the new bridge work will be done by the employees of the C. P. R. bridge and building department. The company has also under construction a spur line from the main line to the manufacturing district in the southern part of the city. The surveys have already been made, and it is stated that some of the necessary property has been purchased.

New Stores. On Dundas street three new stores are under construction between Clarence and Wellington streets on the south side.

Mr. James Duffield is building a three-story structure adjoining the Maclellan's, and next door Mr. Harry McKinnon is erecting a two-story store. Further east Mr. George Mann is tearing down one of the city's landmarks, and on its site will be a handsome new three-story store.

In the market square a local bank is building a fine new branch office. On Queen's avenue the work in connection with the new \$50,000 temple in the square is being rushed right along, and all the buildings on the site will be down shortly.

City Is Growing. That London and its district centre is growing steadily is shown by some of the big additions local firms have made.

The George White firm in East London has plant there now, with more coming. The Hobbs Manufacturing Company on York street have built one up factory, and are at work now on the new warehouse. The McClary firm has been erecting building after building on the south end, and is still putting up more.

Handsome Residences. All over the city there is a great deal of fine building going on, and some of the most beautiful homes are in the construction. In West London there is a noticeable development, and a number of handsome houses are being planned in some sections. Builders everywhere are complaining of the scarcity of help.

The railways state that the present year will beyond any question be the greatest in volume of business they have ever had, and the freight and passenger business has been heavy, and at times really heavy. The outlook at the present time is for a great rush of business that will keep everything going at full speed for the rest of the year.

Builders say that everything is in first-class shape. There is no unnatural boom, but a steady expansion of business. If that they promise to be, they say that next year will be another record-breaker.

What They Say. Following are a few opinions of London's leading manufacturers on the Outlook. Gledhill, of McClary's: "We are very busy, and expect to continue so. We have 1,200 men on our payroll at the present time, and are extending our plant in the south end, and are extending our plant."

BUILDING PERMITS SHOW SATISFACTORY INCREASE

91 Permits Were Issued in London During Month of August.

Building permits show a good increase for the month of August. During the period 91 permits were issued, the total value of which was \$66,075. This is an increase of over \$25,000 more than the same month last year, when 63 permits to the value of \$40,705 were issued.

The total for the eight months of the present year is \$523,224. The total for the first eight months of 1910 was \$263,871, giving 1911 a start of \$259,353.

However, September last year was a big month, permits to the value of nearly \$100,000 being issued. This year will be no exception, as the total for the month of September is expected to be over \$100,000.

WORK BEING RUSHED ON NEW STATION. Traction Company Will Soon Have Fine New Premises.

Work is being rushed on the hand-some new red brick and white stone station that the London and Lake Erie Transportation Company is building on Horton street.

The ground floor of the new station will be used as a large store room in connection with the freight business of the company. The upper story will be fitted up as offices. The tickets will be sold from the same place as at present.

Mr. John Purdon is doing the work on the new station, and it is expected that it will be ready for use about November 1.

WOMAN IN SERIOUS CONDITION FROM MORPHINE OVERDOSE

Mrs. Margaret Wise Is In an Unconscious Condition in Victoria Hospital—Is a Stranger in the City, Coming From Detroit.

Mrs. Margaret Wise, aged 36, wife of William Wise of Detroit, was taken to Victoria Hospital this morning in the city ambulance in an unconscious condition, suffering from the effects of too much morphine.

The woman went to an East London hotel yesterday afternoon, and was in a domestic. Last night she was found asleep on a sofa, and the hotel people had a lot of trouble arousing her. When they discovered what the trouble was they sent her away.

It is said that she spent the night with a friend at another East London hotel. This morning she came down to the office of Dr. J. Stapleton and begged him to give her morphine. He refused, and she slipped off the chair she was sitting on and lapsed into an unconscious condition. The doctor called the ambulance and had her removed to the hospital. It was some time before she came to.

Relatives of Mrs. Wise seen by The Advertiser this afternoon stated that she is 35 years old, and that she has been addicted to the use of morphine for some time. This has resulted in her husband separating from her.

She came to London last week with a lot of morphine, and her father and mother reside there.

COMMISSION ORDERED TO NAME ARBITRATOR

McGuigan Company Demand \$400,000 From Hydro-Electric.

Toronto, Aug. 31.—Acting for the McGuigan Construction Company, W. Tilley this morning applied to Chief Justice Falconbridge for an order appointing an arbitrator to represent the Hydro-electric commission in the arbitration of the company's claim for over \$400,000. This sum is claimed due on the contract for the construction of the transmission line from Niagara to Toronto. The work was completed on December 17 last, since when there has been no payment.

An order is said to have been made to agree on one arbitrator, to read with the matter, but this failing, the company appointed Wallace Nesbitt, K. C., to represent them, but the commission has appointed no one.

Chief Justice Falconbridge directed that the commission should appoint an arbitrator by Tuesday, failing which, he will himself name one.

DRUNKEN MAN FELL BEFORE AUTOMOBILE

Narrow Escape From Death of John Brown.

"Jack" Brown, an ex-Indian lister and a well-known police court character, had a close call from being killed today when on the market he fell in a drunken stupor in front of an automobile driven by a chauffeur named Grant. The car was stopped barely in time and Brown was hustled off to the police station. He will appear in the morning before Magistrate Judd.

STEAMERS ARRIVED. Manchester Exchange, at Liverpool, from Montreal. Uranium, at Rotterdam, from New York. Nundiam, at Glasgow, from Boston. Cape Race, Nfld., Aug. 31.—Steamer Lunenburg, Liverpool for New York, left here, when 1,200 miles east of Sandy Hook, at 2:30 a.m. Dock about 8 a.m. on Saturday. St. Louis, Southampton for New York, reported 1,065 miles east of Sandy Hook at 4:30 a.m. Dock about 8:30 p.m. Saturday.

CONDUCTOR RECOVERS. Montreal, Aug. 31.—Conductor Prel Monday, the Grand Trunk Railway employee, who was thrown from the train by a huge last Saturday night, has now fully recovered from his injuries.

STORK BUSY HERE DURING MONTH

105 Babies Born as Compared With 84 for August of 1910.

DAN CUPID DIDN'T SHIRK Forty-Five Couples Wedded Against 36 in Same Month a Year Ago—Less Deaths Reported.

Of the 62 deaths recorded at the office of City Clerk Baker for the month of August, 21, or about 33 per cent of them were of infants.

This is considered a very high percentage, indeed. However, there was no epidemic manifest. Cholera infantum considered a very fatal disease in July and August, was responsible for five deaths only. It was thought that owing to the extremely hot summer the number dying from this disease would be greater.

The total number of deaths is not so great as in August last year, when 66 were recorded.

Hard on the Aged. The month was quite hard on old people, sixteen of those passing away being over 70 years of age. The oldest was in her 92nd year.

Tuberculosis caused two deaths, as did cancer. Typhoid fever caused two more, quite an unusual number for London. Neither of the cases could be traced to infection from city water.

There were four accidents, and one other violent death.

Many Births. The stork was a busy bird during the month, no less than 105 youngsters being placed in happy homes.

This is a big increase over August, 1910, when but 84 babies were born.

Cupid Busy. Dan Cupid showed some improvement in his work. Forty-five couples were married during the month, an increase of nine over the corresponding month of last year.

WOMAN IN SERIOUS CONDITION FROM MORPHINE OVERDOSE

Mrs. Margaret Wise Is In an Unconscious Condition in Victoria Hospital—Is a Stranger in the City, Coming From Detroit.

Mrs. Margaret Wise, aged 36, wife of William Wise of Detroit, was taken to Victoria Hospital this morning in the city ambulance in an unconscious condition, suffering from the effects of too much morphine.

The woman went to an East London hotel yesterday afternoon, and was in a domestic. Last night she was found asleep on a sofa, and the hotel people had a lot of trouble arousing her. When they discovered what the trouble was they sent her away.

ILLUSTRIOUS POTENTATE J.F. TREAT, OF FARGO, IS COMING

Head of the Shriners of America Will Pay a Visit to Mocha Temple in October.

Most Ill. Potentate John F. Treat, of Fargo, North Dakota, head of the Shriners of America, will pay a visit to Mocha Temple during the last week of October.

The exact date has not been finally settled. Noble Treat, who is in Chicago on Oct. 21, will visit Saladin Temple, Grand Rapids, Michigan Temple, Detroit, and then will come to London. As he has been in Philadelphia on Oct. 21, he will likely be in the city about Oct. 25.

Ill. Potentate C. McGuire, and Recorder W. H. Abbott are arranging for the affair. It will be impossible for the Shrine here to host on a ceremonial session, but it is expected that a big reception and banquet will be tendered Noble Treat. He is making a tour of the West during the months of September and October, working his way back to his home in Fargo, N. D., and will arrive in November.

Many of the local Shriners met him in Rochester, and found him to be an exceptionally fine fellow. His temple brought several fine camels to draw his carriage in the big parade, and it goes without saying that they made a hit.

This is the first time an Imperial potentate has visited Mocha Temple. Several past potentates, including the late Harry Collins, of Toronto, and John B. Butler, and Frank G. Roundy, have visited Mocha, but none of them were occupants of the chair of the time.

No. 6. McGuire expects to have a big time, and he will give him a royal welcome.

NO REGISTRATION ON FRIDAY BUT COURTS RESUME SATURDAY

Over 1000 Names Have Been Added to the List—Some Facts for Those Who Should Register.

More than one thousand voters have been added to the list as a result of the past two days' registration, and this morning the list stands as follows:

On Tuesday, 456 were put on, while yesterday the number was 657, making a total of 1,013 votes. With today's registration it is 1,932, with South London to be added.

The number will undoubtedly be increased greatly this afternoon and evening, and on Saturday. There will be many travellers here on the last day, and many of them are not on the list. They will be put on on that day.

Much more activity is being manifested than usual, and every effort is being made to get out the total vote.

Yesterday, as on the day before, the registration booth at 421 Richmond street, showed the best results, no less than 334 being added there.

The Registrations. The totals for the various divisions for the first two days' registration is as follows:

City hall..... 155
231 Richmond street..... 255
Colborne street..... 128
East End town hall..... 126
Hunting Hall..... 118

RAINFALL IN AUGUST WAS EXTREMELY HEAVY

Local Weather Records For the Month Are of Interest.

The records at the local weather observatory for the month of August show considerable contrast to those for the same month in 1910. During the month terminating today, there was a total rainfall of 3.21 inches.

In August, 1910, the rainfall totalled only 1.86 inches. On Aug. 5, 1911, the highest temperature for the month was reached at 53.5 degrees.

The lowest temperature was on Tuesday, Aug. 30, when the thermometer stood at only 39.

In August of last year the highest temperature was 90.5 on Aug. 15. The lowest temperature was 45 degrees on Aug. 20.

Not only has a much greater amount of rain fallen in London this August, but higher extremes of temperature have been registered.

MR. HAWKES AND HIS NEW PARTY

One of the most curious, unexpected, and regrettable developments of the present political campaign is the attempt of Mr. Arthur Hawkes and his group of backers to round up those electors who are comparatively recent arrivals in Canada from the United Kingdom, and to form them into a political party, the British Conservative party. They are appealed to as the "British-born," and are told that their devotion to the home-land requires that they must reciprocally, and do their utmost to defeat the Liberal party and place the Conservatives in office. The coming of the Canadian Courier justly objects that if Mr. Bourassa's racial cries in Quebec are injurious to the best interests of the country, the British-born in Ontario are equally deserving of blame. They are even more so, for Mr. Hawkes and his associates are deliberately entering the political field to create differences between newcomers and oldcomers, all British together. His work, if it succeeded, would have the effect of banding newcomers together as a people apart, and delaying their fusion with the general population of the country to which they have come, and where their children are being born. And are we not all British born? Are not those of us who are the sons and grandsons of men who came out fifty and eighty years ago, and the knickerbockered sons of the very men to whom Mr. Hawkes is making his racial appeals, are we not all British born? If in a narrow sense we are not to be so described, the sense is too narrow to which to found a political movement, and the movement as far as it went would be narrow and evil in its results.

Let the newcomer on whose unfamiliarity with Canadian politics Mr. Hawkes and his associates are trying to trade, ask himself what encouragement he should give to a little political scheme, the purpose of which is to fence him off as a person having interests essentially different from those of the little toddlers who have been born to him since his arrival here. There may be something in this game for the Conservative party, but for the British-born, but what is there in it for the men who are being rounded up and urged to vote on grounds of racial prejudice? The British-born in Ontario are not a homogeneous body, and the Canadian born, and Mr. Hawkes and his hangers-on can make none. At most he can succeed in deluding a few new arrivals who have not had time to get acquainted with Canadian affairs. But even these few, who are better men than the rest, stay here, must perceive at once that if such a division could be created, it would be a most undesirable thing, and one which every public man who has any sense, and who has any political vision, would regret and condemn. We have enough racial differences here without creating another, as altogether new as it is altogether unnatural.

But it is not the British born that he is after: It is the new-comers, who have not had time to understand things. He does not discuss with them reciprocity as a trade issue, because many of them are singularly clear-sighted on trade issues. So he makes his racial appeal. His auditors, however, may, with a little effort, learn that the Government which Mr. Hawkes is trying to defeat is being bitterly fought in Quebec on the charge that it is a quite too-British Government for Canada to have, and that those who there seek its defeat profess to seek it for that chief reason—Joseph T. Clark ("Mack") in the Toronto Star Weekly.

KAISER'S GAME GIGANTIC BLUFF SAY THE BIG BERLIN BANKERS

Germany May Have to Reckon With Combination of Russia, Britain and France Over Moroccan Situation.

[Canadian Press.] New York, N. Y., August 31.—A London cable to the Tribune says: The optimism prevailing in the press respecting the settlement of the Morocco difficulty is not shared by politicians and officials here. They are aware that the adversary is quite prepared for an emergency and that the home fleet can be brought into condition for war at a moment's notice.

It is an open secret that there are active negotiations in progress at the foreign office and that the Russian ambassador has been frequently consulted.

Depends Upon Russia. A member of parliament, who is watching the situation closely, remarked last night: "Everything depends upon Russia. If France can have military as well as naval support the German Emperor will not be allowed a victory in West Africa, which will increase his prestige at home and be a source of danger and embarrassment to the British Empire."

The speaker added that he was hoping for a change of diplomatic methods by which the German foreign office would be forced to deal collectively with England, France and Russia, instead of individually with one of them.

Financiers ordinarily well informed do not share the apprehension of a war involving the four powers, but insist that ultimately there will be a settlement, although neither France nor Germany is prepared at present to accept the terms offered by the other.

A Gigantic Bluff. New York, Aug. 31.—A cable to The Times from Berlin says: "There will be no war over Morocco."

Germany is putting up one of the most gigantic bluffs on record. This is the summary of the existing international situation that was given today to The Times correspondent by a prominent official of a New York banking company, who has been in intimate touch with the leaders of the German financial world for the past fortnight. For obvious reasons he declines to permit the publication of his name. He said:

"German financiers assure me that war cannot possibly eventuate from the Moroccan crisis unless, of course, some sudden and wholly unexpected volcanic eruption should lead to 'it.' German diplomacy is maintaining an ostensibly stiff-necked and uncompromising attitude in dealing with France, but the German Government knows very well that at the present moment to court the insupportable risk of a great international conflagration, the financial and industrial situation simply will not permit it."

"My German banking friends do not mean to intimate that the country's condition is unsound. What they mean is that Germany owes colossal sums abroad, notably to French bankers. These credits would cease automatically the moment war began. Germany's economic fabric would be paralyzed at a blow. Her huge export trade would be arrested. The pioneer work of years would be undone."

"Germany is trading and developing her industries to an incredible extent on borrowed foreign capital. Her indebtedness to French banks alone probably amounts to over \$100,000,000. German financiers, who would have the last word if it really came to a question of war, knows all this and they declare that war is not dreamed of."

VANCOUVER MAN SENDS \$1.00 CONSCIENCE MONEY TO FAIR

Makes Reparation for Stealing Into the Grounds in London When He Was a Boy—Secretary Thinks Much More Such Money Might Be Received.

The secretary of the Western Fair received a letter yesterday from a gentleman in Vancouver, Inland Empire, who offered \$1.00 as a contribution to the fair. The letter was acknowledged and the offerer forgiven.

Secretary Hunt says he is ready to accept a lot more just like that which he is sure due and that it is a warning to all, either young or old, who may think of doing it this year. There will be plenty of fun for the little folk at the exhibition this year. On the Midway will be found a "donkey track," where all may have a ride for the small sum of five or ten cents. One of the most unique and interesting shows which will appear on the Midway is the

LOCAL HORSE DEALER IS IN FAVOR OF RECIPROCITY

Pact Will Prove a Good Thing For the Breeders of Ontario.

Mr. William Wallace, one of the largest horse dealers in this city, and the well known throughout Western Ontario, is in favor of reciprocity, and declares that he is very beneficial to the breeders of Ontario, as well as the dealers. The west would also be benefited.

"I have no hesitation in saying that reciprocity will be a good thing for the breeders of Ontario," said Mr. Wallace. "It will increase the sales of horses, as it will open the markets of the east to them. Montreal will be benefited also. The west will also have much the best of it. The farmers will beyond question profit greatly by the deal. I am in favor of it."

PREMIER IN ONTARIO DURING NEXT WEEK

Opens New Tour of Province Monday Night.

Ottawa, Aug. 31.—Sir Wilfrid Laurier speaks in Alexandria on Monday night, going thence for another tour through Ontario, in which he will be heard at Cobourg, Sudbury, Collingwood and Stratford. Afterwards the Premier will return to Quebec. In Quebec city he will deliver an address in English, and later speak at Drummond-Arthabaska, Montserrat, Megantic, Rimouski and Champlain.

Mr. Hugh Guthrie, of South Wellington, is in Ottawa today en route to Ignaceville, where he is billed to speak in the Liberal interests.

Murray's Trial. The case of Thomas Murray, who is charged with assaulting his wife and setting fire to their home in London Junction, will be heard tomorrow in the county court. The case will be opened at 11 a.m. The office at the court house will be kept open until 5 p.m., commencing tomorrow. The long vacation closes today.

THE WEATHER. Tomorrow—A Little Warmer. FORECASTS. Today—Moderate to fresh easterly winds; fine, with a little higher temperature. Friday—Easterly winds and showers.

Following are the highest temperatures yesterday and the lowest this morning:

Stations.	Max.	Min.	Weather.
Calgary.....	74	46	Fair
Winnipeg.....	74	52	Clear
Port Arthur.....	64	50	Cloudy
Parry Sound.....	74	48	Fair
Toronto.....	64	50	Cloudy
Ottawa.....	64	44	Fair
Montreal.....	64	48	Fair
Quebec.....	64	48	Clear
Father Point.....	64	48	Clear

THE WEATHER NOTES. The weather since yesterday has been fine and cool from Ontario to the Maritime Provinces, and a moderately warm, but for the most part, in the West. More unsettled weather in all districts.

TODAY'S PROBS. Western Ontario—Moderate to fresh easterly winds; fine, stationary to a little higher temperature. Ottawa and Upper St. Lawrence—Moderate to fresh easterly winds; fine, stationary to a little higher temperature. Superior—Fresh to new easterly winds; moderate, variable winds; fine and cool, with local showers, but partly fair and cool. Manitoba, Saskatchewan and Alberta—Southerly and westerly winds; moderately unsettled weather for the most part. LOCAL TEMPERATURES. Highest and lowest temperatures in London on Wednesday, 30—
