WAS TROUBLED WITH Weak and Dizzy Spells.

#### Heart Would Beat Something Awful.

Those feelings of weakness, those dizzy spells which come over people from time to time, are warnings that must not go unheeded.

They indicate an extremely weakened condition of the heart and a disordered state of the nerves. One dizzy spell may pass off, but eventually they will come frequently, and at the same time more serious.

Those who are wise will start taking Milburn's Heart and Nerve Pills before their case becomes hopeless, for they have no equal for restoring the heart to its usual strength, and making the nerves firm and steady.

Mrs. Len. Kinney, Moose Mountain, N.B., writes:--"I was troubled with weak and dizzy spells, and my heart would beat something awful. I got so I had those spells every day. I got so I would try one medicine, and then another, but nothing did me any good until I got Milburn's Heart and Nerve Pills. I can safely say they did me more good than anything I ever took, for I feel like a very different woman. My friends often ask me what I have been taking, and I always say 'Milburn's Heart and Nerve Pills.' I tell all my friends who say their heart troubles them, to take your pills."
