GROCERY CLERKS ARE GRATEFUL TO PUBLIC

Thank Employers Also for Granting Shorter Hours.

One of the largest delegations of grocery clerks and drivers that ever assembled in London attended the store employees' meeting held in the City Hall Friday night.

The meeting was held for the express purpose that the clerks could in a body show their gratitude to the citizens of London and store owners for the support given them in securing early closing.

Owing to a couple of the store owners refusing to grant their men the privilege of getting off early, the following deputation will wait on the Trades and Labor Council: James Young, William Warwick and G. S. McCrae. This deputation will ask the labor council to assist and give the workers their support in the matter of early closing.

On behalf of the clerks and drivers, the Advertiser was asked to thank through its columns the citizens who so generously are doing their ordering earlier in the day than hitherto.

Personal Mention

Miss Esther Robinson, of London, who has been in Niagara Falls, N. Y., the guest of friends and relatives, has returned home.

Mr. and Mrs. D. Carter and daughter, of Toronto; Mr. and Mrs. Joseph Hirschfeld, of Detroit; and Mr. and Mrs. Henry Broughton, of St. Joseph, spent New Year's the guests of Mr. and Mrs. F. C. Wanless, Ask street.

Moving to New Offices.

Dr. Colon E. J. Smith, dentist, who until the present has been located at 290 Richmond street, will move to more commodious quarters. Dr. Smith will in future be located in offices 4 and 6 of the Higgins Block, above 212 Dundas street. His office suite is being completely equipped and modernized.

Closed, heated carriages for every occasion. Phone Hueston's Livery.

COLONIALS TAKE MORE INTEREST IN EMPIRE'S AFFAIRS

Have Greater "Imperial Thinking" Ideas Than People of Motherland.

SOUTH AFRICAN PROBLEMS

Interesting Outline Is Given by Prof. Hoernle at Canadian Club.

"Problems of the British Empire as They Present Themselves in South Africa" was the subject of an unusual and interesting address at the Canadian Club luncheon in the Teacumseh House last evening by Professor R. F. A. Hoernle, M.A., B.Sc., of Harvard University. Professor Hoernle was a member of the faculty of the University of Cape Town for four years, going out to South Africa in 1908.

The people of Great Britain, said Professor Hoernle, appear to be much less interested in imperial questions than the people of the colonies. There was much more "imperial thinking" to borrow Mr. Chamberlain's phrase, in Canada, South Africa, Australia and New Zealand than in Great Britain.

Graves of Soldier. Dead.

Professor Hoernle graphically described his first trip to country from Capetown, the graves of British soldiers in the cemeteries of many of the cities, each marked by the emblem of his country or part of the Empire from which the dead soldier came.

Professor Hoernle paid a tribute to Cecil Rhodes, whose grave in South Africa is marked simply by a plain slab on the summit of a great mound.

Rhodes returning in disgrace from England, after the failure of the Jameson raid found the Matabeles in insurrection and rode unarmed into their country, where after promising them redress for their real grievances, arguing them out of their fancied ones, and taking them to task for their murder of defenceless women and children, asked them would it be peace.

Then their leader and all the chiefs threw down their spears at Rhodes' feet.

Fusion of Races.

Prof. Hoernle expressed the hope that the fusion of English and South African would in time be brought about. The South Africans are trying the experiment of a bilingual nation, and before long all would speak both languages he believed.

On the problem of how to deal with the Kaffirs he pointed out that there are the extreme humanitarians who would incorporate the Kaffirs directly into the fabric of the white man's society. There are the opposite extremists who would like to see the Kaffirs exterminated or at least separated from the whites and driven back to the lands desirable for the whites. Neither of these extremist views was desirable.

WILL PRESENT REPORTS

Social Surveyors to Give Resume of Findings.

Complete reports of the social survey as conducted in London by Dr. Walter A. Riddell, of New York, and Dr. A. J. Myers, of Toronto, will be presented at the meeting of the central committee on Jan. 15.

Secretary W. W. Lyons, of the Men's Federation, stated yesterday that the reports were rounding into shape, and that Dr. Riddell had made arrangements to present his preliminary report to the executive on Tuesday.

The recommendations made by the committees, including the reports of the investigators, will go before the central committee at the January meeting, when the results of the survey will be made public.

DUNDURN'S CAPTAIN SAYS BOAT SEASON IS OVER

Lays Claim to Silk Hat Given for the First Arrival.

Toronto, Jan. 2.—Captain Sandy Irving, of Dundurn, has laid claim to the silk hat given each year by the harbor commission to the captain of the first vessel entering the harbor. Captain Irving sailed in on a schooner, bringing his boat from St. Catharines to lay it up here.

Local mariners claim that Captain Irving is not entitled to a hat because he came in between seasons, and in the meantime a plain seal will denote that the film has passed the necessary inspection.

FLASHES FROM THE WIRE

Boston, Jan. 2.—On-shore winds and the heaviest seas of the winter hampered shipping along the New England coast today, keeping steam as well as sailing craft in port. Several steamers, including the James S. Whitney, for New York, and the Pathfinder, for Norfolk, which were held up here by last night's northeast gale, ventured outside today, but found the seas running so high that they put back.

Conception, Jan. 2.—The new American steamer, Santa Cecilia, from

LONDON DOCTORS MAY GET RADIUM SUPPLY

Dr. Aiken's Discovery Causes Comment Here—Opinions—Vaay.

Many London doctors yesterday read with keen interest the announcement in The Morning Advertiser that Dr. W. H. Aiken, of Toronto, had been successful in curing a difficult case of cancer with radium. At present there is no radium in London, although the desirability of securing some of the precious element for experimental and treatment purposes in Victoria Hospital has been seriously discussed among the local physicians.

Dr. Huxley Williams said he was aware of Dr. Aiken's experiments with radium in the treatment of cancer. When he had last seen Dr. Aiken, the latter had had only a minute quantity of radium, worth about \$3,000. At the American Medical Congress in
