The Hawaian steamer Alexander, which is being refitted at a cost of \$50,000 at San Francisco, is the topic of a great deal of discussion among the marine fraternity of that city. As to the "identity" of the present and future body it was involved in the very idea of a resurrection. This affirmation he strongly fortified by reason and Revelation. To THE EDITOR :- I have read with in To the Editor: —I have read with interest a letter in your issue of today on our public schools, and signed "Parent No. 3." Although I fully agree with most of his clearly expressed opinions I must take exception to his statement that the appointment and dismissal of teachers should be left entirely to the Department of Education, and that all power in that direction should be wrenched from School Trustees—but my disagreement upon this point is confined to the cities. In such case I entirely differ with Parent No. 3, and I would go further and give to the City Trustees the Rev. Dr. Campbell's Sunday Evening Lecture—Service at Christadelphian Hall.

Oliver (defendant) appellant vs. Mason (plaintiff) respondent. Appeal from the County Court of Westminster—The action was for damages, charging that the defendant, who had hired the plaintiff's horse, had so ill-used it that it died. The trial took place before Bole, county judge, and a jury, who found a verdict for the plaintiff. Judge Bole refused to disturb the finding of the jury, and entered judgment for plaintiff for \$125.

The defendant appealed on the grounds:

1, that the verdict was against the evidence and the weight of evidence; 2 and 3, that there should have been a nonsuit; 4, for misdirection: 5, that the question of contributory negligence in the plaintiff in not informing defendant that the horse was weak in limb and a poor feeder, was not left to the jury; 6, that the verdict did not decide the question of contributory negligence.

That the only question open was, possibly, the question of non-suit, and that, as it appeared that there was evidence to go to the peared that there was evidence to go to the jury, the court on this appeal had no juris-diction to inquire further.
