signs of improvement and the general outlook is favorable, but there is some uneasiness owing to various disturbances and prospective trouble in industrial lines, notably the iron mills of the wet. There is no improvement in the iron market. Petroleum is lower, owing to the announcement of a new 400 barrel well. The petroleum situation generally, however, is bullish. Oceau freights on oil are higher, and on grain and provisions neminal. There were 163 failures in the United States reported to Bradstreat's during the week, 37 less than last week, and 42 more than in the like week in 1882. Canada and the provinces had 25, one more than last week American Butter.

Large consignments of butter from the Garden City Dairy company, of Chicago, have been placed this market. First-class roll, in prime condition,

That "tocsin of the soul, the dinner bell," as Byron calls it, suggests no pleasing reflections to the dyspeptic, bilious sufferer. He partakes, of course, but the subsequent torment is egregiously out of proportion to the quantity of food he eats, which lies undigested, a weight like lead in his unhappy stomach. There is a remedy, however, and its name is Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure. No case is entirely hopeless.

The reason why the surgeons of the International Throat and Lung institute, 173 Church street, Toronto, are making so many wonderful cures of catarrh, catarrhal deafness, brunchitis, asthma and consumption are: They have none but skilled and qualified medical men connected with the institute. They adhere strictly to their specialty and they use the spirometer invented by M. Souvielle, ex aide surgeon of the French army, an instrument which conveys the medicines in the form of cold inhisiations to the parts diseased, which is the only way these diseases can be cured. They are treating hundreds of patients every month, having twelve surgeons engaged in their work in Canada alone.
