WATCH REPAIRING. As it Often is, versus as it Should be. As it Often is, versus as it Should be.
Having lately taken in to repair quite a few watches that have been recently repaired by others, without success, and for which work excessive charges are said to have been made, it occurs to me to inform the public that my charges vary from 50c, to \$1.50 and but rarely exceed this. My numerous customers will bear me out in the assertion that it does not cost them more than from \$1 to \$2 to get good time from their watches the year round. I do not charge my confreres with overcharging for the work done, the mistake is in needlessly DOING TOO MUCH, from not having the experience and skill to readily perceive the cause of the difficulty, which may be a mere trifle. Please note the address.
