CANAL.

The Commissioners appointed by the Domin-on Government will, by order of the chair-nan of the Commission, meet in the Montreal proker, ander Saturday's date, which speaks for itself:

"Much consternation was felt here last evening when that fabulous cable was read in The Evening Journal regarding a marked decline in pig fron, but after all it, is untrue and iron closed higher instead of lower. It is easily seen that the error originated in the 12 o'clock onable, quoting a decline of 13 pence on Soutch warrants being altered into shillings, but the decline was more than made up by the close; higher prices are even looked for later." The New York Metal Exchange Report of Saturday, referring to this orbic, writes as follows: "The sensational despatch announcing the collapse in Glasgow is without any basis or foundation and founded on the error in taking pence for shillings in the quotations."
