

Dr. C. Gordon Hewitt, Dominion Entomologist, says, referring to the infantile death rate from intestinal diseases and diarrhoea spread by the house fly, he believes that the so-called harmless fly is yearly causing the death of thousands of infants, as well as spreading the germs of typhoid fever.

ECONOMY IN PARASOLS.

Save Frames From Year to Year and Recover Them.

Save your parasol frames from year to year, for they can be recovered to match your new frock and at half the cost of new ones. Style in frames change but little from season to season, and it certainly does look smart to have your parasol exactly match even in the fabric the gown with which it is carried. It frequently happens that we buy a yard or two more than the actual amount needed, and it is scarcely worth while except in black and white to keep over any material to alter a dress, except, of course, small pieces with which to mend. Dresses fade, and the carefully saved material is utterly useless. For a comparatively small sum any umbrella maker will recover your last year's parasol frame from the pieces left from your new frock, and you will have a smart addition to your costume. A well gowned woman last year had a stunning suit of blue linen with large flowers of embroidery applied above the hem and as trimming on the corsage, while her parasol, covered with the same fabric, had one of the flowers on each panel. These can be sewed on after the parasol comes home from being covered.

Open the sun umbrella and carefully pin in the center of each panel whatever trimming you are going to apply, then sew it carefully down. It is in excellent taste to embroider one's initials on one of the panels, and ribbon work makes an effective ornamentation.

Household Hints.

Scorch marks, unless very bad, when, of course, there is no cure for them, may be removed from linen in the following way: Cut an onion in half and rub the scorched part with it. Then soak in cold water. You will find that the marks will soon disappear after this treatment.

When putting blouses away in the drawers specially reserved for them place a sheet of tissue paper between each. This means very little extra trouble, and the blouses keep fresh and uncrumpled much longer than if they are tossed in anyhow.

Never starch linen that is to be stored for a long time. It is apt to crack and if left for many years will rot. Rinse the articles quite free from starch, dry and fold away, if possible, in blue paper. The blue paper keeps them from turning yellow.

Laundrying Soiled Towels.

Oftentimes the towels become gray and dingy looking. Treat them in this manner and they will become white again:

Place them in a kettle and cover with cold water. Add shavings of pure white soap and the juice of a lemon.

Place on the back of the stove and allow the water to gradually come to a boil.

If very much soiled the process may have to be repeated.

Rinse in tepid water, then in a slightly blue water and hang in the air to dry.

The Good Old Summer Time.
All sorts of dainty furnishings for the summer home are to be found in the shops, and none the least delightful

WICKER ELECTROLIER.

among the good things is the wicker electrolier seen in the illustration. Colored glass is used under the open wicker shade.

Tomatoes and Cheese.
Delicious are rounds of croutons—bread fried to a golden brown in butter, spread thickly with anchovy paste sprinkled with finely chopped pimientos. Another spread is a very thick stew of tomatoes, almost the consistency of a paste, sprinkled with grated cheese of the ordinary American variety. The tomatoes should be

highly seasoned and quite rich with butter.

The Child's Teeth.

An excellent tooth powder for the elder children of the nursery brood is made of one ounce of precipitated chalk, half an ounce of powdered borax and a quarter of an ounce each of powdered myrrh and powdered orris root. The tiny child with teeth should have a soft toothbrush, and plain water should be used.

New Flavoring For Chocolate.

If hot chocolate is liked at tea time the flavor is improved by adding a drop of vanilla or a dash of brandy.

Keeping the Hands Smooth.

It is possible to have smooth hands even if one is a housekeeper and dishwasher. Obtain from the druggist 5 cents' worth of tragacanth, which is enough for a year's use. Dissolve a spoonful of this in three times as much water. Let stand in a covered teacup for twelve hours. Then fill the cup with water, and you may apply the thin jelly which is made freely to your hands after each washing. A few drops of your favorite perfume and a little glycerin added to the jelly improve the lotion.—Woman's Home Companion.

SOUR RISINGS FROM STOMACH

Those Who Experience Fullness and Pain After Meals, Stomach Disorders, and Indigestion, Should Read Below.

"When I was working around the farm last winter I had an attack of inflammation," writes Mr. E. F. Dawkins, of Port Richmond. "I was weak for a long time, but well enough to work until spring. But something went wrong with my bowels, for I had to use salts or physic all the time. My stomach kept sour, and always after eating there was pain and fullness, and all the symptoms of intestinal indigestion. Nothing helped me until I used Dr. Hamilton's Pills. Instead of hurting, like other pills, they acted very mildly, and seemed to heal the bowels. I did not require large doses to get results with Dr. Hamilton's Pills, and feel so glad that I have found a mild yet certain remedy. Today I am well—no pain, no sour stomach, a good appetite, able to digest anything. This is a whole lot of good for one medicine to do, and I can say Dr. Hamilton's Pills are the best pills, and my letter, I am sure, proves it." Refuse a substitute for Dr. Hamilton's Pills of Mandrake and Butter-nut, sold in yellow boxes, 25c. All dealers, or The Catarrhzone Co., Kingston, Ont.
