THRIFT IN FOREST FIRES. Last year 265 Canadian men, women and children perished because of forest fires. Campaign for 1917 is to keep the next five months clear of such needless sacrifices. The neglected camp fire, the tossed-away match and cigarette, the burning of settlers' "slabs" have heaped up our national account for wasted life and property. This is the Programme. If you are a settler—Guard well your clearing fires. If a hunter, fisherman, camper, prospector—Put that Camp Fire out before you leave it. Put it DEAD OUT. Try a couple of extra paths of water, or shovels of earth. Never build a fire except in rocks, or gravel, or other safe spot. Keep your fire small. It cooks what is needed to ignite the fuse.
