MONTREAL MINING EXCHANGE.

Reported by W. I. Fenwick, Exchange Court, 10 Hospital Street. Bell Tel. Main 8035. Bell Tel. Up 1867.

MARKET ACTIVE AND BROADER — DEER TRAIL AND CANADIAN GOLD FIELDS TO THE FRONT — WAR EAGLE BOOMS.

Montreal, Nov. 16.

The market was active and broad this forenoon, embracing other specialties than those which have been so prominently of late before the public.

The continued large production of ore throughout the mining districts as a whole, and the remarkable favorable developments in many properties in particular is the primary reason for anticipating the probabilities of a renewal of market activity and of higher prices in the near future.

We have had samples of this during the last day or two and again this morning signs were not lacking of a renewal of interest in speculation and of enhancement in values.

Among the issues which were actively traded in was Deer Trail No. 2 which sold repeatedly at 20½ and 20, closing at the latter figure, but being in good demand at this recession; in all 7000 shares were sold, and Canadian Gold Fields which remained firm at 10.

Big Three was unchanged at 11, on thousand shares selling at that price and 100 at 10½.

There was a boom of considerable proportion in War Eagle, it had a sharp recovery and was offered at 286, no sales, however, taking place.

Montreal-London, on receipts of good news from the mine had a buoyant appearance, 48½ was freely bid, in broken lots sales were made at 48.

Payne was active at 111½, 3000 shares changing hands.

Slocan Sovereign also enjoyed its share of trading and sold repeatedly at 35½ and 35.

Good news is looked for from the California, a strike into some rich ore may now be expected at any moment, the whole face of the tunnel is mineralized carrying gold and copper values.

Mr. Bartlett, of Bartlett & Smith, received this morning from the Hornblend mine news of a most satisfactory nature; work is progressing in a most satisfactory manner and the immediate future prospects are most encouraging.
