

THE  
**MARITIME MEDICAL NEWS.**

A MONTHLY JOURNAL OF  
**MEDICINE AND SURGERY.**

VOL. IX.

HALIFAX, NOVA SCOTIA, JANUARY, 1897.

No. 1.

**PANOEPTON** as a Nutrient in Surgical Operations.

PATIENT - MALE - AGE 31 YEARS.

*"Collapse following operation for strangulated  
Hernia. For three weeks following the operation,  
there was complete collapse, the man knowing nothing  
for fifty days. Under the care of two skilled nurses,  
Mr. B. is bathed every two hours with alcohol, and  
for SOLE nutriment for three weeks took Panoepton  
in table-spoonful doses. Most of the time every hour,  
and the rest of the time every two hours. Recovery  
was excellent and the patient is now at his usual  
occupation as Principal of Schools."*

*-July 24th, 1896.*
