Toronto General Hospital, Nov. 4, 1875

THOS. SPENCE, Esq., Manager "Horeb" Mineral Springs :
SIR,—I hereby certify that James Binnie was a patient in this institution in the months of February and March, in the year 1873. He was suffering from Diabetes of a most aggravated form, and was removed from here by his friends, as we and they supposed to die in a few days. To our surprise, in about four weeks afterwards, he was able to walk here to see some of the patients. I have no doubt but that your mineral water was the means of curing him.

Yours truly,

J. H. McCOLLUM, M.D.,
Medical Superintendent.

Agent for Toronto—W. J. MITCHELL, 133 Yonge Street.

Dr. McIntosh's

Uterine Supporter.

The attention of the Medical Profession is invited to this instrument as the most perfect ever invented for treating Prolapsus Uteri, or Falling of the Womb. It is an Abdominal and Uterine Supporter combined.

The Abdominal Support is a broad Morocco Leather belt with elastic straps to buckle around the hips, with concave front, so shaped as to hold up the abdomen.

The Uterine Support is a cup and stem made of very highly polished hard rubber, very light and durable, shaped to fit the mouth of the womb, with openings for the secretions to pass out, and which can be bent to any curve desired, by heating in very hot water.

The cup and stem is suspended to the belt by two soft elastic Rubber Tubes, which are fastened to the front of the belt by simple loops, pass down through the stem of the cup and up to the back of the belt. These soft rubber tubes being elastic adapt themselves to all the varying positions of the body and perform the service of the ligaments of the womb.

The Instrument is very comfortable to the patient, can be removed or replaced by her at will, can be worn at all times, will not interfere with nature's necessities, will not corrode, and is lighter than metal. It will answer for all cases of Anteversion, Retroversion, or any Flexion of the Womb, and is used by the leading Physicians with never-failing success even in the most difficult cases.

Price—to Physicians, \$8.00; to Patients, \$12.00.

Instruments sent by mail, at our risk, on receipt of price, with 20 cents added for postage; or by express, C. O. D.
