they are more acceptable to the stomach.

**ZOEDONE.****A Delicious Beverage.**

The BRITISH MEDICAL JOURNAL says:

"We can confidently recommend it to the attention of physicians and others who  
are occasionally at a loss what to direct their patients to take when parched by  
feverish thirst or depressed by exhausting ailments—notably in cases where alco-  
holic stimulants would be prejudicial. We feel that it would be found exceedingly  
useful in mitigating the discomfort oftentimes experienced by those suffering from the  
thirst, loss of appetite, and general *malaise* connected with the last stage of phthisis  
and chronic bronchitis. We would also, from our observations and experience,  
advise its introduction into clubs, taverns, and places of public amusement, where  
it would judiciously supersede vinous and alcoholic stimulants, seeing that it con-  
tains, as its name implies, life-giving ingredients in a form easily assimilated."

**A BRAIN AND NERVE TONIC.**

The LANCET says: "ZOEDONE contains the soluble phosphates of lime, iron,  
soda, and potash in medicinal quantities. Very efficient and pleasant."

The MEDICAL PRESS AND CIRCULAR says: "Is commendable equally  
for the style in which it is put up and the delicate flavour which it possesses, and  
also on account of its special merits as a nerve tonic."

**NON-ALCOHOLIC. STIMULATES BY STRENGTHENING.**

CAUTION.—Dealers should be on their guard against numerous  
imitations of ZOEDONE, put up in the same style and offered as  
substantially the same article. The composition of ZOEDONE is  
protected by Letters Patent, and the Zoedone Company will proceed  
against infringements.

Every Chemist that has introduced ZOEDONE has found a  
large and regularly increasing sale for it.

It is put up in Champagne Bottles, and there is no trouble with empties, as  
the bottles are included in the price.
