:-: PENSIONS :-:

The Board of Pensions Commissioners issues the following explanatory notes on pensions:

tory notes on pensions:—

1. Pensions are not awarded for service. They are awarded for the loss or lessening of normal abilities.

2. The only abilities common to all Canadian soldiers and sailors on enlistment resulted from their possession of normal bodies and minds. With these they were able to do the ordinary things that all healthy men can do, such as seeing, walking, stooping, hearing, grasping, and so on.

3. The loss or lessening of the power to do any of these things is called a disability. For a disability which occurred on service a compensation, known as a pension, is paid.

4. The amount of the pension depends upon the degree of the disability. Every disability has been rated by its relation to those caused by severe injuries or diseases, such as the loss of both arms, paralysis, consumption, loss of both eyes, and so on.

paralysis, consumption, loss of both eyes, and so on.

5. The amount of the pension is not affected by the amount of money earned before enlistment or after discharge.

6. Skill in a particular occupation results from the special training of one or more of the ordinary abilities.

7. The loss of a specially trained ability does not entitle a man to a larger pension than is awarded to the others, trained or untrained, who have lost the same ability.

8. If a man has lost a trained ability by which he previously earned his living, he is entitled to a free course of vocational training with pay and allowances.

9. In case of illness resulting from service injuries or diseases, free treat-ment is provided. During treatment in hospital the patient receives pay and

allowances.

10. The Government provides free of cost any artificial appliance that may be required on account of a disability resulting from service. It will repair or renew these when necessary at no expense to the disabled man.

11. Information regarding any of these matters may be obtained from the Head Office, or from any of the district offices, of the Board of Pension Commissioners.

COAL SITUATION IS VERY MUCH EASED

Mild Weather has Caused Less Serious Outlook on Fuel Question.

Fuel Question.

The unusually mild weather this winter has saved the coal situation in this country, Mr. C. A. Magrath, fuel controller for Canada, states. The coal situation is now easier than it has been for many months past, due to the absence of severe weather in Canada and particularly in the United States.

Over a large area in the United States, Mr. Magrath explained, there has been a continued spell of mild weather, which has also reached Canada. As a result coal has been coming from the coal-producing areas across the border in steady quantities. The mild weather has saved vast quantities of coal, with the result that Canada has had all she desires. Even if very cold weather prevails in Canada any time during the remainder of the winter, the situation is such as not to cause anxiety, Mr. Magrath believes, Last November the situation was not so good.

The situation does not, however, warrant indiscriminate use of coal, the fuel controller pointed out, but if mild weather continues for the next two weeks there will be no grounds for apprehension.

SEED RESTRICTIONS FROM U.S. REMOVED

The Canada Food Board has been informed that field and garden seeds have been removed from the restricted export list of the United States, and that American shippers in future do not require licenses for shipments of seeds coming into the Dominion. The removal of United States restrictions on flour also will extend to Canada.
