and observe the chemical weapons destruction technology at a model facility. At present the Soviet Union is working out practical details of the cooperation with this invitation. We are planning this visit for the period 2-8 October. We intend to have two persons from every delegation, including a representative of the work of the Ad Hoc Committee on Chemical Weapons. Delegates will be informed of all the necessary details regarding this visit before the end of this session. It will be held in the afternoon and will last for one day.

Delegates will be informed of all the necessary details regarding this visit before the end of this session. It will be held in the afternoon and will last for one day.

We have already informed the United States delegation that we accept this invitation, which we view as a step towards strengthening mutual confidence.
