lands. The width of the road has been made, wherever practicable, 24 ft. wide. 49 bridges of various sizes and substantial workmanship have been constructed on this road. The total expense amounted to about £.450. The soil of the country through which the road passes is generally good and fit for cultivation, with the exception of certain hills or mountains hereafter specified, viz., a high rocky hill at the beginning of the third concession, at which the road commences and over which it passes; a high hill facing the south, at the distance of 94 arpents from the beginning of the road, at the foot of which the Bras Riche crosses the road; and another hill, at the distance of 111 arpents from the beginning of the road, lying south of the Bras de Nord Est, and rising gradually towards the s. e.

**BONSECOURS**, seigniory, in the co. of Lotbinière, between Desplaines and Ste. Croix, is bounded in the rear by the former and contains about 1½ l. in breadth by 2 in depth. Granted July 1st, 1677, to François Bellanger. The banks of the n. St. Lawrence are here high but the rise is gradual.—This S. is abundantly supplied with timber of good quality, and large quantities are annually felled for firewood and sent to the Quebec market.—There is scarcely any water.—The S. forms part of the parish of St. Antoine.

Granted, August 8, 1702, to Sieur Charon and is now possessed by Mrs. Barrow. The same kind of land prevails generally through this and the adjoining seigniories, of which but a small

part can be deemed of superior quality. Much the largest proportion of this grant remains covered with natural wood; but little good timber can be found, though the inferior kinds are abundant enough.

**BOUCHARDS**, isles, lie in front of the SS. of Vcherches and Contreeur, in the St. Lawrence.—Granted, Nov. 3, 1672, to Sieur Fortel.—The largest is about 5 m. long and  $\frac{1}{2}$  m. broad. The land, excepting some good meadow and pasture, is covered with wood and produces some very fine timber. The soil is excellent. These isles are in the p. of St. Sulpice.

**BOUCHERVILLE (F.), t. STE. MARGUERITE, s.**  
**BOUCHERVILLE**, seigniory, on the s. side of the St. Lawrence, is in the co. of Chambly; bounded w. by the fief Tremblay, e. by the S. of V. rennes and by Montarville in the rear. 114 arpents in front by two leagues in depth. Granted, 3d Nov. 1672, to Sieur Boucher and now belongs to Madame Boucherville.—The quality of the land, if not of the first class, is far above mediocrity, being for the most part a lightish mould inclining towards sand, and, with careful husbandry, by no means deficient in fertility. Nearly the whole is under cultivation, and generally produces very good average crops of all sorts.—The wood remaining is inconsiderable in quantity and only of inferior kinds.—Two small rivulets that fall into the St. Lawrence partially water this S. towards the front, one of which works the seigniorial mill. There is no stream in the lower part.—A main road leads from the village of Boucherville to the Richelieu and thence to Chambly: several other roads, well kept up, pass through all the settled parts of the S.—All the lands in this S. were conceded prior to 1759, and have been subdivided among a great number of inheritors,
