ness. Altho the means of accomplishing this are not yet decided upon the co-operation of large owners will be secured and the hosts of workmen at the bench and in the shop will be allowed to continue on a living wage. There are on the committee already appointed proprietors of large industries who are bending their energies toward this end, and who will seek to use their influence to make the practice universal. This course has been determined upon, not only thru the advanced sociological endeavors of the moving spirits, but because of the appeal which has already been heard from hundreds who have lost employment in the last few days and who see privation immediately ahead. Whether the government will find it necessary to take measures to enforce activities is a probability which the committee does not wish to discuss.

SATURDAY'S BIG GAME WILL BE A FAST ONE

Field Against Frenchmen, No Matter What Happens.

It is the firm belief of every man on the Toronto lacrosse team that if their players had stayed on the field when they played the Nationals at the Beach a couple of weeks ago they would have won. Some of them are inclined to believe that Finlayson was too severe with them and too lenient with the Frenchmen; but all agree that at one time they had the Nationals beaten, and that they only lost the advantage when they were playing a man or two men short. For the great game on Saturday they have been drilled with the idea of staying on the field no matter what happens. Moreover, they say that their defence has by this time had plenty of opportunity of inspecting all the tricks of that great National home, and that this time Etagg, Cameron and Somerville will be able to hold Pitre, Lamoreaux and Lalonde. If any of them shows arry sign of the weakening he will be taken out at once and McMullen, the crack new man from the Shamrocks, will be played.

Is This Why English Beauties Are So Fair?

(From London Herald.) Ever since the discovery that mercolized wax would absorb and remove a discolored complexion, its use by ladies as a substitute for bleaching creams has Trown repudity. substitute for bleaching creams has grown rapidly. A perfect complexion can be maintained indefinitely if this remarkable substance is used. Its beneficent, cleansing, clearing and preservative action is quickly apparent, and ladies who have been paying as high as a guinea a jar for "special bleach," from beauty specialists, soon recognize that merbolized wax outranks them alk. It has become so popular that it can be obtained at all chemist shops in the British lales. American druggists also have great sles. American druggists also have great isles. American druggists also have great demand for it, in original one-ounce backages. The favorite way of using it is to apply it, like cold cream, before retring, washing it off in the morning. The saxolite lotion for wrinkles and the facial contour has also become extremely popular. One ounce powdered saxolite is dissolved in one-half pint witch hazel. Bathing the face in this has a splendid affect, in crasing wrinkles and improving contour.

has been nominated for the committee and will take up the matter of placing unemployed men on Ontario farms during the fall and winter He stated last evening that H. A. Macdonald, director of immigration, will be called into counsel at an early date, and that a definite proposal would be laid before the committee. He thinks that there will be little difficulty in placing several hundred men on the farms. One thing that has worked against this in the past has been the disappointing comparison between prices paid in city employment and in the country. However, men who wish to pass the winter on a nominal salary, and have their board provided, will be accommodated in large numbers.
