Secretary Bob Lowden may not encounter the amusing incidents like the landlady collecting the rent from Mutt and Jeff, but he has all the difficulties and as many surprises. The Weather Man was the obstacle yesterday, and the committee at six o'clock announced a post-ponement of the fourth round until to-pight.

Sure, this is the time to pick the winners. You cannot do worse than the best of any former attempts in this controversy. Tom, Wilson, who has won four games away off, should defeat Bob Rennle, especially as the latter has barely squeaked thru in two games.

It was the fastest game of hockey that has been witnessed on local ice in many moons. Queens, much to the surprise of the general public, were favored with the services of Dobson, who was an important factor in securing the victory for the Presbyterians.

Varsity has one of the fastest and most perfect working machines seen here in many seasons, and during the early stages of the game looked like possible winners. Each player is a speedy skater, a clever stick-handler, and is always playing the game. Parker in goal saved his team time after time. He is as cool as a cucumber, and is easily one of the best in the game. Code, FcSloy and Armstrong were

What's the biggest skating rink in the city? There's one 500x300 feet. viz., the lacrosse field at Rosedale. It has just been flooded and frozen by the weather, and a continuous frost will afford the best surface for the who enjoy the winged steed. The member's are asked to join in the sport to-day and bring their lady friends.

william Hendrie of Hamilton, president of the Canadian Thorobred Horse Association, reports as follows:

"I have pleasure in submitting the following information and figures taken from the report of the record committee for 1909; Pedigrees recorded, 27%, as against 139 for 1908. Money received, \$583, as against \$262 for 1908. Animals imported, 296. All this shows a gratifying and increasing interest in the thorobred horse in Canada, and the marked increase compares most favorably with that of any other breed of horse or cattle in this country. The number of thorobred horses imported into Canada for the improvement of stock for the year 1909 stands next to that of the Clydesdale breed, being larger in number than that of any other breed of horse, or even cattle. You are aware, the thorobred horse has been subject to all sorts of misstatements during the past year, but the time is coming when the people of this country, farmers, breeders, commercial people and those who like a good horse for use will recognize his potent influence on the light horse breeding of the country."

Baseball Gossip.

Tom Chivington was elected president, secretary and treasurer of the American Association of Baseball Clubs, his term of office being fixed at one year.

Word comes from St. Louis that the deal-for the sale of Robert L. Hedge's interest in the Browns will not go thru after all, and that Hedges will remain president of the club. In that event he will appoint Robert Wallace manager of the team. It is said that the syndicate formed to take control has been unable to raise the price asked, about \$525,000.

We may have the pleasure of seeing one of those Japanese baseball teams in action this spring. The manager of the University of Kioto, Japan, has written to the Cornell Athletic Association asking for a game with the Ithacans in May, and it is likely that the game will be scheduled by the Cornell team. All reserve seat ticket holders enter by the south door. Both teams are in good condition and confident; the betting is not brisk, the Parkdale supporters asking odds and St. Michaels ready to bet at even money. Gren Caldwell of Barrle will referee and the line-up will be:

The manager of the Kloto team, which is contemplating a coast-to-coast tour of the United States this year, declares that his nine comprises the best team in Japan, either amateur, or professional, and adds that it is not the aggregation that was beaten by the Chicago University nine last year.
