Foreign Markets Are Stronger
But Dulness Rules at Chicago

Russian Situation Creates Alarm Abroad, and Wheat Prices Advance a Fraction at Chicago in Consequence.

CHICAGO, Sept. 7.—Short crops in Europe attracted short speculative buying of wheat to-day and lifted the market notwithstanding heavy selling on the part of owners. The close was 1/2c to 3/4c higher than last night. Corn showed a net loss of 1/2c to 3/4c to 1c, and provisions 1/2c to 3/4c to 1c lower.

It was a day of much nervous action in the wheat market with the volume of business considerably greater than has been the case for a long time. The sales were of the nature of profit-taking in advance of the United States Government crop report. On the other hand there was some buying on the part of foreign buyers, notably the French, who were buying for export. During the day the market was fairly active, but the French buying was not sufficient to overcome the heavy selling. The market closed with wheat 1/2c to 3/4c higher than last night, corn 1/2c to 3/4c to 1c lower, and provisions 1/2c to 3/4c to 1c lower.

Local grain dealers' quotations are as follows:
