FRIDAY MORNING, DEC. 6, 1912

**WE DO NOT NEED TO BOAST.**  
The Canadian Parliament yesterday discharged a long delayed duty that the Canadian people would have discharged years ago, and acknowledged by the vote of thirty-five millions towards imperial naval defence that we were no longer willing to remain under the stigma of allowing the mother country and her sorely taxed people to pay the shot of defending our shores and guarding our trade and our citizens on every sea.

We cannot afford to do any bragging under the circumstances, but we can afford to think a little better of ourselves.

**OUTLOOK IS PEACE.**  
Whatever may be the tenor of the reports cabled from Europe regarding the international situation created by the Balkan war, the indubitable fact remains that London and Paris, the European financial centres, disclose no symptoms of apprehension. Evidently not only do they not contemplate war, but contrariwise, consider that the conflicting interests of the powers immediately concerned will be adjusted without resort to arms. For this relief credit must be given mainly to Britain and France, which, among the great powers, have studiously refrained from provocative comment.

Almost all countries are now enjoying a period of unexampled prosperity despite the complaints of the higher cost of living. This year will establish a new international record both in imports and exports, and meantime there is no indication that the wave has spent its force. No responsible statesman will venture to let loose the dogs of war without serious cause, and that is lacking. Indeed, it is not unlikely that this emergence of the near east problem may prove a blessing in the end.

**NEW HAVEN-GRAND TRUNK DEAL.**

Criminal proceedings have been instituted by the United States Government against the New Haven Railroad monopoly in the New England States. On Tuesday the federal grand jury began its investigation into the agreement between the New Haven and Grand Trunk companies, which resulted in the Canadian road suspending its construction of an independent road to New England life water. The Canadian public may thereby be enabled to ascertain what policy the Grand Trunk controllers had in view. The resumption of the enquiry, halted on Nov. 26, is attributed to the recent judgment of the supreme court of the United States dissolving the merger of Pacific railroads, carried thru by the late Mr. Harriman. In that case the court held that if the competitive traffic affected amounted to only 10 per cent of the total traffic, the merger violated the terms of the Sherman anti-trust law. Mr. Mellon, the president of the New Haven road—alleged to be the nominee of the Morgan interests—has hitherto managed to keep his financial methods an absolute secret. They now stand a fair chance of being exhibited in the light of day.

**BENEFITS OF PUBLIC OWNERSHIP.**

Hon. Adam Beck's announcement yesterday evening of a new scale of reductions in hydro-electric power rates will utterly discomfit the critics who have been relying on the breakdown of the system to justify their hostile front towards the undertaking. For years the public had been warned that Mr. Beck's calculations were all wrong, that his electrical engineers were misguided and inexperienced, and that it was impossible to sell power at the rates quoted. Toronto was warned that instead of \$18.10 as the price for power, it could not cost less than \$35, and some calculators earnestly assured the public that power under the hydro scheme would cost \$50 or \$60. Recently, in Brantford, the corporation interests made similar statements, and the Hydro-Electric Commission was accused of selling away under cost at impossible prices.

Some months ago a tentative list of reductions was announced, and Toronto was assured that the rate would be \$2 less. On the return for the fiscal year, closed in November, it has been found possible to make a still further reduction, and the rate in Toronto will now be \$15. This means a very substantial saving to the city and to consumers of light and power, and is far more than an equal to the sinking fund and other charges about which so much anxiety has been manifested by opponents of the hydro system.

Union are being similarly benefited except four, three of which remain stationary, and one has its rate increased, the figures having been based on over-estimate of the power required. Hamilton and Dundas are reduced proportionately from \$17.50 and \$17.25 to the common figure of \$15. Even Stratford gets a reduction from \$32 to \$30. In Toronto the saving on a consumption of 20,000 horsepower, which is likely soon to be attained, is \$60,000 a year. The saving to the citizens by the lowering of rates to the consumer thru competition will soon amount to millions.

**THE PARKS DEPARTMENT.**

Demand is made in one of the evening papers for a landscape gardener. The park commissioner should have something to say about this. An impression exists that there has been a failure to do all that was required in this respect, on the part of the parks department. But if the department is unable or unwilling to assume the responsibility of carrying out all the improvements contemplated in recent proposals, then the board of control should be made aware of the fact at once. It is true there is a difference between landscape gardening and the ordinary care of the parks and gardens of the city, particularly when it comes to dealing with new territory and laying out new areas. But the success which has followed the work of the department for the last season or two seems warrant enough for supposing that the departmental resources are sufficient to grapple with the tasks the future has in store. It is up to the park commissioner to say whether he can fill his job or not. We believe he can.

**TAXATION AND REPRESENTATION.**

Aldermanic candidates will have to make it clear to the voters where they stand on the question of giving votes on money bylaws to permanent tenants of the city. No evasions of bluffs should be permitted to postpone an early settlement of the problem whether the people who pay the taxes should have a voice in their disposal. It has been pointed out that all the members of council are landowners and cannot be expected to sympathize with the tenants' views. This, of course, is rubbish. The possession of a house and lot should not render a man dead to every sense of justice and equity. It is true that as men accumulate landed property and add house to house and field to field, their regard for the rights of others often undergoes deterioration, but few such men command the confidence of the people. Those who ask for the suffrage of the people are not elected to represent a section, but all the people, and who pay the taxes and those who say what shall be done with them in one of the most vicious survivals of the bad old times that any British state can exhibit. It has been done away with in England, but The Globe and The Telegram, constrained by their real estate sympathies, still desire to perpetuate this injustice.

**JAPAN AND KOREA.**

Little has been said in Canada about the action of Japanese officials in Korea. Yet it is only a title of the accusations openly made are true. Japan must be held as outwith the pale of twentieth century civilization notwithstanding its adaptation of certain of its forms. If reports made from responsible sources are to be believed, the grossest injustice has been extended to Koreans of high character, and particularly to those professing the Christian faith. On utterly vague and unproved charges of conspiracy to overthrow Japanese power, hundreds of presumably innocent men have been tortured by methods to which the so-called "third degree" to which accused persons in the United States are subjected, is the vilest trifle.

When Japan broke into the rank of world powers, the tendency was to extend her advancement in war and industry to all departments of national life. But it now appears as if the Japanese have only that veneer and that in the administration of justice they are still as crude as was Europe in the middle ages. In a Japanese court, it is not incumbent on the prosecution to prove the guilt of the accused—for conviction it is enough that he does not prove his innocence. In the trials for so-called conspiracy, accused Christian Koreans were not even allowed to call witnesses nor to plead and show that their alleged

**Ornate Ceiling IN C. P. R. OFFICE**

Costly and Magnificent Interior Work in Public Room of New Railway Building.

The ceiling of the ground floor of the new C. P. R. building is claimed to be the best in any building in Canada. For six weeks ten men have been working on the job, and Joseph Walsh, the foreman, says that the work will be finished by Saturday, when the scaffolding will be taken down and the magnificent work unveiled.

The ceiling is 23 feet 8 inches above the ground floor and is a long called suspended ceiling, and is at present a mass of white panels running lengthwise and crosswise, with grey stucco work filling the recesses. When completed the stucco work will be tinted and the panels will be gilded.

The panels are about ten inches lower than the floor and surround all the girders that support the floor. The ornamental plastering of the ground floor was manufactured in the United States and shipped to Toronto all ready to be fixed in place.

The design of the panels is made up of a Greek ornamental fret which covers the soffit, while the cornice design of the other floors are just being prepared and it is expected that work on this floor will be finished by February.

**The Last Before Christmas Excursion to Toronto.**

In connection with the annual fat stock show at Toronto, the Canadian Northern Ontario is giving a rate of 10 cents for the round trip from all points on its lines and the Central Ontario and Bay of Quinte Railways. The city at this time has a number of attractions and things of great interest are going on, and the Central Ontario and Bay of Quinte Railways, as a consequence, have exhausted their Canadian Northern Ontario, Central Ontario or Bay of Quinte ticket agent.

**Now Feels Strong and Vigorous**

And Fit for Any Amount of Work as the Result of Using Dr. Chase's Nerve Food.

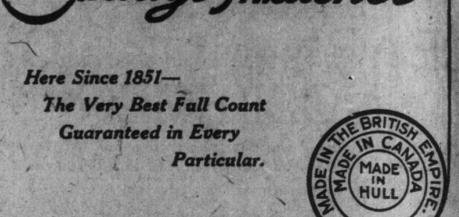

It is so very over the work warning given by headaches, indigestion, falling memory, lack of power to concentrate the mind, irritability and nervousness, that many a man does not realize his danger until on the verge of breakdown. I, the writer of the letter quoted below, you can call a halt to the wasting process and restore vitality and energy to the nervous system by using Dr. Chase's Nerve Food. This great food cure has a wonderful record of cures.

Mr. J. Hurlbert, 28 James street, Brantford, Ont., writes:—I was very much run down in health and my nervous system was completely exhausted. Close confinement at my work, I think, brought on the trouble. I started using Dr. Chase's Nerve Food and by the time I had used up one box I felt a great improvement. The continued use of this preparation has thoroughly restored my system so that I feel strong and vigorous and fit for any amount of work. I have also used Dr. Chase's Nerve Food for my wife and she has had splendid satisfaction, and she is now able to do any amount of work. Moreover, I think the contention of the city is well founded, that disqualification by reason of interest is absolute, that the judge has no power to do anything in connection with his own appeal. It seems to me that the interests of justice will best be served by my appointing some entirely disinterested person. I therefore, appoint the chairman of the Ontario Railway and Municipal Board, under the statute, to hear the appeal. I select him as that board has jurisdiction over many matters of assessment. There will be no costs of the application.

**Divisional Court.**

Before Mulock, C.J.; Clute, J.; Sutherland, J.  
Re Robertson and Township of Colborne—W. J. Lennox, K.C., for Robertson et al. G. F. Shepley, K.C., for township. An appeal by C. A. Robertson et al. from an order of Divisional Court, dated Nov. 12, 1912, refusing their motion for an order quashing bylaw No. 2 of 1912, of the township, providing for the maintenance of a telephone system of Colborne, and a resolution passed on April 27, 1912, that the municipal telephone system pay low costs due on the passing of the bylaw. Appeal argued and the township of West Wawanosh set aside. The Township of Colborne to have two weeks to obtain payment of the \$120 from the Township of West Wawanosh, or otherwise to pay it. If the \$120 is not paid the bylaw is set aside. Resolutions in respect to the two points on which they have succeeded, viz. Ward v. Wray—A. Weir for defendant; R. I. Towers (Sarnia) for plaintiff. An appeal by defendant, of McWatt, J., from the judgment of the County Court, dated Oct. 25, 1912. An action by a balance to recover \$141, claimed to be made by George Wray, et al., and George Wray, Jr., in favor of William John Ward, the plaintiff. At the trial judgment was awarded plaintiff for the amount claimed, with costs. Appeal argued and judgment reserved.
