Grand Mira has not been heard from at the hour of telegraphing, but, assuming the vote to be the same as at the last election, the figures stand as follows: The total vote polled was 6786, of which 3791 were cast for Sir Charles Tupper and 2995 for Mr. Murray, giving Sir Charles a majority of 796.

Mr. Murray's stronsholds were Sydney, North Sydney and Sydney Mines. In these three towns there were 464 more voters than at the previous elections, mostly all put on by the Liberais. They expected 450 majority in these three places and got 320. In the

trict 550 new names were added, the larger majority by Liberals, and the Liberals, boasted that they were putting in some fine work there and they Liberals, boasted that they were putting in some fine work there and they succeeded to the extent of 60 votes, for, in these districts, Sir Charles only got 261- majority, as compared with 221 for Mr. McKeen. Compared with the fast election Mr. Murray made gains at Sydney, Leitche's Creek, Victoria, Little Bras d'Or, Hillside and Ball's Creek, making his total majorities 464 to-day, compared with 331 four years ago, or a net gain of 123. Whereas, by the same comparison with Mr. McKeen's vote, Sir Charles Tupper increased the Conservative majorities as follows: Louisburg 10, the north side of East Bay 55, Boisdale 18, Grand Narrows 45, Catalone 32, Bridgeport 78, and transferred Lingan from 32 for Mr. Murray to 30 for Sir Charles, the south side of East Bay from 36 for Mr. Murray to 30 for Sir Charles, the south side of East Bay from 36 for Mr. Murray to 9 for Sir Charles, and Gabarus from 19 for Mr. Murray to 1 for Sir Charles, in all rolling up a majority of over 1200 votes. While the Conservative organization was not to be compared to the compact concrete body of men who directed the Liberal campaign, much praise is due to the energetic efforts of the members of the

The Majority is 822.

Later—Complete returns give Sir Charles Tupper a majority of 822 votes. No greater tribute could be paid to the personal pepularity of any man and the domination of his powerful individuality, not only over his own party, but over the great mass of his countrymen, than was paid to Sir Charles Tupper, Baronet, to-day, by the people of Cape Breton County. The first time he has been in the county for 18 years, and the tnird time he ever was in the county, he came here less than a fortnight ago and placed himself in the hands of the people. He was under a great disadvantage from the outset. A man of 74 could not expose himself to all the rigors of a midwinter campaign like his opponent, who is in the prime of young manhood. Sir Charles could not see the great bulk of voters who live back from the railway, He was denounced from one end of the county to the other as a "stranger" and a "foreigner," and the strongest personal appeals were made to electors to vote for the er," and the strongest personal appeals were made to electors to vote for the "Cape Breton Boy," as against "the millionaire English Baronet."

Mr. Murray was the strongest and most personally popular man that the Liberals could nominate and the "non-resident" cry had a far more wide-reaching effect than the Conservative managers at first dreamed of. But the greatest obstacle to a Conservative sweep was the condition of the lists. Elections nowadays are won by the addition of new voters the year before the election is held. Lulled to sleep by their 750 majority of four years by their 750 majority of four years ago, the Conservatives did not evince one-tenth the interest in adding new voters to the list that the Liberals did voters to the list that the Liberals did and they claim that a large percentage of the names they handed to the re-vising officer are not on. Thus, of the 40 Conservative names said to have been sent to the revisor from Sydney Mines, not one of them is on the list, and this is only a sample of the indignant complaints that come from Conservative committees all over the county and which demand investiga-

Great Rejoicing Among the Government
Supporters at Ottawa.

Ottawa, Feb. 4.—The excitement over
the Cape Breton election to-day was
very keen. The difference of one hour
in time between Cape Breton and Ottawa brought the returns in comparatively early, and crowds of members
and others congregated around the
telegraph offices in the House of Commons building to hear the returns.
There was a long and uninteresting
discussion in the Commons on the insolvency question, initiated by Joseph
Martin. It had little attraction for the
House, Conservative and Liberal headquarters having more attraction. Sir
Charles, Tupper's grand majority, notwithstanding the fact that the lists
were against the party, was a source
of great gratification to Conservatives,
and to-night there is considerable celebrating and toasting the health of the

> POLICY OF THE OPPOSITION IS OBSTRUCTION

Until the Long-Talked-of Measure is Brought Down by the Government-Mr. Foster's Proposal to Take Thursdays Caused a Great Kick From the Other side of the House-Mr. Davin Creates Amusement-Joy in the Tupper

Ottawa, Feb. 4.—It seems to be the settled policy of the Opposition not to allow any Government business to be transacted until the Remedial Bill is brought down. Every day shows this statement to be correct. To-day has been absolutely wasted in frivolous talk, Mr. Martin leading off with a windy harangue on the insolvency question. The House has been in session nearly five weeks and beyond the introduction of the budget nothing has been accomplished. Mr. Foster's pro-position, therefore, to take an extra day for the Government's business was not unreasonable, but the Opposition would have none of it and finally, after considerable talk, a compromise was reached.
