

BIG FEATURE OF THE FAIR

is Chiquita, the Living Doll, who is the Most Marvelous Tiny Bit of Humanity

KNOWN TO BE ON EARTH TO-DAY.

The Little Lady's Family History—she is 30 years Old and Weighs 17-1/2 Pounds.

One of the prominent features of the great Industrial Exhibition, which is attracting universal attention, is the living doll Chiquita, who was engaged specially by the association as a drawing card. And Chiquita is a drawing card. She is the most marvelous tiny piece of humanity on earth to-day.

Chiquita (Little One), the living doll, presenting her daily reception, appearing in her stately entourage of refinement and culture. Displaying a seemingly priceless treasure of gorgeous dresses in her exquisite gowns. Exhibiting her own collection of rare gems, jewelry and ornaments, valued at \$20,000. The sweetest little morsel of womanhood. Chiquita's birthplace is in the Yumuri Valley near the city of Matanzas, on the island of Cuba.

Born Dec. 14, 1869, measuring the tiny 9 1/2 inches in length, her chest 3 inches in width, her head 2 1/2 inches in diameter—a small teacup could cover it without touching it—her legs under a inches and her foot 1 1/2 inches long, her hands 1 1/2 inches across and the size of a large grape when doubled as a fist. At birth a silver collar would have made a platform for her mouth, and if she could have walked around in an ordinary glass table, a postage stamp would have covered her entire hand spread out. When born her eyes and ears were marvels of coloring and modeling. Her eyes, black dots full of animation, were as big as peas and bright as dewdrops. Her ears were by an inch long and 3/4 of an inch wide, looking like tiny rowing oars of the most delicate form. Chiquita's reception is given in the leading social functions by the "smart set" throughout the European capitals and principal cities of America. This miniature lady has been followed by the most aristocratic gatherings of the world's nobility and its famous families, noted local societies, churches and schools in a body, as well as by the general masses of every section of life everywhere.

Chiquita's Family History. Her real name is "Kaperidina Cenda," "Chiquita" being the Spanish pet name for the little one, and is, as everyone knows by this time, a Spaniard, or rather a Cuban. She has the complexion of a rose, the eyes, the dusky luxuriant hair, indeed all the racial characteristics of the island southerners.

Chiquita is 30 years old, 26 inches high and weighs about 17 1/2 pounds, and there is nothing in the history of her family to account for her diminutive size. Her father, Don Jose, was a Spaniard, and her mother, Dona Rosa, was a Cuban. She was born in the Yumuri Valley, near the city of Matanzas, on the island of Cuba. Her mother, Dona Rosa, was a Cuban, and her father, Don Jose, was a Spaniard. She was born in the Yumuri Valley, near the city of Matanzas, on the island of Cuba.
