An interesting matter brought before the meeting was in the form of a suggestion from Mrs. T. Robson of liderton, who wants Canada to become a lacemaking country within six months. Now this Karell regimen and all of that reduction business is for people who are definitely and unquestionably fat, not for young women who yearn to resemble those carlcatures they hang clothes on to make the credulous sex feel that there is always something better than what they've got. I do not advise even frankly fat little girls and boys to attempt any reduction regimen save by the direction of their own personal medical attendants. Therefore, I will not send the Karell regimen or other instructions about reduction to any reader who has the earmarks of being a Miss and falls to make known her age, height and weight.
