Be Cool and Comfortable

Every woman knows how uncomfortable a heavy pair of ordinary ready-to-wear Corsets are in the hot weather. Why buy a couple of pairs of the cheap corsets, when you can have a Woolnough tailored-to-order made at the same price?

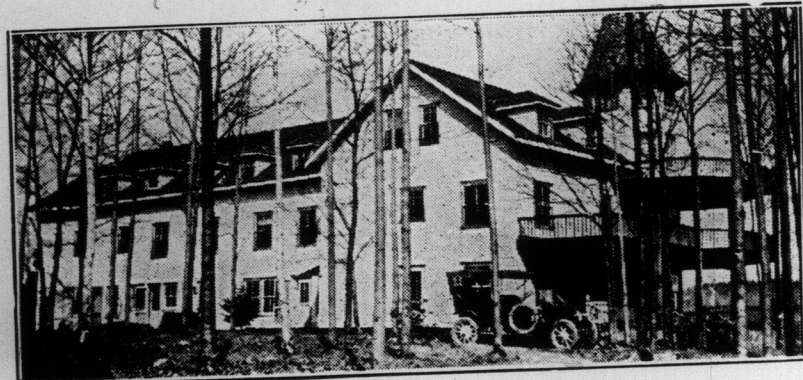

Our expert corsetiers have evolved a new idea in construction whereby the corset is made to lace in front, while the back is made with a view to perfect ventilation, the materials used being French gauze, netting and fine batiste.

The slightly heavier corset material is used at front and sides to ensure their keeping in shape. Call and see these models and leave your order—they are completed quickly.
