This is the Time to Buy
That Overcoat

There are several reasons why it would be better for
you to select your Winter Overcoat this week, instead of
waiting.

First, our lines are now complete, and we have your
individual size in exactly the pattern and shade and
fabric you like best.

Second, while we pride ourselves on the excellent
service we give each customer even on rush days, it is true
that we can now give you more of our time, more personal
attention, and so be of greater assistance in selecting just
exactly the Overcoat you want and need.

Third, if you select your Overcoat now you will get
more service from it—even an extra week or two is worth
while—and you will have it ready to slip on when the
"cold snap" comes along.

Our stock of Winter Overcoats is replete with good
things. Prices run from \$10 to \$25, and all are really
exceptional values.

the life of Browning and a discussion on
his works. Those who either read papers
or gave short addresses were Mrs. Gra-

ADDRESSES Y'S

There was a very large attendance of
young ladies at the meeting held last
night by Mrs. E. G. Waycott, Dominion
"Y" secretary of the W. C. T. U. in the
rooms of the order. She delivered a cap-
able address of an educational nature,
which was much appreciated. She spoke
of the aggressive manner in which the
"Y's" should grasp the temperance cause
and the good work they could do and she
asked all in attendance to help further
the spirit of temperance, which they were
advocating.

MERCURY TUMBLES

DOWN TO TWENTY

Change of Twenty-two De-
grees in a Day—Comparison
With Last Year

The advent of the cold wave sent the
glass at the weather bureau from 42 early
yesterday down to 20 early this morning.
This is somewhat of a variation from this
time last year, when the lowest was 22
and the highest 33. The following figures
are given by D. Hutchinson, director of
the bureau:

Highest yesterday morning, 42; yester-
day afternoon at 2 o'clock, 35; 9 o'clock
last night, 25; 9 o'clock this morning, 22;
earlier this morning, 20.
Last year on the 18th, the lowest was
22, highest, 33; on the 19th, lowest, 22;
highest, 30. On the afternoon of the 18th
last year, snow commenced to fall at 3.30
and by night an inch of snow was on the
ground.

Last night the wind was blowing a mod-
erate gale from the north.

WINTER PORT SEASON
OPENING TOMORROW

Three Million Bushels of
Wheat Reported Already
Billed—Steamer Sailings

The winter port shipping business will
open at this port tomorrow in real earnest
on the arrival of the Allan line steamer
from Liverpool via Halifax. The outlook
for this season is very bright all along the
line both in freight and passenger business.

The C. P. R. Royal mail steamship Em-
press of Britain left Liverpool today for
St. John via Halifax. It is stated that
she has on board a large number of pas-
sengers and a large freight to be landed
here. From Halifax, A. G. Lovett, landing
water of that city with Customs Officers
Caldwell and Hoffman will come to St.
John on the steamer and examine the
baggage of the passengers en route.

The Canadian liner Cassandra will
leave Glasgow tomorrow direct for this
port.
The movement of grain along the C. P. R.
line is reported to be the largest in the
history of the road. Already some
three million bushels are reported billed
to pass through the elevators at this port
and it is expected that more than ten mil-
lion bushels will be exported from here
this season.

The Allan line steamship Grampian will
be the next Allan liner after the Virginian.
She A. Liverpool Thursday.

The first winter port steamer of the
Manchester line, the Manchester Shipper,
is scheduled to leave Manchester tomor-
row for this port.

Some of the Allan line officials have ar-
rived from the head office, Montreal. Mr.
Teakle will again act this season as man-
ager for the Allan line at Wm. Thomson
& Co's offices.

The Donaldsons will have James Mc-
Dougall as their manager here again this
winter, with headquarters at the R. Ref-
ord Company's offices.

Captain Walsh will be here again as
shore captain for the C. P. R. with head
office at West Side.

THE PROJECT OF A NEW
BRIDGE AT FALLS

The recent surveying by C. P. R. en-
gineers at the falls has revived the story
of the company's intention to build a new
bridge, but still no official announcement
is available. The talked of site would be
between the present structures and the
cantilever bridge. That is where the lines
have been marked out.

It is understood that the C. P. R. have
been quietly gathering data with reference
to the matter for the past year and the
present plans aim to have all information
at hand to proceed when the time comes.
There has been much done this year,
the engineers spending weeks at a time.
Part of the work has consisted in taking
soundings for the purpose of getting
locations for piers.

ST. MARY'S BAND IN

Barton; managing committee, Geo. Nel-
son, Jas. Rafferty, W. H. Knowles, H.
W. Barton, and Geo. Lynch; librarian,
R. Doer; bandmaster, Chas. Williams.

The report of the secretary of the band
showed that organization to be in a pros-
perous condition, and to have passed a
very successful year. On the 29th of the
month, the band will hold its sixth an-
niversary celebration, which will be in
the form of an at home.
