RECALLS OLD DAYS OF HORSE RACING

An Incident in the Career of "Speculation" at the Border.

The St. Croix Courier prints the following from its files of Sept. 14, 1893: "Quite an array of sporting and legal talent was in town on Tuesday in the persons of George Carvill, the owner of the trotting horse, Speculation; Daniel Mullin, barrister; J. H. Finch, V. S.; W. H. Simmons, V. S., all of St. John, to consult with the management of the St. Stephen Driving Park as to the appearance of Speculation in the races here last week. Speculation came down to St. Stephen unaccompanied by his owner and driver, George Carvill, having been regularly entered in the races. The horse was in charge of Frank Carvill, brother of the owner. After the time had elapsed for withdrawing the horse, George Carvill telegraphed that he did not want his horse to trot the following day. The penalty for such an act is a fine of \$100, and an expulsion from the National Association. Rather than subject Mr. Carvill to these penalties, and the horse appearing in good condition, the judges of the free-for-all ordered Speculation on the track and named Peter Carroll as driver. The gentleman in charge of the horse made no objection to this, and Speculation trotted three good heats Wednesday afternoon, winning the third. Darkness prevented a finish that night and when the race was called Thursday morning, Speculation was found to be very lame and unable to take part. "After the races were over, Frank Carvill refused to take the horse from the stables at the park and this action was sustained by his brother and Speculation yet remains here. He is still lame, but is improving every day. It was a result of these happenings that Mr. Carvill, with his veterinary and legal friends came to St. Stephen. "He had an interview with some of the officials of the track, and while they expressed regret that Mr. Carvill's horse should have developed lameness, they were unwilling to accept any responsibility in connection with it, as the judges had acted entirely within the rules governing such matters. It is rumored that Mr. Carvill intends to bring an action for the damage he claims to have sustained, but when he learns all the facts he will hardly go that far."

The water would be turned on in the 36-inch concrete main to Spruce Lake tomorrow for its entire length, the Commissioner said. Asked about the reported shortage of water in Lancaster yesterday, he said this might have been due to heavy draught by the pulp mill for a short time.

As Hiram Sees It

"Well," said Mr. Hiram Hornbeam to the Times reporter, "I see they're hev'in' snow an' ice out west, an' some o' the farmers aint a-gonto hev as big crops as they expected. I guess we got somethin' to be thankful fer in old Noo Brunswick, after all. We're hev'in' good crops—an' we jog along fust-rate. A frost aint the worst thing—it's the wet 'in'. An the feller out west gits the worry even if he don't git the frost. He knows it's liable to come an' make all his work go fer nothing—an' he can't git away from it. Now, we don't hev that worry. The weather's always pooty easy on us. We git the seed in, an' we git a crop. It may be short sometimes in some ways—but we aint hard hit when you come to figger it all out. Now this here whis-per o' death stuff that's been in one of them Montreal papers makes me mad clear through. I knowed an old feller that alvays used to say when he heerd anybody hollerin' hard times that he never did a winter yit—an' he hed the right idee—By Hen!"

LIGHTS FAILED FOR TIME.

Lack of permanent switching equipment at the city sub-station was given at the office of the Civic Commission as the reason for the lights being out of commission for about half an hour last evening here and from here to Moncton. Some trouble, not located up to noon, developed on the transmission line between the Lancaster sub-station of the New Brunswick Commission and the city sub-station, and it was necessary to switch over to the other line. This operation would have taken only a couple of minutes, it was said, had the switching equipment been installed but under the circumstances it was necessary to kill the entire line from St. John to Moncton and the across to the other line which took about half an hour.

A. B. C. Electric Washer

This last word in wash-day equipment should find space in every home in St. John. At best, wash-day is a burden. Wringing clothes the old way harks back to pre-historic times. The A. B. C. has so many points of superiority, it is such a peer in its field that space here is wholly inadequate to attempt a satisfactory and just description of the machine.

Come in person. See it work for yourself. See how easy and economical it is to operate. You'll eventually get one. You'll have to inspect it some time. Do it now. No obligation entailed in the least by your call.
