In the House of Lords the Marquis of Salisbury said the next harvest in India promised to be a good one, and the present position of the Government was a very happy one. In the Commons Mr. Sturges moved that the Government should be asked to consider the question of the late dissolution of Parliament. He characterized the act as a coup d'état by which the late Government sought to constitutionally to retain power, and declared that Gladstone had resorted to a stratagem which was unworthy of his friends, insolent to his opponents, and barely honest to the nation.

Mr. Whalley seconded the motion. Mr. Gladstone signified the assent that the dissolution was a very happy one, and that the Government was a very happy one. He declared that the dissolution was a very happy one, and that the Government was a very happy one. He declared that the dissolution was a very happy one, and that the Government was a very happy one.

The action was negatived without a division, and much excitement was manifested during and at the close of the debate.

He was such a favourite with the men that in a heavy engagement their fire was directed for a minute to all of his undignified retreat from one of his desperate forays. He lives to enjoy his return and his honours, and in this moment is one of the greatest joys of Belgravia.

VOTER'S BALLOT.—The bill before Parliament providing for vote by ballot, (a Government measure) will become law. It works well in the Province, but bribery and corruption are not prevented by it; there are too many ways of evading the law, that any candidate with plenty of funds can indirectly secure his election even though he may be a very good man. In fact, whether the vote is given by ballot, or by ballot, we are inclined to admit, that the system is a very good one, and is a very good suggestion.

stockholders average about 8 per cent. This profit is not so enormous as it appears to be in Illinois, where money really commands 8 or 10 per cent per annum.

SEEKING EMPLOYMENT.—There is just now, quite an influx of deservingly young men from abroad seeking various kinds of employment in our city. We have that every one to whom applications may be made, will make personal efforts to obtain information and employment for such persons, remembering that by so doing they thus contribute to the population and wealth of the city.
