Affairs—Conditions Pretty Bad, But Nobody Seems to we have

In order to arouse wider interest in civic affairs the Star is commencing a canvass of a number of prominent citizens to ascertain their ideas on the

Mr. J. N. Harvey, in reply to the question of the Star, said:

"I do not know how the interest of the citizens can be aroused unless by letting things drift until there is such a smash-up that reform will be forced on their attention. I do not think most people realize how bad the situation really is. Do you know that within the last six years taxation has increased thirty-nine per cent., while the value of assessable property has increased only twelve per cent? The improvements on the wharf facilities at West St. John cannot be blamed for this because prior to the six year period referred to the interest on the entire West Side expenditure came directly upon the taxpayers, whereas now wharfage charges as I understand, will more than meet the interest and sinking fund on any expenditure the city has made in these six years.

"We have a committee in the Board of the Star, said:

"If you have a plate that no dentist has been able to make fit, why not try us; we have satisfied thousands and why not you?

Our teeth are so natural in size, shape, color and the expression they afford to the features as to defy detections EVEN BY A DENTIST unless closely examined.

Our new attachment holds them as solid almost as though they were riveted in the mouth.

The other tramp was John Walsh, 28 years of age who claims Hallfax as this home. He said that he had beaten his way from Hallfax and for the past two nights had found lodgings in an empty box car in the I. C. R. yard. The magistrate remarked that St. John seemed to be a dumping place for tramps who appear to think that the residents of the winterport are easy. He told the prisoner that he should be ashamed of himself and advised him to get out of town and go to Halifax where he came from as St. John didn't want him.
