## IMPROVEMENTS AT THE UNION STATION

R. S. Richardson, acting superintendent, St. John and Halifax division, I. C. R., with headquarters at Truro, arrived in the city yesterday morning in his private car, attached to train number eleven and spent yesterday inspecting local conditions. Mr. Richardson was welcomed by the local officials of the I. C. R. and spent the major part of his stay in the city about Union Depot. Accompanying the acting superintendent were W. A. Cowan, resident engineer, and A. Seaman, bridge and building master. The party left the city last evening for Moncton on the 6:30 train, and from there they will journey to Summerside.

Speaking with a representative of The Standard at the depot last evening Mr. Richardson said that his visit to the city had no special importance but that he was merely on a tour of inspection with an eye open for improvement work. As the result of his visit to the city yesterday the station and train shed will be put in trim for the summer and a general house cleaning plan will be carried on. Both the lobby and train shed will be brushed up and the ceilings will be freshly painted.

## STIFF, ENLARGED JOINTS LIMBER UP! EVERY TRACE OF RHEUMATISM GOES!

Even Chronic Bedridden Cases are Quickly Cured.  
Rub On Magic "Nerviline"

Nothing on earth can beat good old "Nerviline" when it comes to curing rheumatism.

The blessed relief you get from Nerviline comes mighty quick, and you don't have to wait a month for some sign of improvement.

You see Nerviline is a direct application; it is rubbed into the sore joints, thoroughly rubbed over the twitching muscles that perhaps for years has kept you on the pump. In this way you get to the real source of the trouble. After you have used Nerviline just once you'll say it's amazing, a marvel, a perfect wonder of efficacy.

The lumber drives on the Upper St. John River and tributaries are very well advanced, according to reports received in the city last evening. Definite word comes from E. B. McLaughlin of the J. D. McLaughlin Co. Ltd., who in addition to the company's own drive have the contract for the corporation drive, that the drives were now in safe waters. Three Brooks and Trout Brook have been brought out safely, while the company's drive on the Tobique, as well as the corporation drive, are very well advanced. The company are bringing out about 25,000,000 feet for their own manufacture, and Mr. McLaughlin informed The Standard that their mills at Perth, Red Rapids and Three Brooks would start operations the early part of next week. A busy season is anticipated by the lumbermen.

Empress Lost Deckload  
New York, May 12.—Ard schr Empress, Bridgewater, N. S. (reports on May 6th in the Bay of Fundy, during a northwest gale, lost about nine thousand feet of lumber from the deck load.)

Just think of it, five times stronger and more penetrating than any other known liniment. Soothing, healing, full of pain-destroying power, and yet it will never burn, blister or destroy the tender skin of even a child.

You've never yet tried anything half so good as Nerviline for any sort of pain. It does cure rheumatism, but that's not all. Just test it out for lame back or lumbago. One, what a right line cure it is for a bad cold, for chest tightness even for neuralgia headache it is simply the finest ever. For the home, for the hundred and one little ailments that constantly arise, whether earache, toothache, stiff neck, or some other muscular pain—Nerviline will always make you glad you've used it, and because it will cure you, keep handy on the shelf at 50c. family size bottle; it keeps the doctor's bill small; trial size, 50c; all dealers, or the Catarthone Co., Kingston, Canada.

## WAKES FROM VANCOUVER TO ST. JOHN

W. H. Adams, in City, after 4000 mile jaunt—will receive \$50,000.

Completing a tramp of about 4,000 miles W. H. Adams of Vancouver, arrived in the city yesterday and registered at the Victoria. He walked every mile of the way, and wins a stake of \$50,000, according to his story told a reporter last evening. He is sixty-six years of age, but tough as hickory and arrived here, as he says, in the pink of health. He looks very hale and hearty for his age. A man of thirty-five started out on the trip with him, but only got as far as Winnipeg where he gave out and turned back to his home.

Mr. Adams had left August 31st to complete his tramp across continent, and therefore wins by good margin. He was one year and twelve days on the trip, having left Vancouver on May 1st of last year. It is about 5,500 miles by rail from Vancouver to St. John, but Mr. Adams says that by the route he followed which was mapped out before he left, the distance is 4,000 miles.

Followed by Automobile

On the trip he was provided with a new car for his expenses and has been followed across the continent by an automobile of one of the men who put up the stake of \$50,000.

Mr. Adams was welcomed by the local officials of the I. C. R. and spent the major part of his stay in the city about Union Depot. Accompanying the acting superintendent were W. A. Cowan, resident engineer, and A. Seaman, bridge and building master. The party left the city last evening for Moncton on the 6:30 train, and from there they will journey to Summerside.

Adams is a timber ranger—one of the best in the redwoods of British Columbia. The Vancouver Athletic Association, which includes many millionaires, and is composed almost exclusively of wealthy men, sent for him about a year ago and made a singular offer. He and the younger man, whose name is James Jimson, were to start from Vancouver on May 31, 1913, and must arrive in St. John not later than August 31, 1914, walking every step of the way—approximately 3,500 miles. The one reaching the goal first was to receive \$50,000, while the other was to receive \$25,000. The winner was to receive a bit of change, even for the exertion of tramping across the continent. Both, of course, were expert pedestrians and the contest of the young against the old.

He followed the Canadian Pacific railroad, he said, from Vancouver to Winnipeg, thence skirting the shores of Lake Superior and on to Montreal. Then he turned sharply south, following the Quebec Central railway to Quebec, and from Quebec, going to Sherbrooke. Crossing the boundary to Greenville, Me., he followed the line of the E. & A. railroad for Bangor and from there to St. Stephen, then up to Fredericton Junction, and into St. John.

## PRESENT ADDRESS TO JUDGE CROCKET

Congratulated by Barristers of Charlotte County on occasion of first official visit since elevated to Bench.

Special to The Standard  
St. Andrews, May 12.—At the May sitting of the Charlotte County Circuit Court, which will meet this afternoon Mr. Justice Crockett was presented with an address by the barristers of this county. In the absence of a barrister the presentation was made by Mr. George H. L. Cockburn, "acting clerk." His Honor made a very pleasing reply expressing his appreciation and thanks in the course of which he congratulated the people of the county upon the absence of crime and mentioned the fact that it was not an uncommon thing for a Judge to find the white gloves on the bench in this county.

The address was as follows:  
To His Honor Mr. Justice Crockett:  
May I bear your Honor—The members of the Bar, living and practicing in Charlotte County, desire to extend to you a most cordial and hearty welcome upon the occasion of your first official and judicial visit to this county since your elevation to the Supreme Court Bench.

In one way, it is a matter of regret that you find a blank calendar, and nothing to command your judicial attention at this sitting of the Charlotte County Circuit Court, as we cannot enjoy your distinguished presence among us for any length of time, but we feel sure your Honor will rejoice to find that evidence of peace, morality and good will, for the time being, at least, among the people of our county. We desire to assure your Honor of the unqualified approval of the action of our government in selecting you for the exalted and responsible position to which you have been appointed, and from our knowledge of your ability, your industry and your unflinching regard for the principles of

## REVALUATION OF PROPERTY ORDERED IN ST. JOHN COUNTY

Board appointed to undertake work—Many matters of importance before Council—Bills ordered paid—Indemnity for Councilors.

Arrangements were completed for a re-valuation of the property in the county, the site of the tuberculosis hospital was approved and other matters connected with county affairs were dealt with at the spring meeting of the Municipal Council yesterday afternoon.

Councillors Russell and McLellan were the only city representatives present. The others in attendance were Councillors Smith, Howard, Black, Shillington, Stevens, Carson, Thompson, Bryant, Golding and Dean. The minutes of the last meeting were read and approved.

The certificates of J. H. Frink, R. W. Wignore, J. V. Russell, P. L. Potts and H. B. McLellan as members of the council were read. The report of the finance committee was then taken up. The bill that had been approved by the finance committee was ordered paid. Dr. Roberts, who was coroner, conducted the inquiry into the cause of the Grand Union Hotel fire was granted \$48 for extra services in connection with the work of the investigation.

The warden explained that he had considered the matter of vital importance and believed that the best interest of the community would be served by having a rigid investigation and he had given the coroner instructions to go ahead with the work. The bill of Dr. Gilmour in connection with viewing two bodies was ordered paid.

Dr. Roberts was acting sheriff for a period of ten days and it was ordered that he be paid at the same rate as the late sheriff at the rate of \$25.00 per day.

A bill of \$70.50 for surveying a site for the proposed tuberculosis hospital was ordered paid.

Discount on Taxes.  
It was decided to allow 5 per cent discount on all taxes paid before August 5, 1914.

The Board of Health asked for a grant of \$500 for the inspection of milk production in the county.

This was approved. Councillors Howard and Dean objected to the county paying the whole amount, but on the matter being explained the resolution was adopted.

The warden and secretary were authorized to secure steel filing cabinets for county papers at a cost not to exceed \$300.

The site for the St. John Tuberculosis Hospital was selected on the Municipal Home property was approved.

## CHILDREN'S AID SOCIETY GETS GRANT

Secures \$1500 from County Council with which to carry on work—Speak in favor.

The warden of the county and the secretary are to find, if possible, the sum of \$1500 which is to be given as a grant to the Children's Aid Society for carrying on its work during the year. If the amount cannot be taken from any of the present appropriations the matter will be considered again at the next meeting.

A. M. Belding, president of the Children's Aid Society, and Rev. R. A. Armstrong, secretary, were present at the meeting of the county council yesterday afternoon. Mr. Belding said that the society had been organized for the purpose of caring for neglected and dependent children in the province and that it was now in a position to take care of such children in a small way and learn their needs by experience in the work.

In Alberta, Mr. Belding said, the whole care of neglected and dependent children is assumed by the province and municipalities, and it is not necessary to appeal to the people for subscriptions. That is the ideal condition. In Manitoba there is a Children's Aid Society which receives \$1,000 from the province, \$1,200 from Winnipeg and over a thousand in grants from other municipalities, but it also appeals to the citizens and expends \$5,000 to \$10,000 per year. It has assets valued at more than \$15,000.

In Toronto the city granted in 1911 the sum of \$4,000. Last year the total expenditure from all sources was about \$20,000. Hamilton in 1912 presented its Children's Aid Society with a shelter for children. In Ottawa there is a juvenile court with judge, detention home and three probation officers, but there is no Children's Aid Society to which the city grants \$200 and which spends annually \$1,500 or more. The little city of Guelph grants \$700.

Mr. Belding gave other instances and expressed the view that as there is no shelter in St. John a grant of \$1,500 would be considered large. He had inquired if the Municipal Home could take care of some children for the society, but was told they had no room for children there now. If this were true, surely most of those children should be made wards of the Children's Aid Society and sent to foster homes in the country, and this would not only benefit them but save the municipality several thousands of dollars per year. The speaker stated that much had been said about getting 450 immigrants in April, but the province surely had more to gain by converting its own neglected children into good citizens.

Rev. Mr. Armstrong.  
Rev. Mr. Armstrong said that the council had already given its approval to the Children's Protective Act, and it now only remained to have its provisions carried out. He knew that the council had the approval of the council and that they recognized the need of conserving the childhood of the city and county. He felt very strongly that the expense of caring for these children should be met out of public funds, and that it should not be necessary to go from door to door asking for assistance.

One of the things that had unfavorably impressed him in St. John was the large number of worthy causes which had to depend so largely upon private effort and subscriptions. Surely the protection of the children, than which there was no more worthy cause, should be assumed by the public, through its administrative bodies and without the necessity of appeals to individual citizens. The society did not set out with an ambitious programme, but was willing to feel its way, and the grant asked was therefore not large. He sincerely hoped it would be given.

In reply to questions by the Warden and Coun. Russell, Mr. Belding said the society desired to secure an agent and open an office, and they could not say offhand just how the \$1,500 would be expended or how much more they would need to raise by subscription or otherwise the first year.

The ideal plan would be to have a man and wife, the former to act as agent and the latter as matron of the shelter, but this and the cost of keeping the children temporarily placed in the shelter would involve much more than \$1,500. Given the grant they would do their best. There were five officers, fifteen trustees and fifteen gentlemen on the board, thoroughly representative and worthy of the full confidence of the council.
