FOR WAR-TIME DISHES

Four Good Rules For Saving  
Meats and White Flour—  
Contributed By a Member  
of the Housewives' League,  
Mrs. Alfred Morrissey.

Vegetable Roast—Meat substitute.  
1 cup cold boiled beans put through  
the chopper; 1 cup onions, chopped  
very fine; 1 cup bread crumbs; 3 cup  
mashed potatoes; 1-4 cup butter melt-  
ed; 1 egg; sage, salt and pepper.  
Mix all together, press in buttered  
deep pan and bake.

Emma's Ginger-bread.  
1 cup molasses with a little brown  
sugar in it; 1 egg; 2-3 cup sour milk;  
1 teaspoon ginger; 1-2 cup cinnamon;  
1-2 oz. ground cloves; 1-2 teaspoon  
soda; flour to make soft batter. If  
sour cream is used instead of sour  
milk no butter is needed.

Steamed Brown Bread (War Rule).  
1 cup graham flour; 1 cup corn  
meal; 1 cup rye flour; 1-2 cup molas-  
ses (or more); 3 cups sour milk or  
buttermilk; 2 teaspoons soda. Steam  
three hours. In pre-war time the rye  
flour was white.

Creamed Lobster.  
1 tablespoonful of butter melted and  
then thickened with two tablespoon-  
fuls of sifted flour, cold milk then add  
two teaspoons worcester sauce. Break  
up the cooked lobster with fork, stir  
into the sauce, cook ten minutes and  
serve very hot.

N. B. AUXILIARY  
MONTHLY MEETING

Reports Submitted Showing  
Good Work Accomplished  
for Maritime School for the  
Blind.

The reports submitted at the monthly  
meeting of the New Brunswick Aux-  
iliary of the Maritime School for the  
Blind, held last week, Mrs. E. Atherton  
Smith in the chair, showed that  
since the organization of the auxiliary  
in January last much good work had  
been accomplished.

The meeting was attended by repre-  
sentatives of every denomination in  
the city. It was reported that since  
the organization of the auxiliary many  
blind children had been discovered and  
sent to the school at Halifax and an  
effort was being made to register the  
adult blind with a view to starting com-  
munity work a little later among them.

The report from the Fredericton  
branch organized by Mrs. Smith in  
April last showed that over \$1,000 had  
been collected by them. The report  
from Moncton where the work had  
been undertaken by the Women's Pa-  
triotic League was most encouraging,  
the children had raised over \$200 and  
the ladies were just entering upon a  
campaign.

The drivers all wear the Red Cross  
badge on their arm and on their cap;  
several of the girls have a very smart  
uniform.

The driving is entirely under the  
Army Medical Corps. The Driving  
Committee rings up each hospital at  
5 p. m., and asks at what hour and  
how many cars are required for the  
next day, and they do their best to  
supply them.

The men are often taken to tea  
when out, and seem to enjoy their  
drives very much. The Army Medical  
Corps are using our cars now to re-  
move men from different hospitals, and  
to take them to the Technical Schools,  
etc.

Our Visiting Committee for visiting  
returned men in hospital has been  
very successful. One visitor can take  
care of twenty men, write letters for  
them and give various comforts. We  
supply them with smokes, games,  
socks, heavy walking sticks, gloves,  
soap, shaving soap, razors, writing ma-  
terials, stamps and many other things.  
We have even given an axe and bed  
down pillows to make a dying man  
comfortable. We always give fruit,  
sweets and any necessary delicacy, for  
which we have a separate fund, and  
we try to help the men in various  
ways.

CELERY TRENCHES.

Now that the potatoes are safely in  
the ground the next move to be consid-  
ered is the preparation of the celery  
trenches. A good many amateur gar-  
deners are at this time, thinking  
it too troublesome to handle but those  
who go in for it usually feel that the  
labour has been well repaid before the  
season is out. To prepare the trenches,  
set a line the length desired. Mark  
along this line with a spade and move  
the line 15 inches. Mark this also.  
Dig out the space between the lines to  
a depth of nine inches, piling the soil  
on either side of the trench. If more  
than one row is required, the space  
between should be not less than 3  
feet. This space can be utilized for  
the growing of lettuce, cauliflower,  
radishes or other early crops that it  
will be possible to clear off before the  
celery is ready for earthing. Put some  
manure in the trenches and dig in.  
The celery trenches should be left for  
some days before the plants are put  
in. The day before planting they should  
be soaked with water. A very im-  
portant factor in the successful culture  
of this popular vegetable is a plen-  
tiful supply of water. In its wild state  
the celery is a bog plant and it is,  
therefore, naturally a water lover.

SALVATION LASSIES UNDER FIRE

Salvation Army girls were in the  
battle of Seicheprey, under fire, in-  
credibly about administering to the  
needs of the American soldiers resist-  
ing the terrific German attack. Up  
to that time probably many Americans  
did not even know that the Salvation  
Army was at the front, though they  
ought to have known it; the Salva-  
tion Army is always at the front,  
whether the battlefield is one of war  
or peace. It does not fear pain, dis-  
ease, or death. It does not advertise,  
and there is no reward to be got for  
helping it, except the reward that  
comes from conscience.—New York  
Times.
