

### HARDING SPENDS WHOLE DAY UPON MONEY QUESTION

Entire Problem of European Credits is Before the Administration.

### PLANS TO MEET RAILWAY LEADERS

Agricultural Issues to be Given Careful Study at Once.

Washington, April 1.—Financial and industrial conditions existing in the United States are being discussed at length by President Harding and his cabinet in today's regular meeting. It was indicated that no definite conclusions resulted and that the railroad question among others still awaited a solution which will be set out only when the administration has gathered more complete information.

### European Loans

The discussion of European loans outstanding as a result of the war was in connection with the approach of the time for an interest payment. It was understood that the president and his advisors talked over the feasibility of converting the loans into some sort of long term negotiable bonds, but that a decision was not reached.

In its consideration of the railroad problem the cabinet had before it decided information given the president yesterday by Chairman Clark of the interstate commerce commission, and heard, in addition to a mass of other data which has been collected by administration officials.

### To Continue Study

Although the discussion developed that the administration was working toward a solution, it was made known afterwards that further steps would be collected before a rehabilitation policy was adopted.

The point was made and other contracts entered into when the railroad was under government control, still in force as a result of a telegram received today by President Harding from the railway employer department of the American Federation of Labor, which proposed that employers and employees be called in to a general conference on the subject of railway reorganization.

### To Meet Railways

The president is not reported to the telegram tonight, although there were indications that he has no plan for a general conference in the near future. Officials close to the executive expect him rather to work out his policy through individual consultation with the managers, stockholders and employees.

In the discussion of the question of continuing war-time agreements, it was brought out that the issue involved the right of the government to use the roads and now as many wage disagreements.

### In Its General Review

In its general review of business conditions the cabinet took particular notice of agricultural productivity.

### French Visitor

Conferences were continued today between Rene Viviani, ex-vice president of the French government, and members of the Harding administration in an effort to obtain the moral support of the United States for France in her reconstruction.

Following his conference last night with prominent Senators and officials of the former French government, Viviani conferred with Senator Lodge, chairman of the Foreign Relations Committee, at his home today, as well as with other government representatives, particularly in connection with the problem France is confronting in her relations with Germany.

### Not Talking Loans

It was said authoritatively today that Mr. Viviani's visit was for the purpose of discussing the financial affairs of the United States and France. On the other hand, it was said that in addition to taking up the question of moral support for France in her reconstruction, it has in view as a corollary consideration of the possible termination by the United States of the war with Germany by a separate peace resolution. Questions of industrial reconstruction are also said to be under discussion, involving possibly a revivification of the United States to send an agricultural mission to France.

### What of Politics?

Although republican senators who have participated in the discussions today they doubted whether Mr. Viviani's visit would affect the existing policies of the United States and those who favor a separate peace with Germany let it be known that they would still press such action up to Congress, the former premier is understood to have received assurances that the new administration does not intend to assume to hold Germany accountable for the obligations incurred by her to the Allied and Associated Powers in the war.

### Whatever form the conclusion

Whatever form the conclusion of the discussions between the United States and Germany may take, he is said to have been informed, it will be so framed as not to weaken in any way the morale of France or to give aid or comfort to Germany.

Mr. Viviani is also understood to have received the impression that the moral sanction of America will not be looking for any programme of the Allies looking to the exclusion from Germany of adequate and just reparations.

### Cutting Soap

French officials say they have found it impossible to locate the army of 12,000 soldiers reported to be marching on Budapest, if such an army, as the French say, its movements were amazingly well concealed.

### Arranging For Military Camps

New Brunswick Hussars and Dragoons Authorized to Take in Camp This Summer

### Charged With Being Free Traders in All That Does Not Touch Themselves.

The 8th Princeps Louise, New Brunswick Hussars and the New Brunswick Dragoons have been notified by District Headquarters that they are now authorized to train in Camp this Summer up to 65 per cent. of their establishment.

The 8th Hussars will in all probability go to Sussex Camp and there in some talk of the New Brunswick Dragoons going to Fredericton. This would be a more central point for this unit as the squadron from the North Shore can get down to Fredericton more easily.

The services of the permanent force instructional personnel, Lieut. J. Wood, Royal Canadian Dragoons, Toronto, and Sgt. Major A. M. Doyle, R. C. D., from St. John, N. B., are being retained until after the Summer Camps so as to complete the work they have started and which has been much neglected after by all concerned.

Classes for the 8th Hussars are being started at Sussex and Moulton, and for the New Brunswick Dragoons at Stanley, Kewick and Campbellton. The both units hope, with the work so far accomplished, to turn out this year and surpass all former years at Camp.

### UNITED STATES TO HELP MAKE GERMANY PAY

Official Statement Declares Berlin Must Accept Responsibility for the War.

AMERICA NO FRIEND OF THE DEFEATED

Denial Made That Any Attempt to Ameliorate Terms of Allies Will be Made.

Washington, April 1.—Rumors via London of conversations between Germany and the United States as to reparations payments brought an official statement from the State Department today that the attitude of the United States toward Germany is that she must accept her responsibility for the war and pay her obligations to the fullest extent she is able.

No Assuring Costs. The London advice from Berlin says it was understood Germany had accepted certain proposals to the United States regarding reparations payments, including a suggestion that she assume liability for part of the debts of the Allied powers to the United States. There was no confirmation of the receipt of any such proposal, although Commissioner Drexel at Berlin has reported on conversations with German officials in which the reparations question came up. The nature of these conversations was not disclosed.

Must Pay Her Bills. In connection with the subject, however, occasion was taken to make perfectly clear the general attitude of the new administration toward all matters involved in the controversy between the Allied powers and Germany, which is the subject of the additional German territory. The policy of the United States Government was summed up in the terse statement that Germany must accept full responsibility for the war and pay her liabilities to the full extent of her ability.

What Germany Wants. Berlin, April 1.—The suggestion that the United States become the creditor of Germany by accepting German bonds in lieu of the debts of the United States to Germany, is popular with those who have proposed it several times before the recent overtures. It is regarded as unlikely, however, in Berlin official circles, that the United States will seriously consider such a proposition until the Entente announces positively the total reparations claims, it will attempt to collect from Germany. This should be done May 1, according to the Versailles treaty.

After this sum is announced, the financial experts will be able to judge Germany's ability to pay.

Vienna, April 1.—Austria has granted a safe-conduct to former Emperor Charles to go to Switzerland, not only in principle but in fact. The British, French and Italian minister called upon Chancellor Mayer this morning and presented the protest of the Entente powers against a Hapsburg restoration.

Think Effect Blocked. Paris, April 1.—The attempted coup d'etat of former Emperor Charles of Austria-Hungary has been a complete failure, according to the impression prevailing in French official circles this evening. While not yet officially determined the officials believe that the effort of Charles to regain the throne of Hungary has been economically blocked. This view is based on despatches from diplomatic sources in Hungary, and the opinion is that the former ruler will soon be escorted through Austria and back to his Baden retreat.

Cannot Find Army. French officials say they have found it impossible to locate the army of 12,000 soldiers reported to be marching on Budapest, if such an army, as the French say, its movements were amazingly well concealed.

### FARMERS RALLY IN DEFENCE OF WHEAT CONTROL

Charged With Being Free Traders in All That Does Not Touch Themselves.

### URGE CLAIMS OF U. S. TRADE AGENTS

Liberal Charges That Flour is Selling at Too High a Price at Present.

(Continued from Page 1.) During the discussion on general trade conditions, H. B. Murphy, North West, declared the cause was opportunity to launch an aggressive drive for United States trade. Americans were exploiting Canadian trade and at the same time making Canadian pay for the benefit of their own country. But for services in that country. But for the appointment of a large and efficient force of Canadian trade agents in the United States. Sir George Foster agreed that the United States system of charging \$2.50 on each invoice passed more than paid the entire cost of the American consular and trade services in that country. But for Canadian trade agents in the United States would involve abolition of a similar system in other countries. However, the question would be considered.

Against Trade Agents. Hon. W. S. Fielding did not see the need of trade agents in the United States, owing to the proximity of the border. Agents were needed only in countries where communication facilities are lacking.

Mr. Murphy interrupted that the American trade agents furnished the United States firms with information which the latter save to the salesman when they despatched here, it was the case. He believed American manufacturers gained their information through the medium of newspapers from day to day.

Iron Bar Could Have Caused Death

Second Examination of Capt. Perry's Body Confirms Theory of Yarmouth Doctors

Yarmouth, N. S., April 1.—Dr. W. D. Perry, medical examiner of Halifax, this afternoon examined the body of the late Captain George H. Perry, which had been ordered exhumed by the attorney general's department with the hope of throwing some further light on the murder of the aged mariner.

During the examination Doctors A. Campbell and C. K. Fuller, who performed the autopsy, following the crime, were also present. The medical examiner confirmed the findings of the Yarmouth physicians and expressed the opinion that the wounds could have been inflicted with an instrument such as the iron bar exhibited at the inquest.

"DEAD" SOLDIER RETURNS.

Mahoney City, Pa., April 1.—Mourning as dead by his relatives for more than four years, Garrett English arrived at his home in Coles today to visit his sister, Mrs. Nicholas Burke. He is hale and hearty, although officially reported killed in action with a Canadian army at Verdun in the fall of 1917.

His memory is commemorated in Mahoney City on the Red Cross honor roll, a bronze tablet. He viewed the bronze tablet this morning.

ALLIES REFUSE MORE TALKS WITH GERMANS

Paris, April 1.—Further discussion by the Allies of the commission of decisions on the manufacture of arms and munitions by Germany has been refused by the council of ambassadors in a letter signed by the British, French and Italian president of the council. The letter was sent to Germany Tuesday. It said the matter had been decided by the supreme council January 29.

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an itching corn, instantly that corn disappears. You'll find "Freezone" is the only corn cure that does not burn, blister, or irritate.

Funeral Saturday from her late residence, intersecting the Baptist cemetery, Cambridge, N. B.

### HIGH WAIST, SLIM SKIRT, SMALL BODICE

Signs of Directoire Period Now Seen in New York.

New York, after reviewing various Spring fashion promulgates and preparing for others, has seen and approved of the Directoire as expressed by the couturiers of the day. It has also seen and approved of other fashions that everyone is to adopt the Directoire even in its broadest interpretation.

In the minds of many people there is considerable confusion as to the difference between the Directoire and the Second Empire, and few seem to know that the dominant features of the former period include the high waist, slim skirt and small bodice for evening wear, while the day-time frock is known for its high collar and long sleeves. Turning to the days of the Second Empire, the particular points brought out include the hooped skirt, low neck, normal waistline and wide brimmed, low-crowned hats.

Many Styles and Types. Just at present many styles and fabrics are worn. The long skirt is at most as much seen as the short one, but the hip-distended type, the short sleeve and the long skirt length of the Directoire period, the tight Spanish bodice and the fitted coat of the Second Empire. In materials we may choose between tulle and the various crepes; we may have our hems perfectly straight or irregular; we may choose our own sleeve lengths, although it is thought that the elbow length will be little seen. It promises to be a year in which silk is queen, of line frocks for our delectation this summer, and that Southern resorts are stressing the importance of lingerie frocks, as well as gingham and cotton voiles—all of which goes to show that one material has as good a chance for success as another.

About color, there seems to be the same comforting blues. Blue is given as one of the strongest shades, and the fact that Mrs. Harding has chosen it as her favorite color.

WILL VISIT ENGLAND

Miss Land of Montreal accompanied by her mother and father is in the city for a visit to England. Miss Land, who has been spending the winter in Portland, Maine, was in St. John last June attending the sessions of the National Council of Women.

CITY HALL PAY DAY.

The fortnightly payment of wages to city employees was made this morning at city hall as follows: Public works, \$5,037; water and sewerage, \$2,321.93; harbor, \$1,555.90; ferry, \$684.35; total \$9,549.98.

Scott's Emulsion

### To Exhibit Work of Vocational School

Public Will Have Opportunity to Learn What Students Have Accomplished.

The decision to hold an exhibition of the work of students of the Vocational Schools was reached at a meeting of the Committee held yesterday afternoon. Dr. A. F. Emery presiding. The date will be April 16th, from 3 to 5 in the afternoon, 8 to 10 in the evening. The classes will close about that date.

The purpose of the exhibition will be to place before the public work done by students under technical instruction. Different phases of the work will be on exhibition, and addresses will be made during the afternoon and evening.

It was stated at yesterday's meeting that teachers are giving outside instruction to those who felt they would rather pay for such teaching, and that several classes have been formed along the lines begun by the Vocational Schools.

### First Division In Nova Scotia House

By Vote of 19 to 11 Conservative Supply Resolution is Rejected.

Halifax, N. S., April 1.—Mr. H. W. Corning, Conservative member for Yarmouth, moved a resolution in the House of Assembly today to the effect that the Government should pass "an advanced supply bill" to provide for the municipalities to be co-operated with the municipalities for that purpose. R. H. Smith, (Conservative) and G. R. Allen, (Liberal) spoke in support of the motion.

Hon. E. H. Armstrong, (acting leader) and Hon. H. H. Wickwire, Minister of Highways, replied. The motion was then put to a vote, the first division of the session, with a straight party vote of eleven for and sixteen against. Mr. Richardson, (Labor member, Cape Breton) voting with the Government. The chief criticism of the resolution on the part of the Government members was its unconstitutionality and its irregular form. Both Mr. Armstrong and Mr. Wickwire said they would gladly urge the acceptance of a resolution embodying the principle if the member for Yarmouth would withdraw the present one and have it properly worded, but Mr. Corning declined to do so.

### LABOR UNIONS AND CATHOLICS TO HAVE FIGHT

International Unions Will Lock Horns With National Catholic Body.

NO RELIGIOUS ISSUE IN OLD BODIES

Tom Moore and T. M. Draper Declare Question Will be Fought Out

Ottawa, April 1.—That a bitter fight is coming between the international labor union in this country and the newly formed National Catholic Workers' Union, whose membership is restricted to Roman Catholics, was indicated by vigorous speeches delivered here tonight by Tom Moore, president of the Trades and Labor Congress of Canada and Secretary T. M. Draper. The addresses were made at a meeting of the local United Trades and Labor Association.

Mr. Moore said the National Catholic Union was nothing more or less than an attempt to disrupt the International Trades Union movement, by dividing its members along religious lines.

No Religious Issue. The question of religion has never been tolerated in the trades union movement, but at the same time the religious convictions of its members had always been respected. He gave due notice, however, that if certain sections of the Catholic church tried to disrupt the legitimate organized labor movement, the latter would be compelled to defend itself, and would do so even if the fight had to be carried into the Province of Quebec, and the waging of it should hurt the susceptibilities of those at the head of the Catholic movement.

BUILDING WORK STOPS.

Rochester, N. Y., April 1.—Complete stop of building operations in the city resulted this morning through the failure of contractor members of the builders exchange and union workers affiliated with the building trades council to come to terms on the 15 per cent wage reduction proposed in the 1921 agreement. It is estimated 3,000 union men are affected.
