A Late Season.

Frequent rains and cool weather are holding back farm operations, and seeding this year will be later than usual. Prospects are encouraging, nevertheless. Pastures are making a good start despite the lack of warmth; frequent rains are giving a needed addition to the limited amount of moisture stored in the soil last fall and winter, and the holding back of blossom buds in orchards is reducing the danger of damage to the fruit crop by frost. The probabilities are, too, that when growth fairly does start it will go on with a rush, and better a fairly late spring with no setback than seeding in the first week of April and sharp frosts at the end of the month. Some of the best harvests gathered in the Province have followed a fairly late seeding.

Any Gentleman Can.

Any gentleman can swear, get drunk, tell stories that would lower him in the estimation of his mother and wife, and go where he would be ashamed to be seen by the boy he loves—but he won't. Any gentleman can drive a sharp bargain; he can take advantage of the other man's necessities; he can drive him into a corner; he can rub his hands gleefully and say to himself as he sees him writhe, "Business is business"—but he won't. Any gentleman can kick a dog, abuse a horse, ill-treat a child, laugh at another man's mistakes and devilishly gloat over another man's failures—but he won't.

Any gentleman can grow cynical, sour and pessimistic; he can feel that everybody is against him and he against the world; he can scoff at all good things; ridicule religion and damn your judgment—but he won't.

Any gentleman can say harsh, sarcastic and cruel things; he can crush flowers and fertilize weeds; he can stab you with words—but he won't.

Any gentleman can make this old world, this topsy turvy, this greatly misunderstood world, a far better place because he chanced to pass along this way—and he will!

Since Vodka Has Stopped.

After fourteen months without vodka, Russia reports rather remarkable conditions, as follows:

Crime (all kinds) has decreased 62 per cent.

Absenteeism in factories has fallen 50 per cent.

Suicide-rate has dropped enormously.

Hospitals formerly overcrowded are not filled.

Efficiency in factories increased 10 to 15 per cent.

Practically every inhabitant is at work.

Savings deposits have increased 3 per cent.

Fire damage has fallen off 38 per cent.

Wages in some districts raised 500 per cent. (This applies to peasants working as day laborers).

People are eating better and costlier food.

Better clothing is worn by the poorer classes.

Agricultural implement sales 60 per cent. larger.

Imprisonment decreased 72 per cent.

As the Ottawa Journal says, probabilities look good for the results of prohibition in Ontario.

Perhaps Mr. Ford himself makes up those funny "Ford stories."

The display of neat shoes and stockings permitted by fashion's short skirt is one thing. The sanity of it compared with the trailing one of a few years ago that swept up the dirt and filth of the streets, is more important.

It is so easy for people to criticise the things they know the least about that the Northport News has just been inspired to remark:—

"That man who gets the fewest letters complains most about the management of the post office; the man who finds the most fault with the preacher pays the least towards his salary; the man who has the most trouble with his neighbor is the meanest neighbor; the man who has the least sense is the most conceited; the man without children has the best theory for their bringing up; the bachelor knows the best way to manage a wife; and the man who borrows his neighbor's newspaper is the worst critic the paper has."

Keep Off the Grass.

The thoughtless fellows blithely pass and cut a corner here and there, and wear a path across the grass, and fill the owner with despair. I try to have a nifty lawn, that will do credit to the town; and thoughtless fellows trot thereon, and break the dandelions down. I set out flowers till I go broke—I buy the richest, and the best—and how-wows owned by thoughtless folk come there and knock things galley west. And thoughtless people let their cows perambulate the town by night, and on the well kept lawns they browse, and make the scenery a sight. And thoughtless people all keep hens, and roosters with destructive feet, which come a-whopping from their pens, and spoil my flowerbeds and repeat. There's no protection for the jay who'd make his home a beauty spot; the thoughtless skates will come his way, and climb all over his garden plot, and spoil the grass and pluck the flowers, and bark the trees and crush the shrubs; and it will take him nineteen hours to tell just how he views such dubs.

The United States is still considering the creation of an army of 250,000 men. Canada has already an army of 310,000 men and will soon have half a million. The Toronto Star points out that whereas Canada used to be told that the United States would protect her in case of war the roles are now reversed. In case of war Canada would now have the pleasure of protecting the United States.

Attractive Dining Car Service.

Probably nothing helps more to make a railway journey really enjoyable than a visit to the "Dining Car," especially if it be a Canadian Pacific Dining Car, where the passenger is assured of the highest form of efficiency in the culinary art, the choicest provisions the market affords, prepared on the scientific principle known as "Dietic Blending."

Your favorite dish, as you like it, may be enjoyed at reasonable cost, amidst ideal surroundings, while travelling on the Canadian Pacific.

Holloway's Corn Cure is the medicine to remove all kinds of corns and warts, and only costs the small sum of twenty-five cents.

John Finlayson, of Campbellton, left on Friday to take a position on the staff of the Toronto Star. Mr. Finlayson taught school for five years—one year in Alvinston and four years in Dutton.

Advertising Rates.—Cards of Thanks, In Memoriam Verses, Complimentary Addresses, 5 cents per line, minimum charge 25c; notices of entertainments to be held, also notices of Lost, Found, Wanted, or For Sale, 1c per word each insertion, minimum charge 25c—all to be prepaid.

Miller's Worm Powders work so effectively that no traces of worms can be found. The pests are macerated in the stomach and pass away in the stools without being perceptible. They make an entire and clean sweep of the intestines, and nothing in the shape of a worm can find lodgement there when these powders are in operation. Nothing could be more desirable than their action.

Two workmen were discussing the war, obviously under the influence of a great deal of unofficial news. "It'll be an awful long job, Sam," said one. "It will an all," replied the other. "You see, these Germans are taking thousands and thousands of Russian prisoners, and the Russians are taking thousands and thousands of German prisoners. If it keeps on, all the Russians will be in Germany and all the Germans in Russia. And then they'll start fresh all over again, fighting to get back their ones."
