Charman Walter T. Piggott, of the Industrial committee, received a letter this week from J. H. Coburn, the solicitor of the Lake Erie R. R., which contained practically a summary of the recent meeting here in regards to the car shops. The letter states that the present company thinks it is doing more for the city than the Lake Erie ever did and that the amount which was before submitted. amount which was before submitted, \$2,500, was a very liberal offer of

settlement.

This is the amount which Ald. Taylor stated was an insult to the Council. Ald. Martin at the meeting said that \$200,000 would be more like a proper amount:

No move toward a settlement has yet been made.

A WARNING.

To feel tired after exertion is one thing; to feel tired before is another. Don't say the latter, is laziness—it isn't; but it's a sign that the spetem lacks vitality, is running down, and needs the tonic effect of Hood's Sarsa-

arina.
It's a warning, too,—and sufferers nould begin taking Hood's at once.

SPLENDID DISPLAY

Luke Kelly and Lawrence Howard conducted a display of the Red Bird incubator, on the market square this morning. This incubator exhibited is manufactured by the Manson Campbell Company, in this city. Much interest was created by the display this morning, and Messrs. Howard and Kelly were kept busy explaining the workings of their machine. The process for hatching eggs, as contained in this machine, is very simple, and easily understood and managed. Those who saw it were much impressed with it and several announced their intention of purchasing. The Red Bird adappears in another column of this issue.

THOS STONE & SON

Thomas Stone & Son are at present conducting a special sale in linens. This firm has always been noted for its excellent stock of linens and their display this year is a very creditable one. They have on hand a special line of mill ends and napkins, slightly imperfect, which they are selling at much reduced prices. These are going very fast. All of their linens are shipped direct from the large mills of Richardson Sons and Owden, of Bellast, Incland. Their importations of linens this year are much larger than usual. This is accounted for by the increasing demand for their goods. This firm layer also just received a large consignment of Crossley & Son's carpets from Halifax, England. Some very pretty designs and good values are shown.

Mr. Stone has just returned from Montreal, where he was fortunate in purchasing a special line of dress trimmings through manufacturers' agents.

APPEAL DISMISSED

In the Court of Appeal at Osgoode Hall yesterday before Moss, C. J. O., Osler. Maclaren, JJ. A., the appeal of M. Wilson, K. C., acting for the plaintiffs, from the decision of J. B. Rankin, K. C., Drainage Referee, in the case of Camden vs. Dresden and Chatham Township, was dismissed with costs.

LAND VALUES GO UP

That a strong wave of prosperit in act a strong wave of prosperity is oreeping over the County of Kent is plainly evidenced by the statistics which are on fyle at the local Registry Office. Registrar P. D. Mc-Kellar, in a short interview with The Planet, gave the following interesting figures:

In 1901 the total number of registres in the city was 471 and 12.

THE WATER RATES.

Editor Planet:

I see by the report of the Jast meeting of the Water Commissioners Mr. Sheldon gave notice of a motion reducing the price of water in small houses. The idea is good as far as it goes, but the notice of motion is on a scale far too small. My idea is that debentures should be issued to raise enough money to pipe the whole city and by lowering the price of water induce every citizen to take it, and another reason while the whole city should be piped is that in a great many sections citizens that are now helping to pay the debentures find it impossible to get the use of the water. If the above course was adopted the city would at once commence to reap a very material benefit in Teduced taxation, and from a sanitary standpoint, it would be a great blessing. Editor Planet

SURPRISED

Many Citizens Signed Petition Didnt Know it was Loaded They do now

Cupid Martin, a colored man well up in years, circulated a petition chaiming that the Wilberforce Institute had defrauded him out of farm. Over a hundred of Chatham's leading citizens signed it. The petition was sent to Raleigh Tp. Council The Wilberforce people heard of it, and instructed Houston, Stone & Scane, their solicitors, to look into the matter. They secured a copy of the petition and then, selecting 40 of the influential signatures, sent the signers notices that they must make re-traction or a writ, for criminal libel, would be issued. Since then the office of the Wilberforce solicitors has been besieged by those who had signed the document. The citizens appear to be only too anxious to sign the retraction. One lawyer, noted for taking great interest in things, was waiting at the office all one morning, anxious to make the amend demanded and save the \$1.07 costs added, if a writ were issued. ressure Brought to Bear on Liberal Government—All the Costs Paid by Friends

A. L. Shambleau will be released from custody this afternoon. At 4.30 p. m. the ex-Treasurer will be arraigned and, no evidence being offered, he will be discharged. This incident comes as a surprise. It was cident comes as a surprise. It was expected that Mr. Shambleau would be released, but the manner in which it is being done comes as a surprise. The authorities here acted under instructions. Irom the Attorney-General's department, at Toronto, it is understood that his hand was forced by representations made to him by the Wallaceburg people. Just what pressure was brought to bear on the Liberal Government at Torento is not known.

Mr. Shambleau's friends settled with the County and also paid all the Legal and other expenses incurred since his arrest.

Coal City Courant.

Suppose the editor of this paper should publish all known to be true about people in this community, don't you suppose there would be war in camp quite suddenly? Well, there are tongues that wag from morning until night, and then some, telling nasty little lies about others, and when they are cornered of course they "just heard it." Such people should be punished the same as thieves, and they are really worse, because they seek to ruin a character oftentimes that is far above their own purity. Don't tell things about others unless you know them to be true. Coal City Courant.

THE ARBITRATION BILL.

Toronto, March 7. - A depugates and the Minister, agreed that in case of such failure to agree on the third arbitrator the Minister of Railways or Labor should make the choice. Mr. Hall suggested that the bill should derivation and the bill should be made to apply to other large undertakings, in addition to the railways. Sir William Mulock agreed in this view, but feared the public were not prepared for such general legislation. The deputation was highly satisfied with the Minister's views.

ADDRESS BY THE PREMIER.

London, March 7. - The Lord Mayor of London, who is a Jew, occupied the chair at the meeting held yesterday at the Mansion House to inaugurase the celebrations in connection with the centenary of the British and Foreign Bible Society. The Prime Minister, who was the principal speaker, delivered an impressive address. He said that not only was the Bible now what it always had been to the unlearned, a source of consolation, hope and instruction, but that to those who were more learned, as were more learned, but not nearer the Kingdom of Heaven, it was augmented in interest, and was a more valuable spiritual source than in pre-critical

Trouble With the American Bridge Company. Philadelphia, Pa., March 7.-A gen

eral strike against the American Bridge Company has been called by the Executive Board of the International As-

cutive Board of the International Association of Bridge & Structural Iron Workers. The general order includes all construction work in the hands of the company throughout the United States and Canada, and involves thousands of men.

An official of the American Bridge Company said: This strike has been called without our receiving any prior notice of any trouble. So far as we know, it is in sympathy with the hoisting engineers, and reports show that everything is tied up everywhere in the country. We have always lived up to our agreements with the men in regard to the employment of union men, but the unions have failed to supply us with union men. The question for us to decide now is whether to employ non-union men or stop work."
