Montreal Stock Market.

TONE BETTER TO-DAY AND STOCKS FROM LOWER OPENINGS SELL UP. —TWIN AND REPUBLIC ADVANCE— OTHERS RECEDE — CONSOLS AND AMERICANS LOWER IN LONDON.

Montreal, Jan. 4.
Two stocks sold up this forenoon, Twin City and Republic. Twin beginning at the closing price of last sale yesterday reached 66 on the majority of 650 shares, with a net gain of 1½ points on yesterday.
Republic gained 3 points in selling at 108¾. These were strong, and the general tone of the market was decidedly better, though all the other stocks passed through the market at some recession.
Canadian Pacific on the sale of 530 shares divided into ten somewhat smaller parcels than usual, fell to the extent of 1½ points. The opening price, 91½, was equivalent to London price. London quotations were lower in general, New York Central being one of the few that were quoted higher. Pacific sold up, however, from the opening and got as its last price 91¾.
Montreal Street Railway though lower for the session by 2 points than yesterday, showed that the market tone was improving, the two slight lapses in the second and fourth sales being followed immediately by advance to the opening price. Altogether 520 shares of Street were put through.
Toronto Street Railway on 215 shares sold at the prices given below was unchanged from yesterday.
Virtue at 55 was also on the previous level of the other five stocks traded in this forenoon, the quantities were small and gave an incorrect impression that at this session there was very little doing.
Royal Electric on a sale of 25 shares, at 188 was 1 point lower, and on 57 shares Commercial Cable at 188 was 2 lower. Dominion Cotton also on sales of 75 shares selling steady was, however, 1½ points lower.

THE MIKADO MINE.

Manager McMillan, of the Mikado mine, is in town to-day and he brings cheering news. He says things are first class at the mine, and all is running smoothly. Sinking is going on rapidly and, that in a very short time the Mikado will have the deepest shaft in the Western Ontario gold fields. All the ore bodies are showing up magnificently well and the prospects for long drawn out success never were brighter. —Lat Portage Miner.

EVENING.

The shaft has reached a depth of 28 feet and the showing of ore on the foot and hanging wall continues to be of an encouraging character. Two shifts are at work, and good progress is being made when the hardness of the formation is considered.
