

First Intermediate Examination.

Every candidate must, at least one month prior to the date fixed for the examination, send to the Registrar the following drawings, which must be certified by his principal to be his own work :—

Four sheets of drawings, one of each of the following orders :—
Grecian Doric, Grecian Ionic, Grecian Corinthian and the Composite Order of the Romans.

One sheet of the mouldings and ornaments of these orders, drawn to a larger scale.

(Each sheet to be of the size of a half sheet of Whatman's Double Elephant paper, 4. c., 20 in. by 26 in.)

The subjects for examination will be :—

Elements of Construction.

Text Book : Mitchell's Building Construction.

Mathematics.

Euclid : Books I., II. and III.

Plane Trigonometry : Including the solution of plane triangles.

Algebra : Including quadratic equations.

Technical Terms.

A knowledge of the terms necessary to understand the description of a monumental building and its parts.

History of Architecture.

An outline only will be required, such as may be learned from reading such works as Rosengarten's Architectural Styles.
