The Baby Sick?

Then probably it's a cold. Babies catch cold so easily and recover so slowly. Not slowly, however, when you use Vapo-Cresolene. Then a single night is all that is necessary for a cure. You just put some Cresolene in the vaporizer, light the lamp beneath, and place near the crib. While baby sleeps he breathes in the healing vapor. Cold loosens, inflamed membranes heal, and all trouble ceases. It's a perfect specific for whooping-cough and croup.

Ask for Minard's and take no other.

Vapo-Cresolene is sold by druggists, or sent by express postpaid on receipt of price. A Vapo-Cresolene outfit, including a bottle of Cresolene, complete \$1.00. Send for free illustrated booklet, containing full directions, to Minard's, 200 St. James St., Montreal.

ELOQUENT SPEAKER

Rev. S. W. Gamble, a national Sunday Rest evangelist, will preach in this city to-morrow.

Rev. Mr. Gamble is a lecturer of extraordinary ability. His lectures are practical, historical and doctrinal and he is a popular speaker wherever he appears. He deals with the Sabbath teachings of the Acedians, Hindus, and other people of India, all from 600 to 700 years beyond the

REV. S. W. GAMBLE.

exodus. He will expose a great fraud, explain a great national evil and explain the remedy and prove that Saturday is neither the creation Sabbath, the Jewish Sabbath nor the Christian Sabbath, and that Sunday was the creation Sabbath and is the Christian Sabbath.

Bishop Fitzgerald, President of the Summer School of Theology, Ocean Grove, N. J., says of Mr. Gamble: "He knows more about the Sabbath question than any other man in America."

DISPUTED OWNERSHIP

Gilbert Lozon accused Abe McGregor of stealing his chickens. The case was tried yesterday morning before Judge Houston and the trial showed that the trouble had resulted over a misunderstanding as to the ownership of the chickens. The case was dismissed.

W. B. Wells had some game chickens of rare variety at Big Point Club. When he came home Abe McGregor met him and told him his chickens were starving. The cricketer asked Abe why he hadn't brought them home as he had done once before. Abe and Jack Milner were passing the Big Point Club so they went in and got the chickens and put them in W. B. Wells' coop as soon as they reached the city. Gilbert Lozon laid a charge of stealing against the Chatham man. One of the roosters was produced in Court. Lozon and Wells both claimed the bird. Judge Houston, however, said that he was trying the case to decide the ownership of the chickens. That was a civil suit. W. F. Smith appeared for McGregor.

CONVENTION FOR CHATHAM

The annual convention of the Canadian Association of Stationary Engineers will be held in this city on August 22nd, and a large number of delegates will be present.

As there seems to be considerable misunderstanding as to the object and aims of this association, a few words of explanation at this time will not perhaps be inappropriate.

The Association is not, as many suppose, a Union in the sense of the word as applied to other trades, but is purely and simply an educational organization, having for its object the mutual education of each other, and the prevention of quarrels between men from taking charge of steam plants and thereby placing the lives of their employers, and the lives of citizens in general, in constant jeopardy.

The Local Branch of the Association, of which almost every engineer in the city is a member, meet once and sometimes twice each week, and matters pertaining to steam engineering are taken up both practically and theoretically, and thoroughly threshed out, if one engineer has a difficulty the problem is taken up and worked out by all present by the aid of models, blackboard and pencil, and current literature on the subject is always on the tables.

Such an Association is of inestimable value both to the engineer and to the manufacturers who use steam as a motive power and who appreciate the services of a qualified and intelligent man in the charge of same; and it assures them of the fact that each engineer, in their employ is certain to become more efficient and trustworthy, getting as he does the constant experience of trouble and its remedy of each member of the Association.

It is confidently expected that the Association will receive the amount of encouragement and assistance it has a right to anticipate, when it possesses for its aims and objects, such as form the main features of Chatham Branch, No. 21, Canadian Association of Stationary Engineers.

If you are planning to have a home of your own, buy one of the lots still left in the Athletic Ground Survey, and build the kind of house you want. The location is the best in the city, the price right, the terms easy. Close to markets, schools, churches and railway stations, and situated between two of the best streets in the city. For particulars see D. McLachlan, Business College.

It takes less sense to find fault with all than to be fair with all.

W. E. Haspin has two light well finished offices to rent, heated by steam, with all modern conveniences. Apply at the office, 115 King street.

The coin of advantage is all right if you can convert it into cash.
