

Creamery Department

Butter makers are invited to send contributions to this department, to ask questions on matters relating to butter making and to suggest subjects for discussion. Address letters to Creamery Department.

Dairy Exhibits at Ottawa

The cheese and butter exhibits at the Ottawa Exhibition last week did not take as much room as they required in 1910, but entries were more numerous and competition was keener. In the cheese department one cheese constituted an entry, while in previous years each exhibitor sent two cheeses for each section in which he competed. With the exception of creamery butter the quality was superior; in most cases finer than in previous years. The dairy exhibits were judged by Mr. Geo. H. Barr, Chief of the Dairy Division, Ottawa, and Mr. Frank Singleton, of Kingston.

Mr. Barr pronounced the cheese to be the smoothest-textured and best-flavored that he had seen at Ottawa in the three years he had judged in there. Mr. R. A. Thompson, Attwood, Ont., carried off the best of the awards in cheese.

The entries of creamery butter were good, but not as good as last year in body or in flavor, nor were the entries as large. The dairy butter entries were more numerous than last year, and the quality was exceptionally fine. Two or three lots of dairy butter were extra well made. In body the dairy butter was superior to the creamery. The butter making contests were centres of interest and must be numbered among the best educational features of the Fair.

The awards were as follow:

CREAMERY BUTTER

Sec. 1—Two tubs of not less than 50 lbs. each.—J. H. Martin, St. Valentine, Que.; 2, A. Lapalme, St. Hughes, Que.; 3, A. Serravallo, St. Hyacinthe, Que.; 4, H. Leclerc, Foster, Que.

Sec. 3—Prints or fancy package, not less than 10 lbs.—J. W. H. Stewart, Frontenac, Que.; 2, W. H. Stewart; 3, H. W. Patrick, St. Thomas, Ont.

Sec. 5—Package of creamery butter (gold medal)—J. H. Martin, St. Valentine, Que.

DAIRY BUTTER

Sec. 4—Two tubs, not less than 10 lbs.—J. H. Martin, North Gower, Ont.; 2, Alex. Meldrum, Wyman, Que.; 3, S. H. Pugh, Milverton, Ont.; 4, Mrs. Theo. Langford, Stalmans, Que.

Sec. 5—Package or prints, not less than 10 lbs.—J. Mrs. Alf. Wallace; 2, Alex. Meldrum; 3, Mrs. Theo. Langford; 4, Mrs. Chas. Hinton, Carleton Place, Ont.

Sec. 6—Gold medal or \$30 for best lot of dairy butter—Mrs. Alf. Wallace.

CHEESE

Sec. 1—August cheese, colored.—J. R. A. Thompson, Attwood; 2, Geo. Empey, Newry; 3, S. Hough, Scotch Line, Ont.; 4, R. E. Anderson, Arranport, Ont.

Sec. 2—August cheese, white.—J. A. S. Walker, Douglas, Ont.; 2, Alf. Park, Beachburg, Ont.; 3, Geo. Empey, Newry, Ont.; 4, J. Stadelhauer, Listowel, Ont.

Sec. 3—To instructor from whose district came the most prize cheese—E. Elliott, Carp, Ont.; 2, Jas. Burgess, Listowel, Ont.

Sec. 4—Best factory cheese exhibited, gold medal—R. A. Thompson.

Sec. 5—Special Windsor salt prize—J. R. A. Thompson; 2, Alf. Park.

Sec. 6—Special Windsor salt prize—J. R. A. Thompson; 2, Alf. Park.

Sec. 7—Special Windsor salt prize—J. R. A. Thompson; 2, Alf. Park.

Sec. 8—Special Windsor salt prize—J. R. A. Thompson; 2, Alf. Park.

Sec. 9—Special Windsor salt prize—J. R. A. Thompson; 2, Alf. Park.

Sec. 10—Special Windsor salt prize—J. R. A. Thompson; 2, Alf. Park.

Sec. 11—Special Windsor salt prize—J. R. A. Thompson; 2, Alf. Park.

Sec. 12—Special Windsor salt prize—J. R. A. Thompson; 2, Alf. Park.

Sec. 13—Special Windsor salt prize—J. R. A. Thompson; 2, Alf. Park.

Sec. 14—Special Windsor salt prize—J. R. A. Thompson; 2, Alf. Park.

Sec. 15—Special Windsor salt prize—J. R. A. Thompson; 2, Alf. Park.

Sec. 16—Special Windsor salt prize—J. R. A. Thompson; 2, Alf. Park.

Sec. 17—Special Windsor salt prize—J. R. A. Thompson; 2, Alf. Park.

Sec. 18—Special Windsor salt prize—J. R. A. Thompson; 2, Alf. Park.

Sec. 19—Special Windsor salt prize—J. R. A. Thompson; 2, Alf. Park.

Sec. 20—Special Windsor salt prize—J. R. A. Thompson; 2, Alf. Park.

Sec. 21—Special Windsor salt prize—J. R. A. Thompson; 2, Alf. Park.

Sec. 22—Special Windsor salt prize—J. R. A. Thompson; 2, Alf. Park.

Sec. 23—Special Windsor salt prize—J. R. A. Thompson; 2, Alf. Park.

Sec. 24—Special Windsor salt prize—J. R. A. Thompson; 2, Alf. Park.

Free for All.—1, Miss Maggie Johnson, Bowood; 2, Miss N. C. Carick, Galt; 3, Miss L. B. Gregory, Poplar Hill; 4, Mrs. Walter Hill, Poplar Hill; 5, Miss Patton, Newtonbrook; 6, Miss C. E. Jayne, Cobourg, W.

Sweetstakes.—1, Miss Patton, Newtonbrook; 2, Miss C. E. Jayne, Cobourg; 3, Miss Maggie Scott, Vannock; 4, Miss Carick, Roseville; 5, Miss L. B. Gregory, Poplar Hill; 6, Mrs. Walter Hill, Park Hill.

History of Dairying in Canada

An altogether interesting and instructive publication relating to dairying has been issued from the Dairy and Cold Storage Commissioner's Branch at Ottawa. It is entitled "The Dairy Industry in Canada," and is an historical and descriptive account of the dairying industry of this country written by Mr. J. A. Rudlick, Dairy and Cold Storage Commissioner.

The work has been prepared with a view towards giving a permanent record of the events which have marked the important events connected with the early history of dairying in Canada, and particularly of those events which have led to the factory system to which Canadian dairying owes so much. Much valuable information pertaining to all branches of dairying in the various provinces of the Dominion is set forth in an interesting and most readable style in this bulletin and anyone on reading it will place themselves in possession of many facts they will treasure for years to come.

Illustrations of the several breeds of dairy cattle, of cheese factories, creameries, dairy schools, and farms in the several provinces; portraits of men engaged in the industry in its early history in Canada, as well as portraits of some of our leading dairymen of the present day, enliven the work and make it of more interest to the reader. Three photographs of the Mammoth cheese made at the Ingersoll factory in 1866 and at Perth, Ont., in 1869, are given; these will prove of special interest to our younger dairymen of to-day.

Every reader of Farm and Dairy will wish for a copy of this bulletin, and may have one sent free on application to the Dairy Commissioner at Ottawa, who has done himself credit in the general excellence of this interesting and attractive bulletin.

How to Retain Patrons

A. H. Halls, Garretton, S. Dakota.

In selling to the home creamery, the patrons receive many small courtesies. They get their different cows tested, so that they can sell their poor ones and keep only their best. There are also many other small favors they can get in selling to a home creamery which cannot be got by selling to an outsider. The patrons take great interest in seeing their own creamery grow by selling their cream there.

Some creamery men might say, "Those things are not the work of a buttermaker." But I have learned that if we want to keep our local creamery running and make it a profitable business, we must have our patrons with us. I try to do the work in the creamery well, but I would not lose the opportunity of explaining a point to a patron in order to attend to some routine work in the creamery. It is much easier to hire someone to do the bulk of the creamery work, than it is to hire a man to attend to the fine work. The creamery work and field work are both important and interdependent, but the patronage must be retained, otherwise the creamery cannot prosper.

The patrons of the Garretton creamery are loyal to their local institution, and so long as they remain so the local creamery will prosper. This

may be said of every other creamery. I say, therefore, that to keep the local patronage is a most important work, if not the most important work of a buttermaker in a local creamery.

Types of Improved Milk Pail

Most troubles with milk and defects in dairy products, cheese, cream and butter, have their origin in the bacteria-laden dust, hairs, and so forth, that gain entrance to the milk at the time of milking. Bacteria by the tens of millions fall into the ordinary open milk pail and hence into the milk every time such a pail is used under a cow.

The greater part of this contamination can be gotten over by using a partially covered milk pail of which there are several types that are quite satisfactory. The small illustration inserted in this article shows a modified Lay pail, which is a great improvement over the open pail.

The right hand illustration is another cut herewith shows a type of the Freeman pail, which is eminently satisfactory and which when held in a tilted position under the cow, in which position it would be used by the milker, the shield on the pail would hang over the opening in such a manner that practically all of the dust or dirt that might fall from the cow would drop past the opening without gaining access to the inside of the pail.

Partially covered milk pails are fast gaining favor with all enlightened

A Market Contrast in Types of Milk Pails

The day of the wide-open milk pail cannot too soon pass into history. If we could but see and recognize the dirt and filth such a pail catches while the milk is being drawn from the cow it would stagger our belief.

dairymen. When the day comes that these modern milking pails are in general use a great step will have been taken in overcoming troubles arising from contaminated milk.

New Ontario Farm Exhibit

(Concluded from page 11)
extraordinarily luxuriant growth; and red clover of which a farmer cut eight loads—his horses could draw from two acres. This clover was almost too coarse to make feed of quality, and it was so heavy on the ground that it was not possible to rake it and it was pitched straight from the swath after being cured. Samples of timothy hay, samples of several grains such as oats, peas, wheat and barley sold better than words of the possibilities of the district. Some Golden Vine peas measured seven or eight feet in the air and were in the pods. Samples of Black Trianon oats that yielded over 104 bushels to the acre (individual heads of these oats had upwards of 250 kernels) and samples of the great variety of soya beans, demonstrated beyond dispute that Thunder Bay, as well as the other better known districts of Ontario, are great sources of possibilities in agricultural wealth.

Pure bred fowls, any standard variety, given away in return for no subscription to Farm and Dairy.

Cheese

Makers are invited to send contributions to this department, to ask questions on matters relating to cheese making and to suggest subjects for discussion. Address letters to Cheese Department.

Cheese and

The cheese at the Fair, London, particularly the large wheels of Swiss cheese, were of a very good flavor.

The prizes as follows:

Section 1—1, C. J. R. Attwood, Attwood; 2, E. K. Snyder, Boston, Attwood; 3, J. C. D. R. Attwood, Attwood; 4, J. C. D. R. Attwood, Attwood; 5, J. C. D. R. Attwood, Attwood; 6, J. C. D. R. Attwood, Attwood; 7, J. C. D. R. Attwood, Attwood; 8, J. C. D. R. Attwood, Attwood; 9, J. C. D. R. Attwood, Attwood; 10, J. C. D. R. Attwood, Attwood; 11, J. C. D. R. Attwood, Attwood; 12, J. C. D. R. Attwood, Attwood; 13, J. C. D. R. Attwood, Attwood; 14, J. C. D. R. Attwood, Attwood; 15, J. C. D. R. Attwood, Attwood; 16, J. C. D. R. Attwood, Attwood; 17, J. C. D. R. Attwood, Attwood; 18, J. C. D. R. Attwood, Attwood; 19, J. C. D. R. Attwood, Attwood; 20, J. C. D. R. Attwood, Attwood; 21, J. C. D. R. Attwood, Attwood; 22, J. C. D. R. Attwood, Attwood; 23, J. C. D. R.
