Are a combination of show-yard and utility type seldom seen in any one herd. A few choice young males and females for sale. Write or 'phone your wants to Stoneham before purchasing elsewhere.

winners. Dairy test winners. 75 head to select calf calves and females of all ages for sale. Before come and inspect our herd and get prices.

J. Harris, Mt. Elgin, Ontario.

hires We have several February, March and April, 1915, bull calves, bred from some of our best imported and home-bred Co., Campbellford, Ont., R.No.3

The General says:
When you find this label on a roll of Asphalt Roofing it is guaranteed by its maker who knows how well it is made. Your own local dealer will tell you all about the responsibility that stands behind our guarantee on

Certain-teed Roofing

The guarantee of 5, 10 or 15 years for 1, 2 or 3 ply **Certain-teed** is backed by the largest Roofing and Building Paper Mills in the world. This roofing has given excellent service on all classes of buildings for years and years. It costs less and gives a better service than metal roofing, wood shingles, and many other types of roofings. **Certain-teed** Roofs all over the country are outliving the period of the guarantee. All **Certain-teed** products are reasonable in price. Ask your dealer.

The Battle of Gettysburg

IN this, the most terrible engagement of the Civil War, out of each 1,000 engaged 55 were killed. And this is exactly the number of those now in good health aged 49 who will die before reaching 53.

In the battle of Shiloh, of each 1,000 combatants 42 were killed, which is the number of those now in good health aged 30 who will die before they reach 35.

Therefore, those who fight the everyday battle of life should seek protection for their families just as earnestly as those who fight the battles of their country. We issue insurance on all approved plans.

Please mention "The Farmer's Advocate."

Questions and Answers. Miscellaneous.

Ringworms.

I have some young calves that have ringworm. Would turpentine put on the spots cure them? If not, give a cure in your veterinary column. J. M.

Ans.—We would not expect turpentine to effect a cure. Isolate the calves from those not infected. Soften the scales by applying sweet oil. Then remove them and apply tincture of iodine once daily until cured.

Poultry Housing.

1. My henhouse is ten by sixteen feet, with a gable roof, and six and a half feet high at the eaves. How many hens will it accommodate?

2. It has two windows, two by three feet each, placed horizontally in the south side. Should it have more windows? If so, where should they be placed? Please give a good plan for the interior. J. D. P.

Ans.—1. 30 to 35.
2. Yes. Placed in the south side. We cannot give any definite plan for the interior, but would advise you to read the article on poultry-house construction in our issue of Sept. 2.

Cow Pox.

Cow has sore teats. They first appear like a hard water-blister, and in about two days break out into raw sores. They are like this for a couple of days, and skin peels off. I applied vaseline, with a drop of carbolic acid, but this does not cure sores very fast. Two more cows are affected.

1. What is the best cure for sores?
2. Could they be cured before breaking out?
3. Will it go through the herd?
4. What is cow pox like? R. M.

Ans.—1, 2, 3 and 4. This is cow pox, a very contagious trouble. Keep infected cows separate from the others. Do not allow the same milker to milk infected cows and then others without thoroughly disinfecting his hands. Feed bran mash, and give the cow the following powders for her blood: One quarter pound each of nitrate of potash (saltpetre), sulphur, and ground gentian root. Mix thoroughly, and give a teaspoonful night and morning in a mash. Bathe the sores with lukewarm water and soap each time before milking. Milk carefully, and apply the following lotion: Sweet oil, 4 ounces; carbolic acid, 10 drops.

Distress for Rent.

I have leased a farm for five years. Truck and general farming. This is my second year. Vegetables having fallen so flat, and the other portion of the farm being in so poor condition, I am far short of meeting my rent. Vegetables being the principal source I was looking to for returns, was considering the advisability of stopping before going deeper into trouble. I would like information as to what can be seized for arrears in rent.

1. Can household goods be seized?
2. Is there anything exempt from seizure?
3. If so, what? A. C. C. Ontario.

Ans.—1. Yes, but not all.

2. Yes.
3. Beds, bedding and bedsteads (including cradles) in ordinary use by the tenant and his family; their necessary and ordinary wearing apparel; fuel and provisions for them for 30 days and not exceeding in value \$40; one cow, six sheep, four hogs, and twelve hens, in all not exceeding the value of \$100, and food therefor for 30 days, and one dog; tools and implements of, or chattels ordinarily used in, the tenant's occupation, to the value of \$100; fifteen hives of bees; certain and numerous articles of furniture,—as to which see section 3 (c) of Chap. 80 of the Revised Statutes of Ontario, 1914. These include a cooking stove, heating stove, table, lamp, cooking utensils, sewing machine, thirty volumes of books, axe, saw, gun, etc., altogether not exceeding in value \$150. For further information we would refer you to the Act mentioned, and also to the Landlord and Tenant Act, R. S. O., 1914, Chap. 155, and more especially sections 20 to 37, thereof.

Fill Your Silo Quicker with Less Power

We make all sizes of hand and power Feed Cutters for every kind of work. Our line embodies the latest improvements for lessening the danger and inconvenience met with in many machines of this class. Inspect the line of

Peter Hamilton Feed Cutters and Silo Fillers

Our No. 7 Tornado Ensilage Cutter and Blower (illustrated) will handle 8 to 10 tons of corn per hour easily.

FRAME of selected Canadian hard maple, mortised and tenoned, always tight and rigid. FAN CASE is cast iron—stands friction and wear better than steel. FANS are hot-riveted in place, never get loose. KNIVES are high-grade steel, and adjustable for cutting all kinds of fodder. TOP ROLLER is self-conforming to uneven feeding.

Many other features will meet with your approval. Write to-day for booklet describing both hand and power outfits in full.
