R.G. LONG & CO. LIMITED

are a necessity if you are making a "business" of farming. Imagine your money invested in a commercial undertaking where you knew they kept no books of account! Yet many, many farmers, whose every cent is invested in their farm and its development, keep no reliable records to show their worth or progress.

Perhaps you have kept no accounts because you felt you didn't understand how, or thought it too much work.

THE NEWMAN-BATES SYSTEM OF FARM BOOKKEEPING

has been carefully devised to meet the need of busy farmers, and is easy to understand and operate.

One prominent agriculturist says: "I have gone into your system of farm bookkeeping very carefully, and find it well suited to the average farm, I would not hesitate to recommend it."

Another says: "To my mind the system is easily the best thing of its kind that has yet appeared."

GEZ-INCE ALONG

Most farmers are us against the and all haps reader, you are too. It's hard work to get along without the man or the boy sumetimes. You should have a BT Mahure Carrier. It will save you half-an-hour or an hour a day, and cut out the markers part of the chores. It takes out all the majure from the authors in one load, or two loads if you have a just as a save as throwing it out the window for it runs on a level oxerhead track as far from the barn as you please.

Push it out by a clean handwheel. Dump quickly by pulling trip-latch. Bucket dumps both ways. High ends prevent the manure slopping over on the way from gutter to

BT

Note that the bucket winds up close to the track to you can easily dump in wagon, sleigh or spreader or on the pile when it is high.

You have greater need for a BT Manure Carrier this Fall than you we had. Buy it now at the beginning of the vater when to it cows are just going in. Let it help you all vater forms till you put our cows on pasture gain. By attime

Get the bookle and the BT Carrier. Jack Frost will soon be here so you will have to hurry.
