

Reward of Merit

A New Catarrh Cure Secures National Popularity in Less than One Year.

Throughout a great nation of eighty million it is a desperate struggle to secure even a recognition for a new article, to say nothing of achieving popular

favor, and yet within one year Stuart's Catarrh Tablets, the new catarrh cure, has met with such success that to-day it can be found in every drug store throughout the United States and Canada.

To be sure a large amount of advertising was necessary in the first instance to bring the remedy to the attention of the public, but everyone familiar with the subject knows that advertising alone never made any article permanently successful. It must have in addition absolute, undeniable merit, and this the new catarrh cure certainly possesses in a marked degree.

Physicians who formerly depended upon inhalers, sprays and local washes or ointments now use Stuart's Catarrh Tablets because, as one of the most prominent stated, these tablets contain in pleasant, convenient form all the really efficient catarrh remedies, such as red gum, bloodroot and similar antiseptics.

They contain no cocaine nor opiate and are given to little children with entire safety and benefit.

Dr. J. J. Reitzger, of Covington, Ky., says: "I suffered from catarrh in my head and throat every fall, with stoppage of the nose and irritation in the throat, affecting my voice and often extending to the stomach, causing catarrh of the stomach. I bought a fifty-cent package of Stuart's Catarrh Tablets at my druggist's, carried them in my pocket and used them faithfully, and the way in which they cleared my head and throat was certainly remarkable. I had no catarrh last winter and spring and consider myself entirely free from any catarrhal trouble."

Mrs. Jerome Ellison, of Wheeling, W. Va., writes: "I suffered from catarrh nearly my whole life and last winter my two children also suffered from catarrhal colds and sore throat so much they were out of school a large portion of the winter. My brother, who was cured of catarrhal deafness by using Stuart's Catarrh Tablets, urged me to try them so much that I did so and am truly thankful for what they have done for myself and my children. I always keep a box of the tablets in the house and at the first appearance of a cold or sore throat we nip it in the bud and catarrh is no longer a household affliction with us."

Full-sized packages of Stuart's Catarrh Tablets are sold for fifty cents at all druggists.

QUESTIONS AND ANSWERS. Veterinary.

WORMS.

1. Aged horse went off his feed in Nov. last. I had his teeth dressed, and he eats all right now, but remains thin and gaunt.

2. How and in what quantities should flaxseed be fed to horses, to improve digestion?

J. McK.

Ans.—1. This horse, in all probability, has worms. Give him one dram each sulphate of iron, sulphate of copper, tartar emetic and calomel, night and morning for a week, and then give him a purgative of eight drams aloes and two drams ginger.

2. A teaspoonful of ground flaxseed given in boiled oats or dampened bran twice weekly.

V.

PARTIAL PARALYSIS.

Two-year-old filly has difficulty in rising, and is somewhat stiff. She appears too thick on each side of the loins.

C. St. J.

Ans.—This is partial paralysis, and it is possible there may be a swelling of the muscles mentioned. Blister the parts in the manner so often described in these columns. Purge her with six drams aloes and two drams ginger, and follow up with one and a half drams nux vomica twice daily. It is possible she will gradually improve, but some such cases are incurable.

V.

NASAL GLEET.

Colt, two years old, has a large head which followed an attack of distemper. He discharges from the nostrils and breathes hard. It has been so for a year, and I have blistered several times.

R. S.

Ans.—This is nasal gleet. It is possible an operation called trephining, which consists in boring into the sinuses of the head and removing the accumulated pus, might effect a cure. None but a veterinarian can operate, and in a case of a year's standing a recovery is doubtful. If I am correct in my diagnosis, blistering will do no good. You had better call your veterinarian in, as it is a case that requires personal attention.

V.

BLOATED STEER.

Steer bloated four weeks ago. We caused free purgation with oil and salts, but the bloat remains. He eats very little, and will not take either turnips or chop.

R. W.

Ans.—The food ferments in the rumen owing to weak digestive powers, possibly due to overfeeding. Give him two drams each of gentian and nux vomica, and three drams each of ginger and bicarbonate of soda, in one pint cold water as a drench, three times daily. To his drinking water add about one-sixth of its volume of lime water. If his bowels become constipated, give a pint of raw linseed oil. Give him anything he will eat, in small quantities and gradually increase the quantities as his appetite improves.

V.

MARE WITH TENDER FEET.

After driving four or five miles, my mare eases her fore feet as though in pain. When turned out in the yard, you would think there was nothing wrong with her.

W. J.

Ans.—It is probable she has navicular disease in the early stages, and unless properly treated, there is danger of it developing into an incurable lameness. Give her a long rest, remove her shoes, and blister once every month with two drams each biniodide of mercury and cantharides, mixed with two ounces vaseline. Clip the hair off for two inches high all round the foot. Rub the blister well in. Tie so that she cannot bite the part. In twenty-four hours rub well again, and in twenty-four hours longer wash off, and apply sweet oil. Set her loose now, and oil every day until the scale comes off, when you will blister again, and every month afterwards as long as necessary. Whether the soreness is due to navicular disease or inflammation of the sensitive parts of the feet, this treatment is the best you can adopt. If you cannot give her rest, all you can do is to use bar-shoes, and poultice the feet when she is in the stable.

THE PIONEER SEED HOUSE OF CANADA

ESTABLISHED 1850.

BRUCE'S SEEDS

No better seeds can be procured anywhere. It pays to buy the best. Over half a century of business success the best guarantee you can get. Our handsome illustrated catalogue (88 pages) is now ready, and will be mailed free to all applicants. Send for it.

New Universal Constellation—Seeder, Hoe, Cultivator, Plow, Rake.

In this constellation is presented a brilliant assemblage of the new Universal Drill and the Double Wheel Hoe, Cultivator, Rake and Plow for use either as a single or double wheel implement. Six implements in one. Each implement is entirely separate from the other, and the only parts used in each, the wheels and handles, are changed from one frame to the other by only 2 bolts. The cultivating attachments are shown detached. They are: 1 Cultivator Frame, 1 Center Cultivator Tooth and 1 pair each Hoes, Plows, Rakes, Markers, Narrow Cultivator Teeth and Wide Cultivator Teeth.

Price, boxed, \$10.50.

\$32.50 Buys Cream Separator

ALL SENT OUT ON FREE TRIAL.

WE ARE selling cream separators on the same plan as we have sold sewing machines and thrasher supplies during the past three years; that is, we aim to sell a large number of them at a small profit on each.

We have a strictly first-class cream separator, as hundreds of Canadian farmers who purchased them last year can testify and our prices are so much below what agents charge that they are well worth looking into. Further, we send each separator out on free trial, and every one not satisfactory may be returned to us at our expense. We supply with each separator, except the smallest size, iron stand, milk-shelf and two cranks, one long one for easy turning for children, and one short one for men's use.

Our prices for the **WINDSOR CREAM SEPARATORS** are as follows: No. 0, capacity 115 lbs. per hour, \$32.50; No. 1, capacity 210 lbs. per hour, \$48.75; No. 2, capacity 340 lbs. per hour, \$57.50; No. 3, capacity 560 lbs. per hour, \$85.00.

We have dozens of testimonials from farmers in all parts of the country who purchased these machines last year. Every separator sold by us went to a thoroughly-satisfied customer, otherwise it would have been returned. Nearly all our customers took them on trial, and did not pay for them until after thoroughly testing. Mr. Henry Pruder, Purple Valley, writes: "The cream separator we purchased from you is giving immense satisfaction. We have eight

cows, and are making 12 lbs. of butter more a week than we could the old way by using the milk cans. We also tested your cream separator by running the milk through that we had skimmed closely, as we thought, and we got two quarts of g. od rich cream. Mr. Schales, the man who got the separator when we got ours, is also well pleased. He says it half paid for itself the first summer over what they could have made the old way." Mr. Pruder and Mr. Schales had No. 2 machines.

Mr. Taylor Hamilton, Locksley, Ont., writes: "The Windsor Cream Separator we bought from you last May is giving the very best satisfaction. I could not wish for a better separator, and my neighbors are also well pleased with it. It runs very easy and does its work perfectly."

Send for our separator pamphlet, fully illustrating our machine, showing pictures of the interior of bowl and other parts; also testimonials, terms, etc. We have sold cream separators, sewing machines or thrasher supplies in almost every part of Canada, and can probably refer you to some party in your own neighborhood as to the quality of our goods and our reputation for fair dealing.
