

Cooks and Bakes perfectly at the same time

There is not another range built in which the heat may be regulated so that you can bake in the oven and cook on the top at the same time without spoiling one or the other.

But you can do both equally well at the same time on the Pandora, because its heat is not wasted and is at all times under the simplest, most positive control.

If you do the cooking of your household you can appreciate exactly what this means.

Page Fences Wear Best Because

- Wire is double strength.
- Wire is coiled—not crimped.
- It has twice the elasticity.
- Wire is not injured at joints.
- Joints cannot slip—see cut of lock.
- Superior quality galvanizing.

Page Fences are painted WHITE—this is our trade-mark; don't rust and are easily seen. Two styles: The old reliable "Page" with continuous wrapped stay, or the "Page Empire" with straight stay. In medium weight or extra heavy—all No. 9.

No bolts—no cement in
"Hecla" Furnaces.

HECLA FURNACES are not put together with bolts and cement. If you know anything about furnaces, you know what that means. Heat expands bolts more or less than the metal surrounding them—and they work loose. Cement drops out. Then gas, smoke and dust creep through the cracks and poison the air.

HECLA JOINTS ARE FUSED at white heat and welded together. That makes a solid sheet of metal so there can be no escape of gas, smoke or dust.

If you are putting in a new furnace this year, send us rough sketch of house, and we will make, free of charge, an estimate of the cost of installing the right HECLA furnace.

"Clarke's" Gloves, Mitts Moccasins, etc. are Branded

You know the value of a piece of gold or silver by its stamp or brand—the stamp is the government's guarantee of its worth; without the stamp you would doubt its value, and would not accept it.

Leather values, unstamped, are just as deceptive as gold or silver values unstamped, and in order to protect the people who buy and wear our goods, we have stamped our name on every article. Our stamp means our guarantee of value to you, just the same as the government's stamp.

If you insist on buying gloves, mitts, moccasins, etc., with "Clarke's" stamp you will know exactly what kind of leather you are buying, and have our guarantee of its value.

Only the best materials, finish and workmanship are used in "Clarke's" lines.

Sold by all dealers. Catalogue free for the asking.

Bell's Exhaust Blower Ensilage Cutter

will cut and elevate more corn per hour—pack it in 1-3 LESS space than any other Ensilage Cutter.

We make the best Ensilage Cutters in Canada whether carrier or blower. Our Exhaust Blower however is, far and away, the best Ensilage Cutter made. The Ensilage from it is thoroughly mixed and pulverized—all hard lumps of ears and stalks are broken up. And it won't choke or clog because the cut corn falls on a shaker chute, which passes it immediately to the blower.

Write us your requirements and power for running machine, and we will tell you what machine and attachments are best suited to your purpose. Catalogue free.

THE RAZOR STEEL, SECRET TEMPER, CROSS-CUT SAW.

We take pleasure in offering to the public a saw manufactured of the finest quality of steel, and a temper which toughens and relines the steel, gives a keener cutting edge and holds it longer than by any process known. A saw to cut fast must hold a keen cutting edge. This secret process of temper is known and used only by ourselves. These saws are elliptical ground with back, resulting less set than saws now made. They are made from wash to back. Now, we ask you, when you go to buy a Saw, to ask for the name of it—SHURLY'S Secret Temper Saw, and if you are not satisfied with the quality, as some of the people who have used our secret temper steel, we have a money-back guarantee. It does not mean that you will get your money back, but that you will get a better saw. Thousands of people have used our Secret Temper Saw, and they all say it is the best. It is the best in the States and American Samoa.
