For the Engineers of Canada

The engineering profession of Canada have before them a vast field of enterprise. The average engineer must keep pace with the developments of his profession. But he cannot afford to lose even five minutes. He must know what is going on in the engineering world. The paper which tells him all he wants to know is an acquisition; the paper which gives him the same information without wasting his time is the best of all.

The "Canadian Engineer" is THE journal of engineering in Canada. It is a monthly, illustrated publication of 84 pages, same size as the "Monetary Times," and is published by the same proprietors at the corner of Church and Court Streets (opposite St. James' Cathedral). The following articles amongst others appear in the March number now ready:

The Foundry Core Room. By G. H. Wadsworth.

The Electric Furnace — its evolution, theory and practice. By Dr. Alfred Stansfield of McGill University.

Steady Floating Steel Foundations.

Britain's Opportunity for Canadian Iron and Steel Trade. Book Reviews.

Systems in Industrial Establishments. By A. J. Lavioie.

The proprietors of the "Canadian Engineer" are satisfied that the time has come when the engineering interests of Canada should be served by a Weekly Journal, and are issuing now a weekly edition of the "Canadian Engineer." The weekly edition of the "Canadian Engineer" gives all the news which the engineer desires. The reader may peruse the paper from one end to the other. Not a minute of his time will have been wasted. The news is live. And the possession of live news to the engineer means progress in his profession. Construction items are classified, and he can put his finger on just the thing he wants every time. The last issue contains, amongst other features, the following:

N.S. Society of Engineers.
 Winner of Gzowski Medal.
 Notes of Markets.
 Tenders Called For.

Subscription rates: Monthly and Weekly editions, each \$1 per annum.

PROC

Pacifi

The seventeenth holders of the office, 321 Cambridge Street, Tuesday, the 20th of March, at 10 o'clock p.m.

The chair was occupied by the president of the company, the secretary, the financial statement, and the president.

The president reported, said: "In presenting the 1906, I wish to say that it is very gratifying to the company's stock and by capital paid-up capital doubled, and capital is now \$20,928.41.

By the transfer of the year, the Dominion Company paid on the stock 100 per cent. per annum amounting to \$20,928.41.

The security which is much greater than that of all other companies of the world. The careful control has resulted in a 100 per cent. Last year the company was incorporated, and legitimate losses were factually settled.

In building to make strong enables us to do the amount of the amount. This also enables the company to do the amount of the amount. I expect to do the amount of the amount over \$100,000 being to increase the amount of the amount.

With the secured the company in the commerce in the company. Each of the least ten shares and is, therefore, the company's members whose three million dollars.
