AFGHANISTAN.

Qabul, November 27.—The inquiry into the conduct of ex-Ameer Yakoub Khan and his ministers, in connection with the massacre of the British Embassy, has terminated. The report of the commission of inquiry has been forwarded to the Viceroy of India. Nothing transpired to alter the unfavorable opinion hitherto current regarding the Ameer's course.

GREAT BRITAIN.

London, November 20.—The Times publishes the rules issued for the guidance of newspaper correspondents with the armies in India, requiring all correspondents to carry a license, to submit to absolute censorship, and wear a distinctive badge, placing all correspondents in the field under the Military Act. The Times condemns the rules as fussy, trivial, vexatious, and an insult to the British public.

London, November 19.—The most bitter feeling pervades all classes of society here against Russia. The facts cannot be denied that the worst opinion of Russia is universally expressed, and it is openly avowed that the Czar and his satellites are bent on obstructing the peace of the world. That there will be a great military bath in Europe is emphatically predicted for an early date. At the various embassies the partners are discussed, and generally run France, Russia, and Italy vs. England, Germany and Austria.

New York, November 19.—Considerable excitement was caused throughout the city yesterday by rumor to the effect that war was expected to be declared at any moment between Russia and England. Despatches from London to the Associated Press state that Russia had requested Turkey to notify all signers of the treaty of 1856 to send a squadron to the Bosphorus in case the English fleet entered the straits. The feeling runs high in certain circles, and some announced that the English Government had instructed Lord Dufferin, its representative at St. Petersburg, to close negotiations with the Government of the Czar. A reporter called on the English consul to ascertain what information he had on the subject. The consul said he knew nothing beyond what he had seen in the newspapers, and that he thought the news was sensational and without foundation. It was not probable, in his opinion, that so serious a state of affairs could arise so suddenly. Still the rumors might be well founded for anything he knew to the contrary. As yet he had received no official notification on the subject.

London, November 25.—On Saturday it is understood a warrant will be issued committing Rev. Alex. Mackenzie to prison for disobeying the prohibition of the court and for contempt in tearing down the court's order from the doors of his church.

UNITED STATES.

Oswego, November 20.—The names of the persons lost by the recent lake disaster are as follows, all from the dredge Gordon: Richard Arnold, Rochester; Patrick Regor, Grand Rapids; William Logan, Morrisburg; Samuel Logan, Morrisburg; Geo. Palmer and wife, Vergennes. Three men on the scow were thought to be lost until a despatch announced that they are safe at Walcott, thirty miles west of here. The losses on property are: Tug Thayer, \$2,000; tug Barker, \$2,000; dredge Gordon, \$15,000; two derricks, \$6,000; two scows, aggregate value, \$9,600. One on head and may be saved. No insurance. Opinion is divided as to whether Manager Arnold or Capt. of the tug Seymour is to blame.

NOTICES.

POSTPONED.—The St. Patrick's Benevolent Society have postponed their entertainment from Friday, 28th inst. to Friday, Dec. 2nd. This applies to the one of the finest entertainments of the season, and should be liberally patronized.

MCDONNELL'S SHIRAZIA COMPANY is announced to open for a season of five nights in this city, commencing on December 2nd. This is one of the few really talented and respectable companies now travelling. The mere announcement will be sufficient to gain for them that large patronage always extended to them in this city.

OVENSHOES.—Now is the time to buy a pair of good ovenshoes, to keep them the best winter. D. Regan, opposite Strong's Hotel, has a large stock on hand, as well as rubbers, and an endless variety of boots and shoes suitable for the young and the old of both sexes. The closest figures is the rule at this store.

CLOTHING.—Now is the time to provide good and warm winter clothing, and we know no better spot in the city to procure such at a cheap figure, than in the latest style, and of the best material, that is, at the old McDonald's, City Hall, Mr. McDonald is one of the best cutters in Ontario, and his partner is a young man who has had many years' experience in the clothing trade. Both give every satisfaction to their customers.

THE SUPERIOR.—The Superior Savings and Loan Company is now taking a place among the most successful monetary institutions of the country. Money can be obtained at all times on the most reasonable terms, and the business is conducted in that straightforward, honest fashion which is the cause of the Company's present flourishing condition. A saving's branch is also connected, where the highest rates of interest will be paid depositors. To the energetic and gentlemanly secretary, Mr. Milne, the success of the company is also largely due. This gentleman will at all times afford every information to those who may have business to transact in this line.

LARGE SHIPMENT OF SLEIGHS.—John Campbell of this city, the extensive carriage and sleigh manufacturer, is now shipping to Manitoba about forty magnificent finished sleighs and cutters, double and single-seated. Mr. Campbell is now doing an immense trade, both home and foreign. His work is much admired, and

hence the extensive orders he is constantly favored with.

THE WILLIAMS' SINGER SEWING MACHINES.—The C. W. Williams' Manufacturing Company, of Montreal, whose advertisement appears in another column, is one of the most prosperous and enterprising concerns in Canada. A perusal of their announcement will repay any person interested in sewing machines. The great popularity of the Williams' Singer, and the rapid increase of sales, are the best evidences that it is a thoroughly reliable and well-constructed machine. The agents are Messrs. Fessenden Bros., 233 Dundas street.

THE MOBIERE TURKISH BATH.—In no particular has the developments of the uses and benefits of electricity been more successfully applied, and with more beneficial results, than as a curative or preventive of disease in the human body. From the nature of the electric fluid, the proper application to the patient is as important as the electricity itself, and in order to bring about the desired result, it is necessary that the greatest care be taken in regulating the conditions of the body. It is claimed for the Mobiere improved Turkish bath that it is the most successful combination of luxury and health ever offered to the public, combining all the beneficial results of the Turkish, Roman, Electric and Russian baths. This kind of bath is but little known in the Dominion. Prof. Wilson's establishment, at 244 Queen's avenue, being the first of its kind in Canada. These baths are highly spoken of on the other side. Much might be written of the luxuries and benefits of the bath, but we would invite all those who are suffering from rheumatism, neuralgia, gout or any other of the thousand pains and diseases to which man is liable, to give Prof. Wilson a call and he will be amply rewarded for his trouble. The utmost care may be relied upon by all patients of Prof. Wilson, who is a graduate of several colleges, and has successfully made those baths the study of a life time.

A GOOD PLAN

Anybody can learn to make money rapidly operating in stocks, by the "Good Plan Rules for Success," in Messrs. Lawrence & Co.'s new circular. The combination method, which this firm has made so successful, enables people with large or small means to reap all the benefits of largest capital and best skill. Thousands of orders, in various sums, are pooled into one vast amount, and co-operated as a mighty whole, thus securing to the largest operator. Immense profits are divided monthly. Any amount, from \$5 to \$5,000, or more, can be used successfully. N.Y. Baptist Weekly, September 20th, 1878, says: "By the combination system \$15 would make \$25, or 5 per cent.; \$50 pays \$50, or 7 per cent.; \$100 makes \$100, or 10 per cent. on the stock, during the month, according to the market." Frank Leslie's Illustrated Newspaper, June 29th: "The combination method of operating stocks is the most successful ever adopted." New York Independent, Sept. 12th: "The combination system is founded upon correct business principles, and no person need be without an income while it is kept working by Messrs. Lawrence & Co. Brooklyn Journal, April 29th: "Our editor made a net profit of \$20.25 from \$20 in one week. Lawrence & Co.'s combination." New circular (freely) explains everything. Stocks and bonds wanted.
